### THE WESTON NEIGHBORHOOD.

**A Narrow Escape from Fire of the Marshall House.**

Weston, Dec. 24.—The explosion of a lamp nearly caused a serious fire at the Marshall House last evening. The lamp was used to light one of the halls on the second floor and had been lit an hour or more, when it ex-

ploded, setting fire to the carpet, some furniture and a door to one of the rooms.

The fire was discovered accidentally and in the nick of time. One of the chambermaids had been sent up stairs with some linen for one of the rooms, and saw the flames just as they were gaining headway. She gave the alarm and Mr. Bradley, the proprietor, and Alvin Long, one of his helpers, by quick work, succeeded in gaining control of the flames before much damage was done.

#### Weston Notes.

The masquerade ball given by the Knights of Pythias was a great success. The ball was opened by a grand march, led by H. M. Salling and Miss Irene Irons. The patrons were loud in their praises of the supper given at the Marshall House.

Senator Proebstel went to Walla Walla yesterday to visit Mrs. Proebstel, who has been under treatment at a hospital at that place for the past two months. He reports Mrs. Proebstel as much improved.

#### Walla Walla in Darkness.

Walla Walla, Dec. 27.—The city was in darkness last night owing to a break at the power house of the electric company. No juice was furnished yesterday afternoon for power or light. Candles and old lamps were gotten down last night, the first in two years.

#### Putnam Files Lien.

George Putnam of Milton has filed a lien at the court house against real estate belonging to George Edwards, of the same place, and asking judgment in the sum of \$46.11 alleged to be due from Edwards for lumber used for the building of a house.

Mr. Hall recently sold 160 head of stock cattle to M. M. Wyrick, of Echo. These consisted of cows, calves, yearlings and 2-year-olds and were sold at a lump price of \$23.23 each. This is a very good price for stock cattle and Mr. Hall says there is some money in raising them for this price. He has 100 left which he is feeding and keeping in the straw fields near Howard.

State Dairy and Food Commissioner J. W. Balley, came from Portland on the morning train and put in the day looking into the food products that come under his supervision and will visit and inspect the dairies that furnish Pendleton with milk. Mr. Balley reports that generally dealers throughout the state are not only willing, but anxious to comply with the requirements of the pure food laws. Just now the matter of short weight butter, bogus jellies and jams and adulterated vinegars is occupying the attention of Commissioner Balley. So far he has found no violations that would justify prosecution. Generally a warning is sufficient to bring all in line. Mr. Balley will continue his trip east, probably going as far as Huntington, on this evening's train.

#### Test for Race Law in Gotham.

New York, Dec. 27.—The Percy Gray racing law, which since 1895 has made it a crime to make a book on the horse races in town, while permitting it at the race tracks, was put on trial for its life today when the case of Charles Bennet was called before Justice Lacombe. Bennet is one of the Allen's men and was arrested in a pool room raid some time ago. It is understood that several racing organizations as well as the pool room interests are behind Bennet in his defense in order to make a definite and decisive test. The constitutionality of the law is attacked on the ground that it discriminates between persons and classes in violation of the constitution of the United States. If this contention is sustained those back of the movement hope to bring about the reopening of the pool rooms in this city.

#### Receive Mail Once a Year.

London, Dec. 27.—It must be thought a most out of the world where the postman arrives only once a year and where the telegraph is unknown. It would seem even more surprising that Great Britain should possess a place so outlandish. But it does in Pitcairn Island, a mere dot in the middle of the Pacific, the home of the descendants of the mutineers of H. M. S. Bounty. Early in the coming week the 120 inhabitants of that little colony will be gladdened by the appearance there of the warship Condor, with mails from England, a treat which is afforded them but once a year.

#### New Industry in Northwest.

Everett, Wash., Dec. 27.—The Coast Compo company is the name of a new industry about to be started here. Compo is a material which is used as a substitute for laths and plaster and the factory to be located here will be the only one of its kind on the Pacific coast.
