### DR. PARSONS' MONEY.

**He Will Give It Straight to Deserving  
Institutions.**

Dr. Parsons, of Chicago, announced  
on New Year's day that it was his pur-  
pose not to make any more condition-  
al gifts to colleges. It was his inten-  
tion, he said, to give the rest of his  
wealth—probably \$3,000,000 or \$4,000,-  
000—outright in the course of the  
next few years, to the colleges which  
have accomplished the most with  
what he has given them in the past.  
"Every cent I give away after the  
end of this year," he said, "will go  
straight out to the institutions I have  
already helped. There are 30 of them,  
mostly in the West, and I am going to  
look them over next year and make  
up my mind. The colleges that have  
done well, that have saved the endow-  
ment and used it in the right way, will  
get he money."

Some of the fortunate colleges, Dr.  
Pearson has already decided on. He  
did not say so distinctly, but his  
praise of Drury college, Missouri;  
Whitman college, Walla Walla,  
Wash.; Colorado college, Pacific Uni-  
versity, Oregon, and Beloit college,  
leaves no doubt of his intentions to-  
ward them.

### CUBA'S PRESIDENT TALKS.

**Estrada Palma Will Urge Reciprocity  
With United States.**

New York, Jan. 3.—Tomas Estrada  
Palma, in his home at Central Valley,  
N. Y., received the news that his elec-  
tion to the presidency of the republic  
of Cuba was conceded. He announced  
that he new Cuba would be one of  
work and high endeavor, that it would  
be his aim to strengthen the friendly  
relations which exist between his  
country and the United States and to  
bring about reciprocity.

### Oldest Odd Fellow Dead.

Santa Barbara, Cal., Jan. 3.—James  
L. Davidson, the oldest Odd Fellow in  
the United States, is dead here. He  
was born in West Virginia 89 years  
ago and became a member of the  
Franklin lodge at Wheeling.

### Americans Will Be There.

From London comes the news that  
the liveliest bidding for houses and  
apartments for coronation year comes  
from Americans and no amount of  
money is considered too great for  
our multimillionaires when they have  
made up their minds to secure a place  
in which to entertain. The specula-  
tion concerning the lease of Ditton  
Park has been checked by the an-  
nouncement that he property during  
coronation year at least, will be oc-  
cupied by W. Curtis Wakefield, the  
New York millionaire. Ditton Park  
is one of the most magnificent man-  
sions in England, surrounded by a  
broad, deep moat, which is crossed by  
a single bridge, through an embattled,  
arched gateway. The residence is situ-  
ated in the heart of a park of 300  
acres and the historic old estate was  
the home of the late Duchess of Bac-  
cleuche. It is needless to state that  
the agents entertained hopes of Mr.  
Wakefield ultimately purchasing the  
property.

### Lieutenant Suicides.

Lieutenant James F. Bevan, Eighth  
artillery, was found dead in his bed  
at Fort Canby Wednesday morning.  
His brains were blown out and by  
his side was found a revolver. It is  
apparently a case of suicide though  
no reason is known why he should  
take his life. He had risen from the  
ranks and was a very popular officer,  
being the captain of the Fort Canby  
football team. Bevan was 40 years  
of age and had served in the Philip-  
pines.

### A Pioneer of 1857.

J. A. Osborn, a pioneer of 1857,  
and who has resided in Marion coun-  
ty since that year, without once leav-  
ing this state, left Salem Sunday  
night for Marysville, California,  
where he will spend the remainder of  
his days with his son-in-law, J. A.  
Maplethorp. Mr. Osborn and Judge  
J. J. Murphy came to Oregon together  
in 1857, and settled at Champeog.  
Here Mr. Osborn resided until 1875,  
when he moved to Salem. He served  
for twelve years as deputy warden at  
the Oregon penitentiary, and since  
quitting that position has lived in re-  
tirement in Salem. In June, 1900, his  
wife passed away and the old gentle-  
man, feeling lonely here, desired a  
change and decided on joining his  
daughter and son-in-law in California.

### A Profitable Investment.

"I was troubled for seven years  
with my stomach and in bed half my  
time," says E. Demick, Somerville,  
Ind. "I spent about \$1000 and could  
get nothing to help me until I tried  
Kodol Dyspepsia Cure. I have taken  
a few bottles and am entirely well."  
Kodol Dyspepsia Cure does the stom-  
ach's work by digesting the food. Tall-  
man & Co. and Brock & McComas.

### Boiler for Sale.

A 25-horse-power horizontal tubular  
boiler, guaranteed to be in first-class  
condition, for sale at the Domestic  
Laundry.

Three rural delivery routes were in-  
augurated in the vicinity of Spokane  
Thursday morning.

### STARVATION A CURE.

**Infants Are Given Food Frequently  
When Their Need Is Drink.**

Starvation as a scientific cure for  
popular infantile disorders is the new  
theory advanced by Dr. Karl Lewin,  
a distinguished Berlin specialist in  
children's diseases. Dr. Lewin as-  
serts that motherly sympathy is often  
wrongly directed in gratifying their  
babies' longing for the bottle, declar-  
ing that in most cases the child would  
be benefited by going hungry. Close  
observations have led Dr. Lewin to be-  
lieve that infants require liquid but  
not food after weakening illnesses of  
the stomach accompanied with vomit-  
ing and diarrhoea. Writing about his  
discovery, Dr. Lewin says:

"When babies cry and clutch the  
nursing bottle their physical wants  
are best served by giving them plain  
water to drink. They should be al-  
lowed to go hungry, but unthirsty. I  
regard a period of starvation as abso-  
lutely necessary for the first 20 or 24  
hours. The idea is not as cruel as it  
might seem, inasmuch as grown  
persons under similar circumstances,  
often feel no necessity for food for  
many hours. A valuable ally to this  
hunger cure is such treatment as  
causes the blood from the region of  
the stomach to rush toward the skin.  
This is best achieved by a cold bath  
and hard rubbing afterward, or by  
a hot bath—whichever the condition  
of the child suggests."

Competition in telegraphy in the  
Pacific slope promises to increase in  
briskness through the rapid entry of  
the Pacific States Telephone and Tele-  
graph company into the business.
