MARKET DAY TO BE REVIVED.

Tuesday, January 14, the Next Mar-
ket Day; Horse Buyers to be
Here.
Market day is to be revived in Pen-
dleton. The Commercial Association,
who have this work in charge, have
concluded to start the ball rolling
again and has set Tuesday, January
14, as the date for the next market
day. It will be remembered that this
movement was started in the fall,
and that owing to the winter months
coming on, when the roads were bad
and it was difficult for the farmers
to get their stuff into town, it was
dropped for a couple of months.
The management of market day
have now secured the government
horse buyers from Vancouver bar-
racks, who will be here on the 14th,
when 250 artillery horses are wanted
for use there, and at the barracks
in Walla Walla.
C. S. B. Hayden, of the quartermas-
ter department, from Vancouver,
is here trying to interest the people
in bringing horses for this sale. Man-
ager A. B. Dyer, president of the
board and T. M. Owen, veterinarian,
will be here on the date fixed for the
sale to inspect and examine the
horses.
Mr. Hayden says that they pay out
all the way from \$1000 to \$6000 in
every town they visit to buy horses
and the Association has made a spe-
cial effort to get them here with the
idea that some of this money might
come to this county.

Kind of Horses Wanted.

Colors—Bays, blacks, browns and
sorrels; age from five to eight years;
height 5½ to 16 hands; weight, 1050
to 1200 pounds; broken to ride and
drive. The owners must both ride
and drive the animal in the presence
of the examining board as they do not
have their own riders and drivers
with them.
An effort is also being made to
have other buyers here to
take the horses refused by the exam-
ining board.

Trains Now on Time.

For the last few days all west-
bound trains have been on time. For
a month past there was hardly a day
but that these trains came into Pen-
dleton all the way from one to 24
hours late and one time No. 1 and
No. 5 were held over a day to catch
up, and an extra put on in their
places. This was caused by the snow
and wind storms through Colorado
and Wyoming. This condition has
changed and trains are now making
time, to the gratification and comfort
of the traveling public.

Wood and Box Cars Destroyed.

Word has just reached here that
fire, which broke out in a box car at
a little siding on the O. R. & N. called
Wood Spur, east of Bingham
Springs, destroyed about 165
cords of wood belonging to H. A.
Blair, and three box cars, New Year's
night. In a letter to Gus Lafontain,
who has a mortgage on the wood, Mr.
Blair says that he does not know how
the fire originated. It started in a
box car and may have been the work
of hobos, or it may have been started
from sparks of an engine.
