perfume in this territory. Come in and we will convince  
you. Come in any way and we will put a little on your  
handkerchief.

**KOEPPEN'S PHARMACY.**  
The popular priced drug store on Court Street, sixty-five steps  
from Main Street towards the court house.

## WILL HE REMAIN?

EVERYONE WONDERS ABOUT  
THE POLICE SQUABBLE.

Committee May Not Report Prior to  
Next Wednesday Night.

What will happen to Marshal  
Heathman? Will the charges made  
against him be cleared up and he be  
retained as city marshal, or will the  
investigating committee report unfa-  
vorably and he be replaced by an-  
other man?

These are questions that are occu-  
pying the public mind, and being talk-  
ed of by every citizen of Pendleton.  
After several sessions, which are un-  
derstood to not have been blessed by  
the presence of the best of harmony  
among all the committeemen who  
were investigating the charges made  
against the police department, they  
finished their work of "sifting" the  
Thursday, but what conclusions they  
have come to can only be guessed at.  
All kinds of rumors are afloat. Some  
say the committee have agreed to  
"oust" Heathman, others  
equally as certain that the whole  
thing has been adjusted satisfactorily  
and he will remain in chief of police  
for another year, at least. However,  
this may be, no one but the commit-  
tee themselves know, and when their  
report will be made public has not  
yet been determined, but it is likely  
that nothing definite will be given to  
the public until after next Wednes-  
day night, when the city council hold  
their regular meeting.

In the meantime, those interested  
have no other alternative but to wait  
and wonder.

## The Leader's Opinion.

The Weston Leader says of the  
matter:

Pendleton is in the throes of an  
investigation of the police depart-  
ment, and a council committee is in  
session behind locked doors. It ap-  
pears that while he has been a good  
city marshal, "Missouri John" Heath-  
man has failed to rise superior to the  
profitable methods of numerous pre-  
decessors tacitly sanctioned by differ-  
ent council bodies for years. That is,  
the marshal gets a certain "rake off"  
from the fines of bagnes, gambling  
houses and slot machines, and shares  
it with the recorder. Mayor Hailey  
has attacked this system, and Mayor  
Hailey is right. All such systems of  
"grafting" so often tolerated that  
they have almost come to be regard-  
ed as legitimate, should be throttled  
everywhere in the interests of good  
government; and particularly so at  
Pendleton, which has of late been set-  
ting an excellent example as a well-  
governed city. Meanwhile Marshal  
Heathman has discharged his duties  
so capably as to be entitled to serve  
again, if he so elects, under a better  
and cleaner system. Well will it be  
for this republic, and every common-  
wealth and every municipality within  
its borders, when perquisites and  
"pulls" have had their day; and Pres-  
ident Roosevelt himself is pointing  
out the path of probity, purity and  
merit to public servants.

## MAY LEAVE WALLA WALLA.

Artillerymen Likely to be Sent to  
Puget Sound.

The Union says:  
The belief that one or both of the  
artillery organizations now quarter-  
ed at Fort Walla Walla will be sent  
to Puget Sound is strengthened by a  
published report of an interview  
given out by Major E. T. Richmond,  
who announces that within the next  
few weeks there will be an addition  
of six artillery companies to the com-  
plement of the Sound fortifications.

While the batteries at Fort Walla  
Walla are both field organizations,  
the claim is made that there are not  
a sufficient number of coast artillery  
companies to garrison the works  
demanding attention, and it will,  
therefore, be the business of the de-  
partment to fill the gaps with field  
artillery, the belief being that light  
batteries will lose none of their  
efficiency through being associated  
with heavy coast guns.

The fact that equipment for the  
thirtieth battery, field artillery, sta-  
tioned in this city, has not yet been  
shipped from the Rock Island arse-  
nal is taken by some as grounds for  
the belief that Battery Thirty is to  
be converted into coast defense ar-  
tillery. There is no rumor current  
at the fort as to what troops may  
come to take the place of the ar-  
tillerymen in the event they are or-  
dered away.

## LIVE BIRD SHOOT.

Pendleton Sportsmen's Association  
to Contest on Sunday.

The Pendleton Sportsmen's associa-  
tion will hold its regular monthly  
medal shoot at their grounds, south  
of town on Sunday. This shoot will  
be at live birds and much interest is  
being taken by the local sportsmen  
over the prospects of the event, as  
several new shots will be entered and  
the contest is to be one among their  
many pleasant events. The shoot is  
to start at 10 o'clock a. m.

During consideration by the senate  
of pension legislation, some  
statements were made by Gallagher,  
chairman of the committee on pen-  
sions, in regard to regulations adopted  
by the committee to govern it in  
consideration of private pension  
bills. He announced that none but  
absolutely meritorious cases would  
be presented to the senate for its con-  
sideration, and that the closest scru-  
tiny would be given by the commit-  
tee to every bill introduced.

## ARGUES FOR GOOD

ROADS BEING BUILT.

A Malheur County Citizen Presents a  
Right View.

In an extensive article on the sub-  
ject of good roads, a writer in the  
Weekly Democrat of Ontario, Mal-  
heur county, brings out the follow-  
ing:

After a country has killed the  
snakes and built the bridges the next  
step should be to make good public  
highways. No country is more in  
need of good roads than where towns  
are great distances apart and of great  
distance from railroads. Nothing  
tends to the quick development of  
a sparsely inhabited country more  
than good roads. When the farmer  
12 miles from town finds that the dis-

tance has been annihilated by half on  
account of a good road, and when he  
finds that the load of former years  
may be drawn with half the horse-  
flesh, he begins to realize that the  
highway is half the battle. When the  
stranger comes to a country nothing  
impresses him quicker than the con-  
dition of the highways. The farms  
may be in fair condition, the school-  
houses frequent and the church here  
and there, and little thriving villages  
throughout, but there is one matter  
that always leaves its picture, and  
that is the time it takes to haul a load  
to town. The farmer five miles out  
has the advantage of the man 10  
miles out and so on. When it is  
necessary to figure half the expense  
of farm product against the hauling  
of it to town, the farmer realizes  
what the road question means. A  
country without good roads is like a  
town without sidewalks.

## Tax Idle Lad.

If the taxes are high enough at the  
present, then let us tax the specula-  
tive part of the district, the land that  
is being held for the farmer to cre-  
ate a higher value by improving his  
own. It is very plain that our coun-  
try is only 60 per cent. of what it  
would have been but for speculators  
who secure large tracts of land and  
hold it for higher prices. This not  
only retards the general development  
of the district, but works a hardship  
on the person who pays taxes. He is  
called upon to pay taxes on the fruit  
of his industry, while the vacant land  
lies idle for the purpose of gaining  
the advantage of another's husband-  
ry, and at the same time is not a  
contributor to the revenue of the  
state or country. If we can tax this  
idle land to some just and equitable  
basis, it will reduce the present tax-  
ation percent one-half, and at the  
same time furnish ample funds for a  
good road movement which will an-  
nihilate distance and labor throughout  
our country, present a substantial ap-  
pearance and character to the stranger  
and relieve wagon transportation to a  
great extent.

## FOUR FEET OF \$70 FREE ORE.

Rich Strike in the Concord Mine, Ad-  
joining the Famous Old Red Boy.

Messages to President J. H. Rich-  
bins of the Concord company, at  
Sumpter brought the pleasant news of  
a rich strike of four feet of \$70 free  
milling gold ore in the face of the  
Blaine drift as a vertical depth of  
nearly 600 feet. Last May a like strike  
was made at the Blaine drift—in fact,  
from the point of intersection of the  
Blaine ledge and the cross cut from  
the Concord vein, the main drift has  
passed through a series of rich pay-  
chutes, varying in length from 65 to  
100 feet.

The first chute was encountered 100  
feet from the cross cut. Sixty-five  
feet of high-grade milling ore was  
driven through and at 265 feet a sec-  
ond chute of 5 feet of \$50 ore was  
broken into. This was exploited 80  
feet, and at 750 feet from the tunnel's  
mouth, the third rich chute was found.  
These three chutes, 5x80x500 feet in  
average dimensions, makes the Con-  
cord one of the biggest mines in the  
West.

Last summer representatives of  
Senator W. A. Clark, of Montana,  
were given an option on the Concord  
for \$300,000. This option has been re-  
voked by officers of the company. It  
is understood that a big mill will be  
ordered for the mine. The manage-  
ment has been awaiting for just this  
third chute to establish the perma-  
nency of the Concord. The Blaine  
ledge runs into the famous Red Boy,  
and is an extension of that rich vein.

## WESTON SOLD WHEAT.

54½ Cents Net Paid There for a  
Large Lot.

Weston has been a better wheat  
market than usual this season, rank-  
ing in this respect with any other  
point in the country, says the Leader.  
All along it has been in line with  
other local markets, and last Sat-  
urday the top price by two or three  
cents over Pendleton, Walla Walla  
or Athena, was paid for about 14,000  
bushels.

This lot embraced the pooled crops  
of G. DeGraw, G. W. Stagg and Mrs.  
A. Stagg, and seemed to be in ex-  
ceptional demand. It brought the  
noteworthy price of 54½ cents per  
bushel, net, and caused something of  
a flurry in local wheat circles. The  
lot was bought by R. Jamieson, agent  
of the Pacific Coast Elevator com-  
pany. Part of it had been sorted in  
the Kerr-Gifford warehouse. The fig-  
ures in bushels were: G. DeGraw,  
6705; George Stagg, 4540; Mrs. A.  
Stagg, 2230. Mr. Jamieson also pur-  
chased 7405 bushels from J. H. Key,  
but not at the same figure. This lot in-  
cluded the crops of three seasons.

Now let our towns humbly take off  
their hats to Weston as the leading  
wheat market in the Inland Empire.  
The East Oregonian reports that  
50½ cents was paid in Pendleton on  
Monday, "which is the highest price  
wheat has reached since the 1901  
crop was harvested." It says that lo-  
cal buyers estimate that out of the  
county's crop of 4,500,000 bushels,  
600,000 bushels remain in the hands  
of the growers.

Wheat in the Eastern markets has  
an "upward tendency," being stimu-  
lated, no doubt, by the advices from  
Weston.

## Has Many Virtues.

For cuts, burns, bruises, DeWitt's  
Witch Hazel Salve is unequalled. Be-  
ware of dangerous counterfeits. Sure  
cure for piles. Tallman & Co. and  
Brook & McComas.

## TO REFUSE TO PAY

MAY TURN DOWN CLAIM  
FOR DAMAGES FROM COUNTY.

Court and District Attorney Visit  
Place Where Vinson and Others  
Were Thrown Out.

Very little business was transacted  
on Thursday by the county court,  
which has been in session since the  
second inst., except to review the  
claims of W. L. McCullough, W. A.  
Banister and J. L. Vinson for \$267.60,  
which has been presented to the coun-  
ty asking that they be paid this sum  
for injuries received in a smash-up  
caused by driving off a bank at the  
side of the road near Helix, in the  
dark a month and a half ago.

Judge Hartman and District Attor-  
ney Hailey, accompanied by Commis-  
sioners Gilliland and Walker, drove  
out Wednesday and reviewed the  
place where the accident occurred,  
and, while the complainants think the  
county had been negligent and left  
a dangerous place in the road making  
it possible for such an accident as  
they experienced, and, although the  
county court did not make their re-  
port yesterday either rejecting or al-  
lowing the claims, it does not look  
favorably upon them and they will  
probably be turned down.

If this is done, the complainants  
say they will take their claims into  
court, bringing suit against the coun-  
ty. The county court, however, thinks  
that this same bank has been there  
for years and heretofore no accident  
has occurred and they are inclined to  
look upon the action in the light that  
those making the complaint were to  
blame and that the county should not  
be held responsible. They say this  
bank is not worse than thousands of  
others in different places over the  
county, and is something that cannot  
be eradicated in every instance.

**Change in Precinct Boundary.**  
In addition to reviewing the case  
above mentioned, a petition was pre-  
sented and read by the court asking  
that the boundary of Willow Springs  
precinct be changed so as to include  
the following to be taken from Alba  
precinct, beginning at the northeast  
corner of section 2, township 4, south  
of range 20, E. W. M., running thence  
south to the southeast corner of sec-  
tion 14; thence west to the southwest  
corner of section 18; thence north to  
the northwest corner of section 6;  
thence east to the place of beginning,  
all in the same township. The peti-  
tion was granted and it so ordered.

## Chinese Empress' Present.

The steamship Glenogle brings the  
news that before leaving Hsian-fu  
and while en route to Peking the Chi-  
nese empress dowager received pres-  
ents and tribute from twenty-two  
Chinese provinces aggregating 20,  
000,000 taels. When the imperial party  
left Hsian-fu it was preceded by  
General Ma and 1500 cavalymen es-  
corting 700 large carts filled to over-  
flowing with pure silver bound for  
Hanan, where it is to be deposited  
with the provincial treasurer to  
await the pleasure of the empress.  
This tribute money will go into the  
empress' private purse. It comes  
chiefly from the high provincial and  
metropolitan authorities. The gifts  
are from the wealthy aristocrats,  
who were anxious to purchase her  
majesty's favor.

## THE

## French Restaurant
