

# Great Slaughter of Prices

Winter Goods Must be Closed Out.

We are putting out all our suits and overcoats, at a big reduction during this sale. You will find our net prices far below the prices of others on the same goods, notwithstanding the big discounts offered by some. The size of the discount does not mean anything to the purchaser; it is the net price that determines whether an article is a bargain.

- Ladies' Waists and Wrappers at a reduction.
- Ladies' Capes and Furs greatly reduced in price.
- Flannellettes and French Flannels at cut prices.
- Comforts also at reduced prices.

Call and get some of our bargains before the stock is picked over.

## WORD TO DEMOCRATS.

Oregon democrats propose to carry on a vigorous campaign next spring. They intend to go to the voters with the request that they give preference to the candidates of the democracy. Let these truths be held in mind, as the issues are made up, and the battle array formed:

The democracy must, if it win, offer that which the republican party in its long holding of power has denied—honest desire to give good government in the capital at Salem.

The democracy must, if it win, offer candidates that are in their very mention the earnest of the promises to be made in the platforms.

The democracy must, if it win, give evidence that it can and will cure the abuses that have existed in the past, both when republicans and when democrats controlled the affairs of the state capital.

The people of Oregon have been treated to some of the most shameful exhibitions of unfaithfulness to official trust that are to be found in the history of politics. Of late, the United States senatorial elections have smelled to heaven with their corruption. The interests of the state have been subordinated to the interests of the politicians. Matters of importance have been forced to the background, while the selfish desires of a few men have absorbed the attention of legislators and state officials.

Oregon stands with reference to its organic law and in the transaction of its details of business, where she stood when she was a new community, and methods as well as ideas were crude. Progress has been prevented by the machinations of those who held the political control.

Again it has been true that bosses in the other party have had too much to say about the management of the affairs of the democracy. The Oregon democrats must, therefore, see to it that these things are no more, and that a better status exists.

The people of this state are heartily tired of the practices that have obtained. They want a change. The republican party is in the majority. This cannot be denied. But, when the democratic party really convinces them that it will bring improvement, then they will give the democratic party the power they seek.

Let the party eliminate the elements that make for a continuance of the disgraceful proceedings of past years, and the voters will not be slow to accept this as the earnest of a pure intention and reward it as it deserves.

## "THE OREGON."

Two events of the past week have been of especial interest to Oregonians. One is the induction into office of Lewis Nixon, as chief of Tammany Hall, the other being the selection of Captain Charles A. Clark, who commanded the Oregon during the Santiago campaign, to represent the

cial News, the Citizen and other papers as beneficiaries from the Lumber & Globe corporation.

When questioned as to whether representatives of Henry Labouchere's Trust had not largely benefited Wright replied: "No; the beneficiaries were connected with the Citizen and one of the editors of Truth or Propriety of the Citizen."

Wright named Editors Bronson and Spender as beneficiaries through the Citizen, and also referred to others connected with the Financial Times and the Financial News, including Mary Marks, editor of the last named paper.

It will be observed that Mr. Wright charged that the financial papers refused to publish reports of transactions or in any manner assist companies until they were liberally paid. A financial paper like any other, is supposed to give news. If the news is beneficial to any one, that is an indirect effect for which it is not responsible and for which it cannot accept pay. The paper must be free from such influences in an enterprise concerning which it publishes news and no paper can accept pay without becoming the paid advocate of the party, distorting the news, misleading its readers and deceiving them when it should tell the truth, especially if it undertakes to publish anything about the matter.

The common financial papers are widely quoted as authorities, but these disclosures will tend to destroy the influence of those journals.

However, it has long been known that astounding corruption exists in London in connection with the promotion of joint stock companies. Men of high position have lent their names to gigantic frauds, and it is not surprising to find that the trust has invaded the offices of papers which should occupy an honest, impartial position.—Boise Statesman.

## AUTOS BRING GOOD HEALTH.

The automobile—as an evangel of health in municipalities has received the unqualified indorsement of Dr. Reynolds, commissioner of health of the city of Chicago. The horse is the subject of a great deal of talk, and can never be dispensed with on the farm. But so long as he works for a living in the streets of Chicago he cannot fail to be a menace to public health in the opinion of Dr. Reynolds.

The horridly visible (in its present stage of development) may leave that disagreeable "residual" as Frank Daniels says, but it is not a distributor of microbes. It does not make work for street sweepers and hence will not swell the budgets of our municipalities. There are 10,000 horse-drawn wagons in the city of New York. Add to these the thousands of "taxi" wagons, delivery wagons and milk-cans, and it is easy to see that the horse, faithful animal that he is, is largely responsible for the item in the city budget that calls for the expenditure of millions for street cleaning.

A handsome illustrated weekly. Largest circulation of any scientific journal. Terms, \$1 a year; four months, \$1. Sold by all newsdealers. Patents taken through Munn & Co. receive special notice, without charge, in the Scientific American.

# Rheumatism

Rheumatism is due to an excess of acid in the blood. When this escapes through the pores of the skin, as it often does, it produces some form of skin eruption—some itching disease like Eczema or Tetter—but when these little tubes or sweat glands are suddenly closed by exposure to cold and sudden chilling of the body, then the poisons thrown off by the blood, finding no outlet, settle in membranes, muscles, tissues and nerves. These parts become greatly inflamed, feverish and hot; dagger-like, maddening pains follow in quick succession, the muscles become extremely tender, the nerves break down and the sufferer is soon reduced to a state of helplessness and misery. This acid poison penetrates the joints and seems to dry out the natural oils, and the legs, arms and fingers become so stiff and sore that every movement is attended with excruciating pains.

Liniments, plasters, electricity and baths, while their use may give temporary ease, cannot be called cures, for the disease returns with every change of the weather.

S. S. S. cures Rheumatism by working a complete change in the blood; the acids are neutralized, the circulation purified and the rich, healthy blood that is carried to the irritated, aching muscles and joints, soothes and heals them. S. S. S. cures Rheumatism even when inherited or brought on by the excessive use of mercury. Opium, in some form, is the basis of nearly all so-called Rheumatic Cures, which deaden the pain but do not touch the disease and lead to ravenous habits. Alkalies and the potash and mineral remedies so often prescribed, affect the tender lining of the stomach and weaken the digestion, thus adding another burden to the already weak and impoverished blood. S. S. S. contains no mineral or dangerous drug of any kind, but is a simple, vegetable remedy and the most perfect blood purifier known. Send for our book on Rheumatism and write our physicians if you wish any information or advice. We will be glad to mail you a book free; we charge nothing whatever for medical advice.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

Latest advices from Dawson were received on the steamer Cottage City by Charles Berryman, who left the Klondike capital in the latter part of December. Berryman says there is a stampede on from Dawson to Henderson Creek, near Stewart River, the scene of the latest gold strike. Gold was known to exist on this creek some time ago, and many claims were located, but later abandoned. But recent work has shown that the creek is rich, and it is yielding \$1.80 to the pan and claims can be purchased at a profit short of fabulous prices.

## Nau's Dyspepsia Cure

For sale by Tatham & Co., and all first class druggists, or send to Frank Nau, Portland Hotel Pharmacy, Portland, Oregon. Price \$1 a bottle or 6 bottles for \$5, express prepaid.
