Baker City Suicide.

Baker City, Jan. 23.—Frank Andre, a druggist by profession and a miner by occupation, died last night in the Crabill lodging house near the O. R. & N. depot of an overdose of paragonic and morphine. His body lies today at the undertaking parlors of Patterson & Eppinger awaiting orders from relatives as to its disposition. Whether or not it was a case of suicide has not been definitely determined. It is probable that Andre, who was intoxicated, drank the drugs to quiet his nerves. If so, he succeeded admirably.

DID JOE DO THIS?

C. A. JOHNS FOR GOVERNOR SUPPOSED SIMON MOVE.

Baker City Lawyer Reported to Be Out for the Head of the Republican Ticket.

Announcement is made that C. A. Johns, of Baker City, is a candidate for the republican nomination for the governorship of Oregon. The move is interpreted by local observers in Pendleton as a part of the Geer-Simon plan to attempt to divide the Eastern Oregon field so as to weaken the following of any one man, and leave the delegation from east of the mountains not united. The convention will then, if the Geer-Simon plan be successful, be asked to rename Geer.

The report of the candidacy of Mr. Johns is not regarded seriously here, and it is known that but a short time ago he stated positively that he was not a candidate for any office within the gift of the people.

A. D. Griffin, editor of the New Age, printed in Portland, was in Pendleton today, and called upon local politicians. Mr. Griffin says that, in his opinion, an Eastern Oregon man is the strongest possibility for the coming republican gubernatorial nomination, and that he thinks that there is large probability that such will be the outcome of the present fight. He has talked with leading men in his party throughout Eastern Oregon, during the past few weeks, and comes to the conclusion that he has about sized up the situation. He stated that down in Portland there is a disposition to look upon the claims of Eastern Oregon with favor, and to concede to this part of the state the head of the ticket.

Mr. Griffin recently visited Jim Washington, who was sent to the asylum from Pendleton, and says that the latter shows no tendency to recover from his mental malady. He believes that Jim will never return here. He expressed the desire to come once more to Pendleton to see his friends, and then was content to die at the hands of his murderers at the asylum.

PLAN FOR A FARMERS' TELEPHONE COMPANY

To Run North to Juniper, 20 Miles, and 20 'Phones are Promised.

A movement is on foot to establish a telephone line from Pendleton to Juniper, 20 miles north of here. The promoters of this enterprise are Dr. C. J. Smith, William McCormack, A. Ruppe and E. L. Smith, and the purpose is place the 20 or more farmers and stock men along the line in direct communication with Pendleton and the outside world.

These people have for sometime been trying to get the Inland Telegraph and Telephone Company to establish a line out to Juniper and the Cold Springs country, but all their efforts have been futile unless they would concede to pay the company present prices, which they refused to do. The company told them 'phones could not be put in their houses for less than \$5 per month, and they thought this too much, but they do not propose to do without this luxury much longer, and 15 farmers have already signed contracts to take 'phones along the line, and it is thought that as many as 20 can be secured. They will join together and each pay his share of expense toward establishing the line and buy his own 'phone.

In speaking of the project, Dr. Smith said: "It is only a matter of time, I think until all this suburban country will have private telephone lines and practically all the farmers will have direct communication with Pendleton. It is not a matter of expense that has kept this from being done long ago, but simply because no one has taken the lead and started the move. Why, I have heard many farmers say they would pay the cost of keeping up a private line a whole year, for the news of the wheat market from town just for one day when the price was fluctuating. The farmer cannot stay in town to watch the market and if he has a 'phone he can keep posted every hour if he wants to. We have not yet estimated the cost of the line far enough that we care to make a statement along this line yet, but it will not be much to any single individual. The work is to be done on the same plan as the Butter creek lines was built this winter."

TOOTHLESS BULLDOG.

A Pendleton Citizen Makes a Discovery in the Nick of Time.

Joseph Basler, familiarly referred to by his friends as "Little Joe," had occasion to go to a lady's house, in circulating a petition, where there is a venerable bulldog of more than ordinary size and desperate appearance. Joe had just knocked, and was standing on the step in a most expectant mood, when with a jump and a bound his dogship landed on his breast, and there both man and dog stood, gazing one at the other. Just at a time when Joe was in deep thought, as to how he would escape a terrible death, the door quietly opened and a mild voice said: "Don't be scared, Mr. Basler, that dog is so old he has not a tooth in his head."

Joe managed to reply: "I wish I had known that!" It is hardly necessary to say that Mr. Basler recovered, got the signature and now smiles to himself whenever the incident recurs to his mind.

The Fuel of the Future.

This question has been worrying many people who fear that the coal supply is becoming exhausted, but there is no need to worry, however, as a substitute has been discovered in petroleum. In nearly all of Nature's products we find that as soon as one material becomes scarce another is discovered to take its place. There is one exception, and that is Hostetter's Stomach Bitters. It is Nature's own remedy for all stomach liver, and bowel complaints, and during the past 50 years it has been impossible to make a better medicine. It cures indigestion, dyspepsia, constipation, nervousness and malaria, fever and ague. If you have never tried it, do so today. It cannot help but do you good. THE STORE CLOSING

AGREEMENT OF THE PENDLETON MERCHANTS.

It is Desired That All Keep to the Early Closing Arrangement to the End of Time.

Most of the stores of Pendleton are closing at 6 o'clock every evening, under the terms of an agreement entered into last fall, and which has been quite carefully observed since the movement was inaugurated. During the past few weeks, however, it has been noticed that a few are disposed to verge across the line a trifle, and it is hoped that this will not continue. The merchants who have religiously kept to the agreement feel as though it were but justice for all to abide by the same arrangement. The clerks also join in the request for no return to the former plan of keeping open all of the evenings, which would be the rule in the event all do not observe the early closing plan.

It is certainly satisfactory to all persons, and the fact that the clerks and other employes have enjoyed their winter evenings during the past season has caused general indorsement of the present regime. It is believed that it entails no loss upon any one merchant, if all close at 6. But, there is a disposition to complain when a few fail to follow the plan under which all are presumed to be working. Early closing is the rule in most Eastern cities, even in those no larger than Pendleton, and it is recognized nowadays, that it is right and not unprofitable.
