CLASSIFIED ADS.

An interesting Page in the Daily East  
Oregonian.

The East Oregonian solicits classi-  
fied ads, little ads stating the wants  
of the people. The expense of these  
ads is small, from 15 cents up.  
Through them much information can  
be conveyed. You can tell your neigh-  
bor what you have to trade for some-  
thing for which you have a need, but  
you cannot tell from 1000 to 5000 peo-  
ple this fact. These ads will do that  
for you. With the aid of them you  
can get value for your surplus things;  
you can supply your wants; sell arti-  
cles that you can not sell in any other  
way, and all for a small sum of  
money, from 15 cents for one inser-  
tion to \$1 for 10 or more.

You may want to hire a man or  
woman. A want ad will hit the spot.  
You may want employment. Try  
an ad for 15 cents to 50 cents.

You may want to buy something.  
Try a want ad.

You may wish to sell something.  
A "For Sale" ad will fill the bill.

You may want to trade a wheelbar-  
row for a grindstone. The wheelbar-  
row you have no need for; the grind-  
stone the other fellow has no need  
for. The little ad expressing your  
wishes will do the business at a small  
expense. Why not try it?

Have you a house to rent? A room  
to rent? Do you want to rent a house  
or a room? A want ad will be effec-  
tive. The cost is little, the result sat-  
isfactory. Try one.

There is no more effective way of  
advertising, and the price is within  
the reach of all.

Look over the "classified ad" col-  
umns and use them when you want  
to sell or buy something; when you  
want to make a trade; when you  
want to give employment; when you  
want employment; when you want  
to lend or borrow money; when you  
want to let or rent a house or room  
or store. The want ad will supply  
your wants. If you have a horse es-  
tray, or if you have lost a horse, or  
found a horse or other animal, you  
can not let so many people know of  
it in any other way as through these  
columns and at an expense that is not  
worth considering. Try an ad. It will  
pay.

Local merchants who expect local  
newspapers to protect their business  
by refusing to take foreign advertis-  
ing should at least show their appre-  
ciation by contracting for some space  
themselves.—Mansfield, O. News.

MAKING HIGHWAY

GEORGE SCHORR,  
TALKS CRUSHED ROCK

He Says that it is now not Question-  
able that it Makes Good Streets.

George F. Schorr, who has done  
work for the W. & C. R. R. Company  
here and elsewhere, was asked today  
by the East Oregonian to say some-  
thing regarding the value of crushed  
rock in making streets and roads.  
He replied, in answer to numerous  
questions:

"From my experience and the uni-  
versal experience of hundreds of  
American towns and cities, I can  
say that there is now no question  
as to the value of crushed rock for  
making streets and county roads.  
Especially is it good for town streets.  
It makes a permanent highway, need-  
ing the minimum of repairs, and with  
as small first cost as any form of  
street making.

"I would be glad to take contracts  
for building streets in Pendleton for  
60 cents per front foot for all prop-  
erty to the center of the street of prop-  
er degree of fineness for the  
various layers, and six inches  
thick, the whole to be rolled. In-  
deed, six inches is an inch too thick  
for the actual requirements, and the  
best streets may be made with five  
inches, and would cost 50 cents per  
front foot.

"This will be seen to entail a cost  
upon a 25-foot lot of from \$12.50 to  
\$15 for a street that will last longer  
than the present generation.

"Spokane has built a number of  
these streets. Yakima has done the  
same. Athena is satisfied with its  
crushed rock streets, and in fact,  
throughout California there are miles  
and miles of roads and streets built  
in this manner that are the finest in  
the world.

Ideal Rock Here.

"Pendleton has the ideal rock for  
crushing. It is a soft basalt, better  
than any other of which I know. Cost  
of crushing it would be at the mini-  
mum.

"Let me say this to Pendleton. Just  
now there are many applications  
from men for work. They could be  
hired now at about 25 per cent less  
than later, when wages will advance  
with greater demand. I would allow  
the city to use my crusher at almost  
no rent for the machine is idle. The  
work could be done now very cheap-  
ly."

Mr. Schorr was employed by the  
W. & C. R. Railroad company because  
he is an expert, and thoroughly un-  
derstands his business. Regarding the  
work he has done here, he states that  
it cannot be considered as complete,  
for the reason that he was stopped  
when the city council decided not to  
carry out the plan for the improve-  
ment of Webb street, which was to  
have been done by the railroad com-  
pany and the city together. A layer  
of fine rock was to have been placed  
over that that is now there. This  
would have finished the work, and  
made that thoroughfare one of the  
best in the state.

FINISHING BRIDGE.

W. & C. R. R. Contractor is Pushing  
Work.

George F. Schorr, who has the con-  
tract for doing the concrete founda-  
tion and pier work for the reception  
of the new steel bridge to be built  
across the Umatilla river, east of  
town, by the W. & C. R. railroad com-  
pany, next summer, has all the excava-  
tion work done and the bottom of  
the river cleaned out for the recep-  
tion of the foundation and curbing.  
He expects two cars of cement to  
arrive any day, when his part of the  
work will be pushed to completion as  
fast as possible. A steam shovel will  
arrive some time next month to fill  
in at the ends of the bridge, which  
will be made of two spans 150 feet  
long each, making the whole struc-  
ture 300 feet long of solid steel.

George W. Fell, who has been con-  
fined at his home for the past week  
with a gripe, mixed with a touch  
of neuralgia, is some better today,  
but not able to be out of bed.

John L. Baker, of Chicago, one of  
the firm owning the wholesale busi-  
ness of the Calumet Tea and Coffee  
Company, was in town yesterday, and  
went from here to Walla Walla.

Fred and Dave Gordon, extensive  
wheat growers of the Vanoye coun-  
try, 20 miles north of Pendleton, are  
in town today. They say prospects  
are very good out there for a crop  
this year. The only thing needed  
now is "a foot and a half of snow."  
C. W. Oliver, who has been visit-  
ing his parents here the past several  
days, returned to Portland last night.  
Mrs. Oliver remained here on account  
of the illness of her father, E. Gil-  
ham, who is still very low with  
Bright's disease.

Mrs. Rose Campbell will leave this  
evening for Lone, to visit a few days  
with her mother, Mrs. Smith, and  
from there she will go to The Dalles,  
where she has relatives and friends.  
Before returning Mrs. Campbell will  
go to Portland, where she will spend  
six weeks.

Miss Mollie Crane, who is in the  
city from Echo, says that lilacs are  
in bloom on the farm of W. W. Whit-  
worth, one mile south of that place.  
She also stated that recently she  
picked green apples off a tree at her  
place that had grown from blooms  
that came out in August. The  
apples were not very large, but were  
perfect and had grown all winter.

Two Brothers Convicted.

Walla Walla, Jan. 24.—John Dab-  
ney must go to the penitentiary for  
trying to clear his brother of the  
charge of horse-stealing, and James  
Dabney must accompany him for  
committing the crime of taking a  
horse without the owner's knowledge.  
This is the first conviction on the  
charge of perjury in this county in  
many years.

The illness of the Marquis of Duf-  
ferin and Alva has reached a critical  
stage.

GOT A PREMIUM.

Dave Gordon Received 52 1/4 Cents for  
His Wheat.

Another wheat sale of some impor-  
tance is reported this morning by A.  
L. Knight, agent for Balfour, Guthrie  
& Co., Dave Gordon & Son, of Jun-  
iper, being the seller. The lot consti-  
tuted of 26,000 bushels and brought 52 1/4  
cents. It was half red chaff and half  
bluestem, and a good lot of wheat  
which made it command a little high-  
er price than the market is offering  
52 1/2, being the price offered by deal-  
ers generally. Gordon & Son are  
very prosperous farmers of the Jun-  
iper country.

A Boy Correspondent.

The publishers of "The American  
Boy," Detroit, Mich., have secured  
from Will Levington Comfort, who  
was the youngest newspaper corres-  
pondent in the Philippines at the time  
of the death of General Lawton, an  
exciting story, based upon fact, re-  
lating the experiences of the young-  
est correspondent in General Lawton's  
army. The hero of the story was  
the first of the newspaper corres-  
pondents to cable to America the  
news of the death of General Lawton  
at the hands of the insurgents. By  
an almost superhuman effort the boy  
correspondent, who was with the  
army at the time of the shooting,  
made his way through the enemy's  
country to the cable office and flashed  
the news to America three hours be-  
fore any of the other correspondents  
got possession of the cable. It was  
a notable achievement on the part of  
a boy. The story begins in the Feb-  
ruary number of "The American  
Boy."
