

MEASURE OFFERED CONGRESS

(Concluded.)

ies, and for the payment of all other expenditures provided for in this act.

Provision for Schools.

Provided, that in case the receipts from the sale and disposal of lands referred to in this section are insufficient to meet the requirements for the support of agricultural colleges in the several states and territories, under the act of August 30, 1890, entitled, "An act to apply a portion of the proceeds of the public lands to the more complete endowment and support of the colleges for the benefit of agriculture and the mechanic arts, established under the provision of an act of congress approved July 2, 1892, the deficiency, if any, in the sum necessary for the support of the said colleges shall be provided for from any moneys in the treasury not otherwise appropriated.

To Construct Works.

Section 2. That the secretary of the interior is hereby authorized and directed to make examinations and surveys for, and to locate and construct, is herein provided, irrigation works for the storage, diversion and development of waters, including artesian wells, and to report to congress at the beginning of each regular session as to the results of such examinations and surveys, giving estimates of cost of all contemplated works, the quantity and location of the lands which can be irrigated therefrom, and all facts relative to the practicability of each irrigation project; also the cost of works in process of construction as well as of those which have been completed.

From Public Entry.

Section 3. That the secretary of the interior may, in his discretion, withdraw from public entry the lands required for any irrigation works contemplated under the provisions of this act, and shall restore to public entry any of the lands so withdrawn, when, in his judgment, such lands are not required for the purposes of this act; that public lands which it is proposed to irrigate by means of any contemplated works shall be subject to entry only under the provisions of the homestead laws in tracts of not less than 40 nor more than 160 acres, and shall be subject to the limitations, charges, terms and conditions herein provided: Provided, that the commutation provisions of the homestead laws shall not apply to entries made under this act.

May Let Contracts.

Section 4. That upon the determination by the secretary of the interior that any irrigation project is practicable, he may cause to be let contracts for the construction of the same in whole or in part, providing the necessary funds therefor are available in the reclamation fund, and thereupon he shall give public notice of the lands irrigable under such project, and limit of area per entry, which limit shall represent the acreage which, in the opinion of the secretary, may be reasonably required for the support of a family upon the lands in question; also of the charges which shall be made per acre upon the said entries, and upon lands in private ownership which may be irrigated by the waters of the said irrigation project, and the number of annual installments not exceeding 10, in which such charges shall be paid and the time when such payments shall commence. The said charges shall be determined with a view of returning to the reclamation fund the estimated cost of construction of the project, and shall be apportioned according to benefits: Provided, that in all construction work eight hours shall constitute a day's work, and no Asiatic labor shall be employed thereon.

Limit on Sales.

Section 5. That the entryman upon lands to be irrigated by such works shall, in addition to compliance with the homestead laws, reclaim such lands for agricultural purposes, and before receiving patent for the lands covered by his entry shall pay the government the charges apportioned against such tract as provided in section four. No right to the use of water for land in private ownership shall be sold for a tract exceeding 160 acres to any one land owner, and no such right shall permanently attach until all payments therefor are

SAVE YOUR HAIR WITH SHAMPOOS OF

SPLIT, BRITTLE, DULL HAIR.

All Comes from Dandruff, which is Caused by a Germ.

Split hair, harsh hair, lusterless hair, brittle hair, falling hair all owe their origin to dandruff, which is caused by a measly little microbe that burrows into the scalp, throwing up the cuticle into dandruff scales and sapping the vitality of the hair at the root, causing the several diseased conditions of the hair till it finally falls out. Modern science has discovered a remedy to destroy the dandruff microbe, which is combined in Newbro's Herpicide, and may be had of any druggist. Allays itching instantly and makes hair as soft as silk. Take no substitute; nothing is "just as good."

Revival Services.

Revival services will begin at the M. E. church, South, tonight. Evangelist C. C. Eagle, of Idaho, is expected to assist in the meetings. He will arrive by next Sunday. Also, Rev. J. C. Thomas will hold quarterly meeting next Sunday and will preach on Friday and Saturday at 7:30 p. m.

PUBLIC SCHOOL PUPILS LEARN SOME OF ART

Discarded Photograph Negatives Furnish Material for their Use.

The pupils of the Pendleton public schools are using dozens of old negatives discarded by the photographers, for the purpose of inculcating in the pupils, the love for art, and to show them how homes may be made brighter by the use of inexpensive articles. The other day Principal Conklin hauled up to the school house on the hill a whole wagonload of old negatives, or spoiled photo plates, and now the pupils are enjoying the task of learning to do "Paspout work." They take the old negatives, wash them clean of the emulsion and chemicals, and when once they are cleansed, these old plates are found to be of the best quality of glass. To buy glass new and supply as much as was secured from the photographers, would have entailed the expense of not less than \$50, perhaps, and yet this old glass is just what is needed for the purpose in hand.

The clean plates of glass are used for the mounting of pictures of all kinds—illustrations from magazines, prints coming from city papers in colors and in black, in short, anything that is artistic and that will be attractive when mounted upon glass. Some of the pupils have done excellent work in deed, and many homes in Pendleton are brighter for the learning by the pupils to do this work.

Says He Was Tortured.

"I suffered such pain from corns I could hardly walk," writes H. Robinson, Hillsborough, Ill., "but Bucklen's Arnica Salve completely cured them." Acts like magic on sprains, bruises, cuts, sores, scalds, burns, boils, ulcers. Perfect healer of skin diseases and piles. Cure guaranteed by Tallman & Co. 25c.

Rear Admiral Schley's appeal to the president may not be disposed of for some time; but when the decision is reached there seems to be no longer any doubt that President Roosevelt will uphold the findings of the court of inquiry.

THE CLEANSING AND HEALING CURE FOR CATARRH

Ely's Cream Balm

Easy and pleasant to use. Contains no injurious drugs. It is quickly absorbed. Gives relief at once. It opens and cleanses the nasal passages. Allays inflammation. Heals and protects the Membrane. Restores the Senses of Taste and Smell. Large Size, 50c at Druggists or by mail; Trial Size, 10c by mail. ELY BROTHERS, 56 Warren St., New York.

\$112,500 for a Prescription.

The largest sum ever paid for a prescription changed hands in San Francisco August 30, 1901. The transfer involved in coin and stock \$112,500 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable diseases. They commenced the careful investigation of the specific November 15, 1900. They interviewed scores of the cured and tried it out on themselves by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to August 27, eighty-seven per cent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address JOHN J. FULTON COMPANY, 421 Montgomery St., San Francisco, Cal.
