CLASSIFIED ADS.

An Interesting Page in the Daily East Oregonian.

The East Oregonian solicits classified ads, little ads stating the wants of the people. The expense of these ads is small, from 15 cents up. Through them much information can be conveyed. You can tell your neighbor what you have to trade for something for which you have a need, but you cannot tell from 1000 to 5000 people this fact. These ads will do that for you. With the aid of them you can get value for your surplus things; you can supply your wants; sell articles that you can not sell in any other way, and all for a small sum of money, from 15 cents for one insertion to \$1 for 10 or more.

You may want to hire a man or woman. A want ad will hit the spot. You may want employment. Try an ad for 15 cents to 50 cents.

You may want to buy something. Try a want ad.

You may wish to sell something. A "For Sale" ad will fill the bill.

You may want to trade a wheelbarrow for a grindstone. The wheelbarrow you have no need for; the grindstone the other fellow has no need for. The little ad expressing your wishes will do the business at a small expense. Why not try it?

Have you a house to rent? A room to rent? Do you want to rent a house or a room? A want ad will be effective. The cost is little, the result satisfactory. Try one.

There is no more effective way of advertising, and the price is within the reach of all.

Look over the "classified ad" columns and use them when you want to sell or buy something; when you want to make a trade; when you want to give employment; when you want employment; when you want to lead or borrow money; when you want to let or rent a house or room or store. The want ad will supply your wants. If you have a horse stray, or if you have lost a horse, or found a horse or other animal, you can not let so many people know of it in any other way as through these

FIFTEEN MEN AT WORK ON W. & C. R. R. BRIDGE.

George F. Schorr Hurring on His Contract With the Company.

George F. Schorr, the contractor who is putting in the concrete work for the new steel bridge of the W. & C. R. R. Company in East Pendleton, has now a force of 15 men employed. Soon he will have 25 at work. He has only the concrete piers to build, the steel work to be let by contract later, together with several other contracts for steel work to be let by the company.

HARNEY COUNTY PEOPLE OPPOSE LEASING LAW.

Stockmen's Association Issues Statement of the Conditions Obtaining There.

The Harney County Stockmen's Association has issued a statement in opposition to the land leasing law now proposed by the federal government. In part, the statement says:

"Harney county has an area of 10,504 miles, or 6,780,160 acres, of which the assessment roll for 1900 shows 617,463 acres to be deeded. The same roll shows that the Willamette Valley & Cascade Mountain Wagon Road & Cascade Livestock Company, 112,071 acres, and the Pacific Livestock Company, 82,689 acres—a total of 194,760 acres, owned by three California corporations—nearly three-fourths of the deeded land of the county. Of the remainder, the Oregon & California Land Company owns 18,481 acres; The Oregon Stock & Butchering Company, 20,232 acres; Hardin & Riley, 8621 acres, and the estate of J. Devine, 12,560 acres. This leaves but little over one-sixth of the deeded land of the county in the hands of farmers and stock raisers, of moderate means. All these landholders, with the exception of the Devine estate are incorporated out of the state.

"We desire to direct your attention to the following facts:

"Notwithstanding the extensive area of Harney county, a large portion of that area difficult to estimate, is unsuited either for grazing or agricultural purposes. Much of the land is rocky and inaccessible to stock. Large areas of desert and lava exist, which produce no forage grasses. Several townships are covered by the Harney and Malheur Lakes. Large areas near the more thickly settled portions have been denuded of their grasses by overstocking. Very extensive regions are practically useless for range purposes, by reason of their remoteness from water. Other extensive regions have been rendered so by the location and extensive use of the natural springs and watering places by sheep and cattle companies. Recently over 8000 acres have been withdrawn under the Carey act.

"Immediately on the passage of such an act, all available range lands would be appropriated by those now holding patented lands to the exclusion of hundreds of holders under the homestead and desert acts who have not yet proved up on their claims. This would be manifest injustice to settlers already in possession of lands which were taken up with the range privilege in view.

"The range is used in common. Equitable allotment is made by local custom. No friction exists between local sheep and cattle owners. The only difficulty that ever occurs is that brought about by the invasion of the range by migratory flocks of sheep from other states and counties. The local custom respects the rights of all flocks and herds that are represented on the tax rolls of the county.

"The principal reason assigned for the legislation proposed is to prevent the invasion of the range by migratory flocks and devastation thereby. For this reason and for this alone, we are asked to sacrifice the homestead and desert rights in our county and immeasurably check our development. We believe that this evil can be reached by the legislature of Oregon and that this proposed legislation is either ill-considered or insincere."

MARK YOUR GOODS.

Railroad Companies Ask Patrons to Observe Care.

People who send stuff by freight should be more careful about marking it plainly. The railroad companies have been paying so many claims of late because people have been careless in marking them, that they have become tired of this, and have now said that all packages in the future will have to be carefully and plainly written with the full name of the consignee, his residence, state, county and street number, if in the city. This will be insisted upon and people should remember to be careful about it.

In shipping goods to a station off the railroad, the sender will have to indicate expressly the name of the station at which the freight is going and the name of the person who will receive it. The name of the place to which it is going after it leaves the line of the railroad has to be designated also.

If this rule is strictly adhered to, it will prevent the consignment being delivered to the wrong person and save it from going astray. There is no danger of loss to the shipper, consignee or railroad company.

The Good Ad.

A good ad is an announcement in brief terms, straight from the shoulder, concise and to the point, telling something in a clear and intelligent manner and stating a few prices as an indicator of the way you sell goods or do work.—Brookline (Mass.) Chronicle.

Senator Simon called on the president. The senator is anxious to secure individual recognition in the matter of appointments in Oregon, and says that Bibee's nomination will not be sent to the senate until he (Simon) has been permitted to name at least one of the federal officers of the state. He declines to state what office he is seeking.
