EPIDEMIC OF FIRES

OCCURRED ON SUNDAY.

Paterson, New Jersey, in a Chaotic State From a Conflagration—Orpheum Theater, Chicago, Destroyed by Firebugs—Fire in St. Louis.

Paterson, N. J., Feb. 10.—Citizens and officials started in with vim this morning to bring order out of the chaos created by Sunday's great fire. At dawn this morning found militia-men patrolling the devastated district. During the night, despite the presence of soldiers, pillagers were out. Three of them were taken into custody.

The fire is still burning in spots this morning, but well under control. No further spread is anticipated. Gangs of men were put to work today tearing down the threatening walls. Every train entering the city is crowded with sightseers.

The burned area presents a remarkable sight. In the center it is a seething mass of steam and smoke, with here and there tongues of flames shooting upwards.

There is no suffering so far among those whose homes were destroyed, all being temporarily cared for by the householders who escaped the flames.

There was some uneasiness among the depositors of the burned banks, but they were reassured when the bank officials informed them that none would suffer financial loss. Practically all of the wealth of Paterson is buried in the ruins.

The Chicago Fire.

Chicago, Feb. 10.—No lives were lost in the fire which destroyed the Orpheum theater early this morning. It was thought that a number of persons sleeping in the building failed to escape, but all are now accounted for. Police and firemen are confident the fire was the work of incendiaries. Several hours after the flames were subdued open gas jets were found in various parts of the building. Fire-bugs have been trying to burn the building for years. No less than 20 attempts to destroy it have been made.

Found Newsboy's Body.

The body of an unknown newsboy was found in the ruins at noon. As a number of others were asleep with him in the building it is believed now that more bodies will be found.

St. Louis Holocaust.

St. Louis, Feb. 10.—All the guests in the Empire rooming house, which was burned on Sunday are accounted for. The dead number 11; injured, eight, though none seriously. The origin of the fire remains a mystery.

A Springfield Fire.

Springfield, Ill., Feb. 10.—The great East street shops occupied by a number of manufacturing concerns, burned this morning. The loss is about \$1,000,000. The water pressure was insufficient, badly handicapping the work of the firemen. The shops belonged to Senator Fairbanks, of Indiana.

A BUSTED BANK IN DETROIT

BACKED A STREET RAILWAY PROMOTER.

Detroit Banking Institution Goes to the Wall.

Detroit, Feb. 10.—The City Savings Bank closed its doors this morning. Money advanced to street railway promoters is said to be the reason. The bank's failure is attributed to the unlimited credit extended to Frank Andrews, a street railroad promoter, by the cashier, who is his cousin, without consulting the bank's directors.

Andrews will make an assignment for upwards of \$2,000,000. The school board has half a million on deposit in the failed bank and the library fund, a quarter of a million. Andrews had \$662,900 in bank certified checks and \$914,000 in overdrafts.

Warrants for the arrest of Andrews and the cashier, Harry Andrews, were issued this afternoon.

CAUSED FALSE WORK

W. & C. R. R. BRIDGE.

To Be Carried Away—Loss is About \$500—Workmen Begin at Once to Repair Damage—Wing Dam Went This Morning.

The high water in the Umatilla river this morning swept away all of the false work put in by Contractor Geo. F. Schorr, who is constructing the concrete piers for the W. & C. R. R. steel bridge east of Pendleton. The loss will be about \$500. The wing dam and all of the woodwork was taken out by the freshet. This was all the result of the work of Mr. Schorr's force of men since the first of the year, but he proposes to lose no time in repairing the damage, and is already started upon the replacing that which went out.

The melting of the snows and the rather heavy rains of the past few days brought a sudden rise of water in the Umatilla, and it was noticeable on Sunday afternoon, about 4 o'clock, that there was danger. Nothing could be done, however, as not enough men could be secured to prevent the high water from completing the destructive work that it had begun. Therefore, Mr. Schorr was compelled to stand by and see the dollars he had expended go down the river towards the Columbia, and plan for immediate replacing of the structure that was gone.

Mill Race Overflows.

Owing to the sudden rise of the river last night the Myers mill race was overflowed. The water ran down town, doing some damage in its path. Around the electric light plant everything was flooded and several cellars were filled with several inches of water, beside wetting things in general.

THE COMMISSION IS NOT EXTRAVAGANT.

He Has House Rent Free, But Must Maintain an Expensive Establishment—Lawyers in the Judiciary Demand Liberal Remuneration to Be Induced to Go To the Archipelago.

Washington, Feb. 10.—In continuing his testimony before the senate Philippine committee this morning, Governor Taft said that one great reason which makes a large revenue necessary is the cost of constructing school houses. Taft denied that the commission is extravagant. He said that out of his salary of \$20,000 last year he had only \$1500 left, the remainder being spent for living expenses, the only allowance in addition to his salary granted him being his residence in the Malacanán palace of the Spanish governors. The maintenance of this residence is heavy. He added that on account of the high cost of living it was necessary to pay good salaries to lawyers who came from America to take positions in the judicial department.
