FOR AMATEURISM

PROMISES SALARIES TO NO PLAYERS.

Walla Walla Baseball Team Will Maintain the Rule, Says John L. Sharpstein.

John L. Sharpstein, who has been, and it is understood, will again be, manager of Walla Walla's baseball team, has this to say in the Union regarding the paying of salaries to players this year:

"There is absolutely no truth in the assertion that the Walla Walla team has guaranteed a salary or anything like a stipulated sum of money to anyone. This was not done last season and will not be this. The fact that the Walla Walla team made money last year when some of the others ran behind need not be taken as a guaranty that Walla Walla will enter the ranks of professional ball. She does not have to. I have not signed a single player to whom a cent was guaranteed.

"My men played ball last season without salary. At the end of the baseball year they divided the money that was left after the expenses of the team had been met. That was perfectly fair and legitimate and every other team in the country did the same. No one has the least right to criticize that action. Walla Walla makes no claim to having played a team, all of the members of which were at all times residents of this city, but they came here, and we got them jobs, and they played ball when we wanted them to. However, there was not one cent of salary paid to them as baseball players nor will there be.

Pledged Not to Do It.

"One of the guarantees we made to those subscribing funds to the aid of the team was that there would be not a cent of it go to paying the players. The faith of the club was pledged to this, and it is needless to say that pledge was unbroken. No approach can be cast upon the dealings of the Walla Walla team in any shape or form."

WILLIAM SCOTT THINKS GRAIN IS ALL RIGHT.

Finds Roots of Wheat Plants in Good Condition in Helix Country.

William Scott, of Helix, states to the East Oregonian that he is certain the wheat in his locality has not been injured by the cold weather. Mr. Scott is an experienced farmer. He has carefully examined the grain, on his own farm, and gives the opinion that he will not have to resow any of the land, unless it be on some points which were especially exposed. These areas are not greater than usual, says Mr. Scott, and the wheat now is in as good condition as it ever is. So far as he is concerned, he believes he will lose nothing of consequence from the severe weather of the past few weeks.

Hagen Expects Injury.

John Hagen was in town yesterday. He was asked what he thinks of the wheat, and replied that he himself expects to resow a large quantity of land. Mr. Hagen has not closely estimated the area that must be resown this spring, but it may be several hundred acres.

Other farmers differ, as do these, the fact being that in one place the wheat is all right, while in another it is killed.

A Saisenger, of Helix, was in town today. He has sold part of his wheat crop at 53 cents a bushel, the sale being made on Wednesday.

SCARLET FEVER. A Case Develops at the Home of Frank Curl.

One of the children of Mr. and Mrs. Frank Curl is down with scarlet fever at their home near the Pendleton Academy. Mr. Curl and family returned from the East and the little girl has been ill ever since, but only this morning was the place quarantined with a "contagion" sign placed in front of the house. This is the only case in town and every precaution is being taken to prevent its spread.

GETTING MONEY PERHAPS WORK ON NEW ACADEMY THIS SUMMER.

Principal Forbes Hopes That Plans Will Be Carried Out for Improvement.

Principal F. L. Forbes, of the Pendleton Academy, hopes that the corporation will be able to start work on the proposed new structure for the institution, before the summer is well along. He does not say that the needed funds have been pledged, but that he and others interested believe the money will be forthcoming. The details he does not care to give to the public just now, but is willing to say that the prospects are excellent.

The money pledged by Pendleton and Umatilla county people has been increased to about \$5000, with more in sight, and considerable is hoped for from persons living elsewhere. Besides, the present property is worth \$4000, at least.

Plans have been drawn, and builders are now working upon the estimates as to the cost of construction here. The hopes of the Academy are for a \$15,000 building, with modern arrangements, and furnished with everything imperatively demanded for the work of the school.

The plans and specifications and the estimates completed, and with exact knowledge as to the cost, then as soon as the hoped-for word comes from the other places contracts may be let, and ground broken for the foundation. It is expected that the structure will be erected across the river in North Pendleton.

Nearly half the Chinese making application for admission to this country at San Francisco are refused.

100,000 FISH FRY

WHAT THE FISH AND GAME ASSOCIATION PROPOSES.

Has Planted Many Fish Fry, and Will Plant More in the Future—The Objects.

Dues in the Oregon Fish and Game Association for the year 1902 are now due. The members are taking considerable interest in the association, owing to the planting of 175,000 trout in the different streams of Umatilla county in the past two years, and the intention of placing 100,000 more yearly in the same streams, also the probability of distributing some more bob white, or California quail. The secretary, A. E. Gebhardt, has been in communication with parties regarding English partridges. These birds can only be secured in Germany, and the percentage of dead birds in transit has been so large that the venture is an unprofitable one. However, efforts will be made to secure some.

The Umatilla county membership is 75, taking in almost all of the local sportsmen. Any one desiring to become a member. It costs only \$1. J. E. Krause, vice-president of the association, will give all information necessary.

The objects of the association are: "To assist in the protection and propagation of fish and game in the state of Oregon; to foster a true spirit of sportsmanship, and to promote acquaintance and good fellowship among its members."
