MEN PROMINENT IN THE CUBAN TARIFF CONTROVERSY--SOME OF THE LEADING CUBANS

Washington, Feb. 19.—Cuba is represented here by a number of men prominent in the fight for reciprocity, which is opposed by the ways and means committee of the house, and favored by the president and others in the administration circles.

the Sisters' hospital several days ago with a compound fracture of the leg below the knee, is reported to be getting along well and the bone is knitting nicely. Mr. Wood's home is at Pilot Rock.  
Commander Lucian Young of the navy testified before the senate committee on oceanic canals concerning a visit to the vicinity of the Panama canal several years ago, when, he said, the engineers engaged on the work there told him of the great difficulties they experienced because of the hardness of the granite. He said he was told that they were unable to blast to any advantage, and that their only recourse was the use of the saw.  
About 250,000 pair of glasses will be purchased by the state committee in Maryland for use in polling booths. Politicians have found that both in the city and the country districts a large number of voters of the poorer classes can read sufficiently well to ballot, but their sight is so defective that in the dimly lighted booths they are unable to read the list of contestants on the ballot. Capable men will be provided at every polling place to adjust the glasses for the voters.

**DISTRIBUTION OF STOCK IN THE CONSOLIDATED.**  
Some Further Figures in the Red Boy-Concord Deal.  
The articles of the consolidation of the Red Boy and Concord mining companies which were filed at Baker City Monday provide that on January 1, of each year, a 3 per cent dividend on preferred stock out of a treasury surplus shall be paid; if a surplus still remains, a 3 per cent dividend on common stock shall be declared. Preferred stock dividends for any one year shall not exceed 3 per cent, with out a like dividend in common stock. When dividends on common stock from all sources aggregate 50 per cent of its par value, it shall become common stock.  
Godfrey and Tabor, the old owners of the Red Boy, are by the terms of the consolidation in absolute control. The Red Boy interests in the merger company represent \$2,250,000, as against \$750,000 held by the Concord people. The distribution of the stock to the various interested parties is as follows:

	Common	Preferred
E. J. Godfrey	951,700	173,250
Clark Taber	951,700	173,250
J. H. Robbins	317,200	57,750
J. A. Howard	317,200	57,750
C. A. Johns	100	100
N. C. Richards	100	100
<b>Total</b>	<b>2,537,800</b>	<b>462,200</b>

The above figures, showing the amount of stock subscribed by James A. Howard, of this city, and J. H. Robbins, of Sumpter, simply represent the entire holdings of the original stockholders in the Concord Gold Mining Company, they having been authorized with power of attorney to act for the rest of those interested in the original company and to subscribe for all the stock of each respectively. When the stock is issued it will be to each member of the Concord company pro rata according to the amount held by each man.

R. LAING FOUND MUCH WHEAT KILLED.

Examined Grain in the Cold Spring Country—More Than 25 Per Cent Must Be Resown.

Robert Laing, a careful observer and accurate judge of farming conditions, has returned from a trip through the Cold Springs region.

"I find that a very large area of winter wheat land must be resown and believe the proportion will be more than 25 per cent of the total area of winter wheat in the country," said Mr. Laing to the East Oregonian. He adds to the discussion something that is endorsed by numbers of other well-known farmers, saying:

"It is not the cold weather that killed the greater part of the wheat. The fact is that the wheat did not come up last fall, on account of the exceeding dryness.

"The ground now is in excellent condition for reseeding, and I saw many drills in the fields at work putting in seed for a spring wheat crop while the winter grain was killed or failed to come up."

**REPRESENTATIVE KERN TALKED PRINCE HENRY.**

Said Republicans Exaggerated the Effect of Wheeler's Speech.

Washington, Feb. 19.—Kern, democrat of Illinois, made one of the most interesting speeches thus far delivered in the house on the subject of Prince Henry's visit. He took the ground that the republicans are exaggerating the effect of Wheeler's speech and that the Germans in the United States will not be caught by such clap-trap. A remark made by one representative in congress will not influence their votes. Germans came to this country to escape the princes, and for that reason they do not believe in spending money for the entertainment of representatives of Prince Henry's class.

"Prince Henry probably is all
