

This Date in History—March 7.

- 152—Antonius Pius, Roman emperor, died; born 61.
1225—William Longworth, first earl of Salisbury, died.
1774—British parliament closed the port of Boston.
1874—Millard Fillmore, thirteenth president, died in Buffalo; born 1800.
1896—Hyde Clarke, famous English linguist and scientist, died in London; born 1815.
1888—General Nelson B. Sweetzer, U. S. A., retired, died in Washington; born 1832.

Fillmore.

The people all over the county are asking, Where did the money of that Athena mill go? Surely, it is gone, a large amount, that was not lost in the business.

The companies that are insuring men and women against catching and dying of small pox in England are said to be making "dead loads" of money, as the small pox scare exists all over the empire.

Russia's "open door" in Manchuria was of that kind that was to open to Russia on greased hinges and to others on rusty ones.

Are Pendleton's streets to be sprinkled by the city this summer? That is a question that should be answered as soon as possible.

The Women's Christian Temperance Union of Newark, N. J., spent hours in special prayer that Bishop Henry C. Potter might see the error of his ways on the temperance question.

Captain McCook, of army connection, is charged with having obtained under false pretense, and spent with those largely from whom he obtained it, a sum about the size of \$50.

Speaking the other day at Liverpool, Lord Rosebery expressed the opinion that it might have been an act of wisdom on the part of the Salisbury government to give the Boer delegates a safe conduct to South Africa for the purpose of arranging terms of peace with the Boer commanders in the field.

At a woman's club in Chicago the other day there was a discussion on the question whether the men should be admitted to membership in the club, and one lady said: "I don't object to men. I may have reasons for not marrying one of them, but none

for shutting them out of clubs and discussions." Another woman was in favor of admitting them, and said, Men are good things. A third member advised, "Let the men come in and pay the dues, take part in the discussions, arrange the tea tables and receive the ladies, but don't let them vote."

TOPICS OF THE TIME.

The following articles are from "Collier's Weekly's" editorial page: The treaty concluded between England and Japan puts an end to the state of things which has existed in the far east since the czar forced the Mikado to renounce a part of the fruits of conquest and to give back to China the Liau Tung Peninsula, which, presently, was ceded to the mediator.

The Anglo-Japanese treaty is, of course, meant to operate as a bar to Russian hopes of expansion south of the Amur river. There seems to be an agreement of expert opinion that for some time to come Russia will be unable to cope single handed with Japan, either as a land power or as a sea power.

Even druggets proclaim their virtues, as per the following: OFFICE OF W. H. MURPHY, Prescription Druggist, Marysville, Wash., 12-19, '99. Dear Sir: Herpicide is certainly a good article, and will do the work advertised; that is why we sell it.

blocked in the Near East in the Crimean war and at the Berlin congress, it will not be strange if the thoughts of the czar's advisers run to revenge. So long, indeed, as the British fleet shall be backed by the Japanese army, British interests cannot be injured on the eastern coast of Asia.

It is just as well to reflect that, unless congress reduces the duty on Cuban sugar and tobacco before April, when the insular government, organized under the Cuban Constitution, is to go into effect.

We are not accustomed to the exhibition of gross ignorance of his tory of foreign countries by members of the house of representatives. We do expect them, however, to know something about persons who have played conspicuous parts in the history of the United States.

CATARRH A Constitutional Affection.

Sprays, washes, powders, salves, medicated tobacco and cigarettes, however long and persistently used, do not cure Catarrh. They relieve temporarily the inflammation in the throat and nose, and enable you to breathe more easily and freely, but the continual rush of impure blood to these parts keeps up the irritation and ultimately produces ulceration of the glands, when the breath becomes exceedingly offensive and the soft bones of the nose are frequently destroyed.

I had Catarrh about 15 years, and tried during the time everything I could hear of, but nothing did me any good. At last I came to the conclusion that Catarrh must be a blood disease, and decided to give S. S. S. a trial.

I had Catarrh so bad was entirely deaf in one ear, and all the inside of my nose and part of the bone sloughed off. The physicians gave me up as incurable. I determined to try S. S. S., and began to improve at once.

Catarrh is a constitutional disease—a blood disease which is frequently inherited, and only a blood medicine, such as S. S. S., can remove the hereditary taint, destroy the poisons that have been accumulating in the system for years perhaps, and restore the blood to a healthy and pure condition.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

AN ABSENT MINDED MAN May neglect to notice when his carriage or wagon needs repairing, when there is a bolt loose, a hub or spoke sprung, or when the running gear is in need of overhauling, until he meets with some accident on the road or where it will make double expense to have it repaired.
