FROM IOWA TO OREGON.

A Family Was Induced to Come by Misrepresentation, But Will Stay Awhile.

Richard L. Barber and family arrived recently from Lineville, Iowa, and are going to make their home in Pendleton. Mr. Barber came to Oregon for the health of his family and says that they like it better here than any place they have seen. They first got off the train at Huntington, and after looking around there did not find things as they had been represented and were just about to board the train and return to their old home but some one told them about Pendleton and they packed their goods and came here. Mr. Barber says that this country has been greatly misrepresented to the people of the East by the railroad companies who are trying to "graft" them into coming here in order to get hold of some of their hard-earned money. The country was painted up to him as being one of the finest countries on earth—that Mr. Barber thinks is true—where land that will grow from 40 to 60 bushels of wheat to the acre can be had by the homeseeker just by settling on it and tilling the soil. He says that he believes this is the best country on the globe and there is no need for it being overrated or lied about for, if the truth is told, people will come here from Eastern and Middle states to better their condition and will not be disappointed at not finding a fine home just waiting for them to step into. If people come here with that idea in their head they are so badly disappointed that they at once turn against the country and, if they have the money will immediately turn and go back, and if not, they will go just as early as they can possibly get the price of a railroad ticket and then they will give the country a black eye to all their friends and will keep many more away that would come with means and with the intention of buying homes and settling down. Mr. Barber thinks that there is a much better show in Oregon for a man than where he came from. Land there sells at from $40 to $50 per acre and is very rough. It will not grow more than 20 bushels of wheat per acre and about 35 or 40 bushels of corn. This corn usually sells at about 30 cents, which only yields the grower $10 per acre. Here 25 to 50 bushels will grow on land that sells at the same figure or less ,and this wheat will realize to the worker a good deal more to the acre than corn in Iowa. The country where Mr. Barber comes from is principally a hog and cattle country and blue grass is the principal product. The snow gets two feet deep and the thermometer runs down to from 10 to 30 below zero frequently in the winter months.

Unless you forget that you are trying to go to sleep you will not succeed.

What It Is.

Advertising is the life blood of the business world today, and well directed advertising is like the powerful searchlight of a river steamer, thrown upon a distant cottage on the bank, cutting it out like a picture painted on a black canvas. The timid buyer and the prospective industry will follow the rays of the searchlight of publicity, just as surely as will the eyes of the steamer's passengers follow the light thrown from their vessel. They will not search the surrounding gloom for objects of interest when a beautiful picture is clearly shown before them. Prospective buyers will not search the surrounding gloom for your competitors if the searchlight of publicity is turned on your own place of business.—Canastota (N. Y.) Bee.

Can't Keep It Secret.

The splendid work of Dr. King's New Life Pills is daily coming to light. No such grand remedy for Liver and Bowel troubles was ever known before. Thousands bless them for curing constipation, sick headache, billiousness, jaundice and indigestion. Try them. 25c at Tallman & Co.'s drug store.

Half-developed oysters and clams which are in poor flesh, as a stock man would say, are now kept in regular pens and fattened for the market, as if they were pigs or other livestock.
