#### \$100 Dollars Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Hall's Family Pills are the best.

#### VINCENT KONASEK ALIVE.

Was Not Fatally Shot, as Reported—In Hospital at Great Falls.

Vincent Konasek is not dead. Frank Konasek received a telegram at 7:30 Tuesday evening from Dr. Clay, of Malta, Mont., saying that his brother, Vincent, is still alive and in the hospital at Great Falls.

Konasek is quite well known here and his friends will be pleased to learn that he is still alive. Additional facts to those published yesterday about the shooting of Konasek are that he was out to his sheep camp, 60 miles from Malta, and it was known that he had considerable money on his person. A robber attacked him, and when Konasek resisted, he was shot. The robber was then surrounded, and when he found that escape was impossible, he sent a bullet into his own head, but failed to reach a vital spot, and is now in jail awaiting the result of his crime.

After the shooting Konasek was placed on a lumber wagon and hauled to Malta and was thought to be dying. He remained unconscious for several days and was given up by the doctors. After he came to and got so he could be moved, he was taken to the hospital at Great Falls, where he is now on the road to recovery.

Frank Konasek will leave today for Great Falls to attend his brother.

# WHAT DO YOU OWN?

IF YOU HAVE PROPERTY IT WILL BE FOUND.

Assessor Has a Better Plan Than Heretofore to Find and List It.

What did you own on the first day of March?

If you have not already been asked this question, it will only be a short time until the deputies who are in the field assessing the property in the county will ask it of you.

So far only two men have started out. They are Frank Bounds, who has Ukiah and Alba precincts, and N. A. Mumford, who is in North Milton. Other deputies selected by County Assessor Buzan, but who have not yet commenced work, are: Frank Welles, Valley precinct; Fred Rosenweil, North and South Athena; Frank Rack, Echo, and Abe Miller, Pilot Rock. In addition to the six above mentioned, 18 more men will be appointed and will all be in the field in their respective precincts by the last of the month. As these deputies go from house to house they should not be impeded in their work, beside all assistance should be lent them, as they are gathering information which makes it possible for the county and state to live and do business. After passing through the hands of the deputies, the figures on the little "detail lists," which are filled out giving the worth of every man's property, will develop into dollars which will go to pay the running expenses of the county and state. That is the work of the assessor.

#### More Care Taken.

The deputies are later getting in the field this year than usual, which has been caused by Assessor Buzan taking time in the office to fill out individual description blanks of every man's real estate so that when the deputy finds his man, all that will be required is for the property owner to look over the blank and see that it is filled out properly and then he can add his personal property and the probable values so that the matter of assessing will be brought down to a more simple method than heretofore. While the work of arranging these blanks has caused from two to three weeks delay in getting started, this time will more than be made up when the men get in the field. Beside being able to get through with their work faster, these blanks are designed to catch every piece of deeded real estate in the county. They are filled out from the county's record of deeds and in this way not a single acre will be missed. It has transpired heretofore when the deputy was compelled to depend on locating the different deeded lands in his territory without having any help from the county records that he frequently missed a piece and the revenue from this was lost to the county. Under the present system nothing will escape the eagle-like eye of the assessor.

#### Matter of Equalizing.

Assessor Buzan has not yet formed any definite plan of getting everything on an equality and is not able to give out any information as to how he is going to equalize the assessments, but an effort will be made to get everything as near its real value as possible. Valuations may be materially raised on everything, and especially will the valuations be raised on railroad property and other incorporations. The necessity of every county raising on the property owned by the railroad companies is evident, as it is a notorious fact that they scarcely pay their just dues compared with what the farmers are compelled to pay on their property. To accomplish this desired end all the assessors in the different counties of the state, as well as adjoining states, are contemplating joining hands in making the raise all along the line.

#### Crazed by Wife's Death.

Walla Walla, March 19.—Wah Hop, a Celestial, was examined for insanity yesterday. His case is peculiar. He imagined other Chinamen are trying to kill him, and caused much trouble. The mental derangement is supposed to be caused by the death of his wife in China, and the reported abuse of his children. An effort is being made to send him back to the mother country.

#### Wanted in Seattle.

Walla Walla, March 19.—E. C. Strong, wanted in Seattle for embezzlement, was arrested here Sunday and an officer arrived yesterday to take him back. They left for Seattle last night.

### THE SUN IS SELDOM ON TIME.

Only Four Days in the Year When Old Sol Isn't Too Early or Too Late in Arriving.

The sun does not keep good time. He is always too fast or too slow. Once about the middle of April he is just on time, then not again before the middle of June. At the beginning of September he joins the clock for the third time, and lastly once more late in December. Now it would seem as if we were startled at the way he had neglected us. In February he fell back until he was 15 minutes late. By the beginning of March he had made up five minutes of his loss, and before the month is over he will have caught up to within five minutes of the schedule. Meanwhile the days have been growing longer very rapidly. We begin March with our nights longer than our days. We end it with our days longer than our nights. In the one month we have added to the length of our day an hour and 20 minutes, a bigger gain than any other month can show.—Professor S. C. Schumucker, in the March Ladies' Home Journal.

#### Practically Starving.

"After using a few bottles of Kodol Dyspepsia Cure my wife received perfect and permanent relief from a severe and chronic case of stomach trouble," says J. R. Holly, real estate, insurance and loan agent, of Macomb, Ill. "Before using Kodol Dyspepsia Cure she could not eat an ordinary meal without intense suffering. She is now entirely cured. Several physicians and many remedies had failed to give relief." You don't have to diet. Eat any good food you want, but don't overload the stomach. Kodol Dyspepsia Cure will always digest it for you. Tallman & Co. & Brock & McComas.
