GENERAL NEWS

President Roosevelt sent to the senate two veto messages of private bills.

At Jackson, Miss., the state institution for deaf and dumb was destroyed by fire. All the inmates were rescued. Loss \$40,000.

Grover Cleveland was 65 years of age Tuesday. Mr. Cleveland spent the whole day at his comfortable home on Bayard Lane with his wife and children.

The votes of Allison, Spooner and Proctor, three prominent republicans of the senate, together with their colleagues, who are not so well known, have had a depressing effect upon the advocates of the subsidy bill.

Senator Mitchell has been designated by the committee on interoceanic canals to confer with the republican members of the senate steering committee for the purpose of having time allotted for the consideration of the Nicaragua canal bill.

Joseph H. Mansley, of Augusta, Me., the Maine member of the republican national committee, is being pressed by the administration to accept the office of first assistant postmaster-general, but it is not known whether Mr. Mansley will accept the office.

General Chaffee recently appointed a court of inquiry to meet at Manila for the purpose of inquiring into certain allegations respecting the official conduct of Major George B. Davis, commissary, U. S. A., while acting as depot commissary of subsistence of Manila.

When Quay came back to the senate he found nothing but a seat on the back row. Looking over the possibilities of congress he concluded that the front seat occupied by Simon would likely be vacant, and filed on it. As soon as the result of the Multnomah county primaries was known, several senators went to the office of the senate having the matter in charge, and desired to file on Simon's seat, and were surprised to find that the astute politician from Pennsylvania had long ago forestalled them.

PACIFIC NORTHWEST NEWS

Complete returns from the Wheeler county republican primaries indicate that of the 41 delegates to the county convention, 23 are for Moody for congress, and 18 for Williamson.

The war between E. H. Harriman and United States senator W. A. Clark, which has been bitterly waged in Nevada for a right of way in the southwestern part of that state, gives promise of being settled very soon.

At Warrenton, Or., with a kindly greeting to his wife and child, which he, but not they, knew was to be a farewell one, Edward Lorenzo retired to a room in his home and sent a bullet through his brain. Death was almost instantaneous.

Marion county democrats will hold their primaries 10 days hence, March 29. Inquiry among leaders brings unanimous assurance that perfect harmony prevails in the ranks of that party, and that the primaries will be quiet and without contest.

The Ashby-Burham company, of Spokane, has closed a deal for 37,760 acres, or 59 square miles of railway land in Yakima and Franklin counties. The price, it is said, being in the neighborhood of \$100,000. M. N. Kunpenberg and other Spokane men have purchased 38,400 acres or 60 square miles in Yakima county, paying about \$40,000. They intend to use it for a stock range.

\$100 Dollars Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, etc. Hall's Family Pills are the best.

What it is.
Advertising is the life blood of the business world today, and well directed advertising is like the powerful searchlight of a river steamer, thrown upon a distant cottage on the bank, cutting it out like a picture painted on a black canvas. The timid buyer and the prospective industry will follow the rays of the searchlight of publicity, just as surely as will the eyes of the steamer's passengers follow the light thrown from their vessel. They will not search the surrounding gloom for objects of interest when a beautiful picture is clearly shown before them. Prospective buyers will not search the surrounding gloom for your competitors if the searchlight of publicity is turned on your own place of business.—Canastota (N. Y.) Bee.

Lockjaw From Cobwebs.
Cobwebs put on a cut lately gave a woman lockjaw. Millions know that the best thing to put on a cut is Bucklen's Arnica Salve, the infallible healer of wounds, ulcers, sores, skin eruptions, burns, scalds and piles. It cures or no pay. Only 25c at Tallman & Co.'s.

True.
The occasional ad is one of the very best methods by which to squander money. Continuous advertising, on the other hand, will bring ample returns for the money invested.—Sugar.

WHAT IS POLITICS?

JUDGE LOWELL SPEAKS BEFORE WHITMAN COLLEGE.

Discussed Parties and Duties of the Citizen as a Voter of the Republic.

Walla Walla, March 20.—A course of chapel talks has been given at Whitman College during the winter, lectures by prominent men of the Inland Empire, covering in a practical manner the various phases of human effort, professional and otherwise, the object being to present to the students some of the concrete things in active life.

Judge Stephen A. Lowell, of Pendleton, spoke this morning upon the subject, "A Political Career," and among other things, the speaker said:

Politics under our form of government are necessarily incident to every calling, and he who fails to accept this truth and act in accordance is delinquent in his duty as a citizen. The political evils which exist are not the result of activities, but of neglect, because the men who believe in public faith and private integrity are always in the majority, and can control if they will.

Government of Parties.
This is necessarily a government of parties, and no thinking man would have it otherwise. It is therefore the duty of young men to early study the principles which the various parties represent, and to promptly ally themselves with that one which stands for those policies they believe wisest, and then to identify themselves actively with party affairs. He who fails to do this is either too delicate or too cowardly to be entitled to the privilege of American citizenship. Government is what the diligent make it, not what the indolent wish it.

Array yourselves at all times and upon all occasions upon the side of political decency and the honorable conduct of party affairs. It will take supreme courage to do this, for you will frequently find yourselves overwhelmed by money and machine, precincts will be colonized and floaters voted by conscienceless candidates, laws will be broken and the party press will applaud success, however attained, but time and Providence will hold the ultimate balance, even otherwise will come to your side, and the end will be a cleansing of political life. It is better to stand alone right, than with the multitude wrong. The call of the hour is the arousing of civic conscience, for in its present lethargy the boss and political trickster finds his opportunity. He is always helpless when the manhood of parties asserts itself.

Against Trickery.
Do not be afraid of the word "politician," but do your part to make it honorable by divorcing it from trickery and bribery. Practical politics, which mean only the distribution of office and the direct or indirect purchase of votes, must give way to patriotic politics, which shall enthrone principle, and make it triumphant. The curse of this age in politics is the lawlessness of law enforcement. Laws which protect the ballot must be enforced or our institutions are doomed.

Organization is as necessary in politics as it is in business, but it must be effected uprightly. The difficulty now is that through the shirking of public duty on the part of the majority, organization if left to the few, and those few too often make the term synonymous with commercialism. This condition will change, but it may be requisite ultimately to compel every citizen to abandon his private business upon days of elections, both primary and general, and to perform at the same time the high prerogative of citizenship and the office of detective. Compulsory voting may yet become necessary.

The primary is the foundation of our political life. If corruption and jobbery obtain here, there baneful influence imperils parties and endangers the state. It is therefore imperative that good citizens attend primary elections, that fairness may be assured, and the delegates may be selected whom no man can control, and whose courage and character will insure to the work of the conventions the considerate approvals of the public.

Whatever your profession, do not forget that along with your duty to yourself and your family stands an equal responsibility to your country, whose protection you enjoy and whose burdens you must share.

Would Smash the Club.
If members of the "Hay Fever Association" would use Dr. King's New Discovery for Consumption, the club would go to pieces, for it always cures this malady—and asthma, the kind that baffles the doctors—it wholly drives from the system. Thousands of once hopeless sufferers from consumption, pneumonia, bronchitis owe their lives and health to it. It conquers grip, saves little ones from croup and whooping cough and is positively guaranteed for all throat and lung troubles. 50c, \$1.00. Trial bottles free at Tallman & Co.'s.

Smoe's Pride of Umatilla Cigars.

A PICKLE FACTORY.

W. D. Smith Will Make Sour Food in Walla Walla.

Walla Walla, March 20.—W. D. Smith, who has operated a vinegar factory in this city for several years, has made arrangements to add a pickle preserving plant, and his vinegar plant is being changed to accommodate the new machinery. E. M. Foy, of Salt Lake City, has charge of the work, and the new plant will be ready for operation in a month. All kinds of pickles will be made and shipped wholesale from this city. Freight rates have been secured so that Eastern houses can be successfully competed with.

Mr. Smith has manufactured cider vinegar successfully for several years and has worked up a good trade. The new venture promises well so far as can be seen at present. Employment will be given a number of persons during the fall season.

New Schools in Cuba.

Since the American occupation of Cuba 3,600 new schools have been opened, and many reforms have been brought about in their educational system. Some idea of their work can be obtained from their exhibit at the Pan-American exposition, for which they were awarded five gold and four silver medals. This is certainly a wonderful record, and one we should all be proud of. There is also a wonderful record behind Hostetter's Stomach Bitters, the famous American remedy for indigestion, dyspepsia, flatulency, biliousness, nervousness and insomnia. If you are troubled with any of these ailments we should urge you to try it. It is also a splendid blood purifier, and should be in every household. Our Private Stamp is on the neck of the bottle.

BOASTS GREAT RECORD.

Criminal in Walla Walla Penitentiary Five Times.

Walla Walla, March 20.—"Scotty" Sharpe, a man with an unusual criminal record, has just been lodged in the state penitentiary. This is the fifth time he has given up his liberty for a number of suits of stripes. Sharpe came from King county three times, twice for burglary and once for robbery, from Walla Walla county for planting opium for convicts at the penitentiary, and the fifth time from Cowlitz county for burglary. He has two years to serve. He began his first sentence March 13, 1903, and has had but short intervals of freedom since. He has the most terms to his credit of any man in the institution, although many have served more years than he has. Still, he is a middle-aged man.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Gatling, the gun man, has invented a plow that does the work of 60 horses. But what can the ordinary farmer do with a contrivance of that kind?
