If members of the "Hay Fever Association" would use Dr. King's New discovery for Consumption, the club would go to pieces, for it always cures this malady—and asthma, the kind that baffles the doctors—it wholly drives from the system. Thousands of once hopeless sufferers from consumption, pneumonia, bronchitis owe their lives and health to it. It conquers grip, saves little ones from croup and whooping cough and is positively guaranteed for all throat and lung troubles. 50c, \$1.00. Trial bottles free at Tallman & Co's.

FREEWATER HAS BEEN INCORPORATED

Town on the Eve of a Boom and Matters Moving, Says Col. Raley.
Colonel J. H. Raley, who went to Freewater Thursday to take a hand in the swearing in of the new town officials and prepare their bonds and see that they were in legal shape, says that Freewater is now on the eve of a boom and its rapid development and growth is assured. Several ordinances were drawn up for the regulation of the city government and applications for three saloon licenses were received. The new council fixed the liquor license at \$500 per annum and it is expected to only be a short time until the little town of Freewater will be putting on metropolitan airs.

FOR A NEW DEALER

GORMAN FOR DEMOCRATIC CHAIRMAN.

Proposition to Make the Maryland Senator Head of the National Organization.

Senator Arthur P. Gorman, of Maryland, for chairman of the national democratic congressional committee, and a campaign in which the silver question will be ignored, is now the program of the minority in congress.

The significant feature of the new development in democratic lines is that the movement for the selection of Senator Gorman to lead the congressional fight originated with senators from the silver states and is supported by representatives and senators from states that have been standing by Mr. Bryan in all of his silver platforms. Mr. Bryan has quite recently presented arguments to show why Mr. Gorman would not be acceptable as a democratic candidate for the presidency, and the leading democrats in congress have answered his argument by asking Mr. Gorman to assume the leadership and management of the congressional campaign that is a preliminary skirmish to the national contest of 1904.

The movement for the selection of Mr. Gorman as chairman of the congressional campaign was started by Senator Dubois, of Idaho, who left the republican party when the national convention of St. Louis in 1896 declared for the single gold standard. It is understood that Senator Rawlins of Utah; Senator Culberson, of Texas; and Senator Carmack, of Tennessee, joined with Senator Dubois in the decision to request Mr. Gorman to act as the chairman of the party's congressional committee. Several conferences were held among the democratic senators and representatives, and a delegation was named to request Mr. Gorman to accept the chairmanship.

Faulkner the Leader.

Hon. C. J. Faulkner, former United States senator from West Virginia, who had been a party to the conferences, headed the delegation that called upon Senator Gorman at the Arlington. There was a long conference upon the proposition, and the democrats interested, while not securing a definite promise from Mr. Gorman, feel confident that he will consent to assume the leadership for the coming contest. Maryland is at present without a representative on the democratic congressional committee, and Mr. Gorman will be selected to fill that position.

Mr. Gorman stated this afternoon that he had been requested by a number of democrats to allow his name to be used in the election of a chairman of the congressional committee, and had taken the matter under advisement. He declined to indicate what his final decision would be, but stated that he was to have further conferences with leading democrats before he reached a decision.

The fact that Senator Gorman has not openly declined the position is accepted by leading democrats as an indication that they will agree to take the management of the coming campaign. His selection would be looked upon as another step in the direction of the union of the democrats and in final reorganization of the party under a forceful leadership and with the adoption of a policy that would not be antagonistic to the wishes of the democrats of the East. Following the action of the Mississippi democrats in declaring in favor of an alliance with the Eastern democracy, the proposition of Western democrats who have been considered wedded to the free silver proposition, to select Mr. Gorman as their leader in the coming congressional fight, is considered a hopeful indication of a reorganization of the party throughout the country.

Favors Gorman.

Supporters of the Gorman movement have considered the effect of his chairmanship of the congressional campaign upon his efforts to secure the democratic nomination for president in 1904. They contend that his management of the contest this year, instead of endangering his chances for the presidential nomination would better them.

Aside from the effect of the proposed leadership of Mr. Gorman from the standpoint of national politics, there are other reasons why the democrats are anxious to secure his active management of the coming congressional campaign. He is recognized as one of the greatest organizers in the party, with influences that would produce results in the collection of campaign contributions, so sadly needed by the party. The proposition to name him as chairman of the committee has been warmly endorsed by the democrats in the senate and house, and there is but little question of his selection at the meeting on Friday night if he decides to accept.

The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J.
