NEW YORK LETTER

GOTHAM'S TOPICS OF GENERAL INTEREST

Some Politics and Other Matters of Current Attention.

New York, March 24.—After one of the busiest seasons in its history the New York State Legislature closes next Thursday, which by the way will be the earliest adjournment on record for that body. A large number of bills have been passed and equally as many shelved, but the most notable of the latter is the "three platoon" bill, which has been the cause of a great expenditure of money by the policemen of New York.

Nothing has been the cause lately of so much gratification on the part of Comptroller Grout as the passage of the bill by the state assembly to permit the collection of New York city taxes in the spring instead of in the fall. However simple the change may seem, it means a great deal for the city, which for years has been obliged to live upon its future income, and for nine months of the year to borrow from the banks \$50,000,000 and more, in order to provide for its expenses until such time as its taxes are paid. This cost the city something like a round million in interest charges.

Every year New York receives from anonymous contributions money paid in restitution and credited to the "conscience fund." The amounts are small, varying some years from as low as \$50 and as high as \$400. Last year they were \$302. The state government gets very little from any conscience fund. Some years ago there were no such payments; the latest statistics show that last year they were \$10.

The majority of American girls who have become English women and who will be conspicuous as hostesses during the gay season following King Edward's coronation are New Yorkers. The Duchess of Marlborough, who will probably head the list of most lavish entertainers as her functions will extend beyond London to her country place at Blenheim, is the daughter of William K. Vanderbilt. Lady Stratford, who is both beautiful and immensely wealthy was Mrs. Cora Colgate, of New York. Then there is the Dowager Duchess of Manchester, also Mrs. Arthur Paget, the Countess of Craven and Lady Beresford, all of whom have reigned as belles of Gotham's smart set.

Nineteen hundred and two will be what is known as a state year in New York, for the offices to be filled at the fall elections except for congress, are all state posts. The date of the official primary election in New York City will be September 16.

Wall street men are looking forward with an unusual degree of interest to the visit of Count Matsukata and other leading Japanese—who are now en route to America—next month. Count Matsukata is one of the foremost financiers and statesmen of Japan and by his visit in the street will hear more about the proposed Japanese loan of \$10,000,000 being floated here.

"Holt's Folly" is doomed to disappear at last. The famous old United States hotel on Fulton street is shortly to be torn down. The property has been sold for \$225,000 and will give way to a ten-story office and loft building in the near future. It was originally opened as Holt's hotel in 1823, and the tall cupola was used as a signal station for ships sighted at Sandy Hook. The news of an incoming ship was flagged to the hotel by way of Governor's Island.

Those sportsmen whose interests center chiefly in baseball are all on the qui vive to know what will be the result of the National League magates at the conference to be next Monday. Concerning the details of the conferences which led up to the agreement, there is absolutely no information as everything has been transacted behind closed doors, but both sides have been flying signals of distress for some time past and the fact that Freedman and his friends have consented to meet the opposition in conference without stipulating that Spaulding must be flung aside by his allies, is taken as conclusive evidence that the New York club officials will welcome peace as much as anybody. Baseball men are anxious to know who set the first ball rolling, looking to a compromise.

The Provident Loan Association, which conducts a philanthropic pawn-broking business in this city made last year a profit of 6 per cent on a capital of \$383,000, and has a surplus of \$111,000. Philanthropy in this case is a good business investment, which makes it the best kind of an investment. Loans are made on personal property at moderate but paying rates. Among the trustees of the association are Cornelius Vanderbilt, D. Ogden Mills, Abram S. Hewitt and other representative financiers.

In this unseasonable weather there comes the news from fashionable

London that Panama hats are going to cost more the coming season than ever before. This will be pleasing information for the thrifty young men who economically invested from \$20 to \$100 each last summer for a Panama hat. The English hats are made principally in Belgium and the makers have declared a 50 per cent advance in prices largely based on the excess of demand over supply. Last year the Panama here was so popular that the supply was quickly exhausted despite the fact that some of the prices paid for designs were high enough to make a fashionable woman's milliner hide her face and admit that she did not know how to charge. If they are agal to be in style, it will relieve the minds of many a young man who squandered more on his last season's Panama than he could afford and whose only hope of getting square with his finances is to wear his Panama another summer.

Admiral Taylor has addressed a letter to President Cantor of Manhattan in regard to the bill to lease part of Blackwell's island, which is now used for various city institutions to the government for a naval park and drill ground. The position of the island would cause it to become a depository of flags, trophies and interesting relics, and would become a national site for monuments of other naval memorials. Admiral Taylor thinks.

One of the most striking incongruities of official salaries in New York is the compensation paid the physicians in the fire department, as compared with that paid to the physicians in the police department. The former get \$2000 and the latter \$3000. The matter has caused quite a deal of grumbling and discussion, and the present administration will be called upon no doubt to act in the matter.

For the Complexion.
The complexion always suffers from biliousness or constipation. Unless the bowels are kept open the impurities from the body appear in the form of unsightly eruptions. DeWitt's Little Early Risers keep the liver and bowels in healthy condition and remove the cause of such troubles. C. E. Hooper, Albany, Ga., says: "I took DeWitt's Little Early Risers for biliousness. They were just what I needed. I am feeling better now than in years." Never gripe or distress. Safe, thorough and gentle. The very best pills. Tallman & Co. and Brock & McComas.

Governor McBride, of Washington, has sent Attorney-General Stratton to Washington, D. C. to begin proceedings for the dissolution of the great railroad merger. He is confident the point on which Minnesota lost its suit will not apply to Washington. Attorney-General Stratton left Olympia last week ostensibly for Spokane, but it now transpires he is en route to the national capital on the mission heretofore indicated. Washington will have the co-operation of Minnesota and Montana in the fight.

GENERAL NEWS.

The senators are now devising methods by which the oleomargarine bill can be defeated. The scheme is to amend it so as to nullify its provisions.

E. C. Simmons, advisory director of the Simmons Hardware Company, stated that there was a \$30,000,000 deal on, which would probably end in the consolidation of four of the largest hardware concerns in the country.

Florence Burns, the young Brooklyn woman who has been in the custody of the police of New York city since February 15, under suspicion of knowing how Walter Brooks met his death, was discharged from custody by Justice Mayer.

Unless one party or the other recedes from its present position, the probabilities are that every brewery in Boston will be closed April 1. The trouble may also affect the bartenders of that and other cities. The 1500 brewery workmen have requested the master brewers to grant them an eight-hour work day April 1, without reduction of wages.

The contest for a shorter work day which is being carried on against paper manufacturers by the United Brotherhood of Paper Makers of America, is expected to reach a crisis within two weeks. Representatives of newspaper manufacturers and of labor unions interested in the paper trade had a conference in Milwaukee, Wis. It was called by Secretary Eastey, of the National Civic Federation to avert, if possible, a threatened strike of the men employed in the paper mills.

PACIFIC NORTHWEST NEWS

The matter of navigating the upper Snake river is again before the people of Lewiston. The Fargo Mining Company is behind the movement, and is anxious to have a boat built to enable it to get the product of its mines out to market.

News was brought of the loss of the steamer Berandian, a Dutch vessel of 212 tons. She foundered in Rho Straits February 5. The Berandian met with heavy weather, and a heavy sea came over the bows, causing her to sink almost immediately.

Frank Johnson, the champion wrestler of the Northwest, has suffered a broken rib, and will be unable to appear Tuesday evening for his match with Fred Bayley, of the Olympic club, in Portland, in what was to have been a Coast championship contest.

At The Dalles, regarding the recent decision of the Interior department vesting authority to grant grazing permits in the Cascade reserve in the executive committee of the Oregon Wool Growers' Association, satisfaction is generally expressed and the move considered a judicious one by the sheep men.

At Vancouver, Wash., Oscar Guenther, of Portland, is wanted by the police for kidnaping his own child. According to the story of the distracted wife and mother, who says she left her husband several months ago on account of his cruel treatment, Guenther appeared at the house of her father, Carl Grammam, at Barbervtown, Clark county, where she has been staying with the child, and demanded the child. When his request was refused, Guenther snatched up the child and disappeared and has not been seen since.

Surgeon's Knife Not Needed.
Surgery is no longer necessary to cure piles. DeWitt's Witch Hazel Salve cures such cases at once, removing the necessity for dangerous, painful and expensive operations. For scalds, cuts, burns, wounds, bruises, sores and skin diseases it is unequalled. Beware of counterfeits. Tallman & Co. and Brock & McComas.
