### GENERAL NEWS

Gilbert Parker, who is dramatizing his novel, "The Right of Way," has sold the American rights to Charles Frohman, cables the London correspondent to the Herald.

Six men were killed as the result of an explosion of firedamp last night in a colliery at Wigan, Lancashire, England. A number of men were entombed at Dumfermline, Scotland, owing to a similar accident.

A single page folio of "The Charge of the Light Brigade," the original rough proof sheet corrected by Tennyson before it was printed in the Examiner, was sold at auction in London for \$440. It was from the collection of A. J. Morgan.

Tommy Herkeneth, known in pugilistic circles as Tommy White, who was knocked unconscious on Saturday, March 29, in a bout with Tommy Markey at the Knickerbocker Athletic club, died in Philadelphia in the Presbyterian Hospital.

The Redwood Manufacturing Company has appealed to the United States court for protection for its employees against the iron moulders, who have been on a strike for a month past. The complaint charges that the men who want to work are terrorized by the striking union men, and that some of them are afraid to come to the factory.

Passengers arriving in St. Paul on Thursday on a Great Northern train due last Friday tell of being snow-bound for four days and five nights on the prairies of North Dakota in the worst blizzard the Northwest has seen for years, with only food enough for two fugal meals per day, and with such a small amount of fuel that the ladies had to wrap themselves in blankets and the men wear their overcoats day and night to keep from freezing. The train was completely lost to the world.

### PACIFIC NORTHWEST NEWS

From Medford H. C. Messenger, of Ashland, sentenced to the penitentiary for 15 years for manslaughter, and E. E. Foley who was sentenced to two years for forgery, were taken to Salem by Sheriff Orme.

At Independence during the last two weeks the aggregate sum of \$1000 has been paid out by the farmers for fine cows. Dairymen are getting the mongrel cows ready for beef, and putting the revenue derived from them into fine thoroughbred animals.

The Brownsville Woolen Mills in Portland was crowded with customers for the suits made from the first goods turned out by the new management of the mills. The price was put away down to attract attention, and the effort of the concern was not in vain.

At Burns, Henry Masterson, of Drewsey, died Tuesday night from rheumatism, and his wife died Wednesday morning of pneumonia. Mr. and Mrs. Masterson were well to do people of Drewsey. Mr. Masterson came to Harney county in 1885, and located on a farm. They leave three children, the oldest being 8 and the youngest 4 years of age. The father and mother were buried in one grave at Drewsey.

Burglars blew off the door of the safe at the Castle Rock postoffice early Thursday morning and made a small haul. A hole was drilled in the top of the safe and some powerful explosive used. Entrance seems to have been effected through the rear door. The explosion was heavy and awakened many people. S. J. Ely and C. Dunbar went out to investigate and saw a man running but were not near enough to get at him. They found a window broken in Hersey's store in front of the postoffice, and summoned the marshal.

#### Neglect Means Danger.

Don't neglect biliousness and constipation. Your health will suffer permanently if you do. DeWitt's Little Early Risers cure such cases. M. B. Smith, Butternut, Mich., says "DeWitt's Little Early Risers are the most satisfactory pills I ever took. Never gripe or cause nausea."

#### What It Is.

Advertising is the life blood of the business world today, and well directed advertising is like the powerful searchlight of a river steamer, thrown upon a distant cottage on the bank, cutting it out like a picture painted on a black canvas. The timid buyer and the prospective industry will follow the rays of the searchlight of publicity, just as surely as will the eyes of the steamer's passengers follow the light thrown from their vessel. They will not search the surrounding gloom for objects of interest when a beautiful picture is clearly shown before them. Prospective buyers will not search the surrounding gloom for your competitors if the searchlight of publicity is turned on your own place of business.—Canastota (N. Y.) Bee.

Nasal catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. A remedy for nasal catarrh which is drying or exciting to the diseased membrane should not be used. Cream Balm is recognized as a specific. Price 50 cents at druggists or by mail. A cold in the head immediately disappears when Cream Balm is used. Ely Brothers, 56 Warren street, New York.

Hudda Mullah, the old fanatic who has in the past endeavored to embroil Great Britain and Afghanistan, has started for Cabul, the capital of Afghanistan, with 5000 armed followers. It is feared that his arrival at Cabul will cause disturbances, as the widow of the late Ameer is opposed to him.

Smoke Pendleton Boquet Cigars.

# FUEL RESOURCES

(Concluded.)

Coos bay field is divided into the Newton, the Beaver Slough, the Copuille and the South Slough basins. In the first named basin the Newton mine is the only one out of several started that has survived and is being worked. The Beaver Slough basin, over 20 miles long from near River-ton to the northern limits of Coos bay and about 5 miles wide, has seen many mines start and only one, the Beaver Hill mine survive, though no shipments are now made. The prospects for enlargement are, however, good. The South Slough basin lies immediately to the west of the two basins mentioned. The Copuille basin is 8 miles long and one wide. Coal has been prospected there, but no mines opened.

In 1880 the Pacific Coast produced about 425,000 tons, in 1890 over 1,435,000 tons and in 1900 over 2,704,000 tons.

#### Oregon Once Was First.

Of the three Pacific coast states, Washington easily ranks first as a coal producer, with California second, although in 1896-7 Oregon's production exceeded that of California. In the San Francisco market the coals of the world compete. Foreign coal enters that port chiefly as ballast in tramp steamers seeking grain charters so that the condition of the wheat export trade has a direct bearing up on the coal imports. The coal supply of California comes from England, Wales, Scotland, Australia and Japan in addition to British Columbia. The imports of coal at the California ports have for years amounted to about three-fourths of the aggregate coal tonnage imported into the United States. Eastern coal reaches the Pacific coast only in small quantities, and the Rocky mountain coal has not been a source of supply for 20 years. The contribution from the three coast states to the San Francisco market is growing rapidly. In 1880 it was less than 20,000 tons, in 1900 it was 830,000 tons out of a total of 1,800,000 tons.

The coal fields of Washington are confined to the western and central parts of the state. Four large fields may be mentioned, the northern and southern Puget Sound fields, the Roslyn basin, and the field in Lewis and Cowlitz counties. In the northern part of the state. The northern Puget Sound field includes the coal fields of Skagit and Whatcom counties, in the northern part of the state. The southern Puget Sound field lies in King and Pierce counties, directly west of the cities of Seattle and Tacoma. In production this is the most important field in the state, including the Wilkeson-Carbonado district in Pierce county, and the Green River, Renton-Cedar River, and the New-Castle Issaquah districts of King County.

#### In Washington.

The first discovery of coal was made in 1848, lignite of poor quality being found in Cowlitz valley at that time. Four years later coal was discovered on Bellingham bay in Whatcom county, and shipments began from this in 1860 and continued until 1878 when spontaneous combustion caused fire that destroyed the mine. Two or more northern mines have been active shippers since 1891. In King county coal was reported in 1859 and mining began near the present Issaquah mines in 1862. The Newcastle mine was the real pioneer mine in this field. It began to ship coal to Seattle in 1867. By 1877 coal from King county had become an important factor in the San Francisco market, the Renton and Talbot mines having become shippers also. Coal was discovered east of the Cascades and the Roslyn mine opened early in the eighties; and the same coal was reached by the Cleallum shaft in 1894. The mines at Roslyn and Cleallum constitute the largest colliery in the state.

#### A Doctor's Bad Plight.

"Two years ago, as the result of a severe cold, I lost my voice," writes Dr. M. L. Scarborough, of Hebron, Ohio, "then began an obstinate cough. Every remedy known to me as a practicing physician for 35 years, failed, and I daily grew worse. Being urged to try Dr. King's New Discovery for Consumption, Coughs and Colds, I found quick relief, and for last ten days have felt better than for two years." Positively guaranteed for Throat and Lung troubles of Tallman & Co. 50c and \$1. Trial bottles free.

#### FISHING NOT YET GOOD IN THIS VICINITY.

Streams Are Not Clear Enough to Permit Any Unusual Hauls.

Since the fish season opened the first of the month, the dealers in fishing tackle have had a good trade from the local followers in the footsteps of Ike Walton. Already many of the boys and some men have been out trying their luck with the rod and reel. So far, no killing catches have been reported. Several local sportsmen have been seen out for the last few days with their outfits, going to their favorite fishing grounds in quest

of the festive trout, but they have invariably returned without any casualties to themselves and few to the fish, although some of them have made small catches.

The water in the Umatilla is a little too swift yet for fish to bite, although a few bull trout are being caught. It is too early for good fishing, although for several years the river here has not been seen as low as it is now or as clear at the opening of the season. Unless there comes some very heavy rains in the hills, it will only be a short time until the local fly casters will be plying their favorite trade along the banks of the river and many big fish stories will begin to float around.

Following is what the Walla Walla Statesman said in Wednesday's issue in regard to the sportsmen from over there coming to the waters of Umatilla county to ply their favorite sport:

#### Walla Walla Fishermen's Understanding.

"There is liable to be trouble for Walla Walla fishermen in running afoul of Umatilla county deputy game wardens and their laws. There is a law in Oregon that trout, or in fact, any kind of fish cannot be taken out of the state. It has been the habit of local fishermen to visit this famous trout stream on a Sunday for a day's fishing, returning in the evening with their catch. This, it is said, will be stopped by order of the game warden of Umatilla county, who has jurisdiction over this stream. It is said wardens have been given to deputy wardens that any person caught taking fish out of the state are to be arrested. In view of the fact that nearly every resident along the river from the forks up, has been deputized a game warden, if the order goes forth to stop the taking of fish out of the state, it is liable to be enforced."

#### Their Error.

The Statesman has undoubtedly forgotten that the above law was unconstitutional and had been declared so in the higher courts. In speaking of this, J. E. Krause, vice-president of the Oregon Fish and Game Association, said: "Yes, there is a law that said that no fisherman can go into another state and make a catch and carry his fish over the line, but this law cannot be enforced. It is unconstitutional and no one need fear being arrested for such a thing."

#### Shot in His Left Leg.

For all kinds of sores, burns, bruises, or other wounds DeWitt's Witch Hazel Salve is a sure cure. Skin diseases yield to it at once. Never fails in case of piles. Cooling and healing. None genuine but DeWitt's. Beware of counterfeits. "I suffered for many years by a gunshot wound in my left leg," says A. S. Fuller, English, Ind. "It would not heal and gave me much trouble. I used all kinds of remedies to no purpose until I tried DeWitt's Witch Hazel Salve. A few boxes cured me. Tallman & Co. and Brock & McComas.

#### KOONTZ BUYS WHEAT.

In the Walla Walla Valley for His Echo Mill.

The value of Walla Walla valley wheat for milling purposes is being demonstrated by the fact that millers from outside states are constantly looking for the cereal from this valley. The latest bidder for valley wheat is J. H. Koontz, the big miller of Echo, Ore., who arrived in this city yesterday for the purpose of looking up wheat that he may ship to his plant at Echo. Wheat at the present time, while quite plentiful, is hard to get hold of in view of the fact that the present prices are not satisfactory to farmers. It is estimated fully 25 per cent of Walla Walla county's last year's crop is in the hands of farmers, and the bulk of it is liable to remain there unless the prices begin to show a tendency toward the 60-cent mark.—Statesman.

#### Wants to Help Others.

"I had stomach trouble all my life," says Edw. Mehler, proprietor of the Union Bottling Works, Erie, Pa., "and tried all kinds of remedies, went to several doctors and spent considerable money trying to get a moment's peace. Finally I read of Kodol Dyspepsia Cure and have been taking it to my great satisfaction. I never found its equal for stomach trouble and gladly recommend it in hope that I may help other sufferers." Kodol Dyspepsia Cure cures all stomach troubles. You don't have to diet. Kodol Dyspepsia Cure digests what you eat. Tallman & Co. and Brock & McComas.
