MARION DEMOCRATS.

Hope for Success of Chamberlain as Governor.
Portland, April 5.—The Oregonian has this in correspondence from Salem:
"The nomination of Furnish by the republicans has not disconcerted the Marion county democrats. They hold that the Pendleton man will prove no more formidable than Governor Geer would have done. George E. Chamberlain is a strong favorite for governor, and it is believed that the Multnomah county man is the strongest that can be named by the party."

REPAIRING THE ABBEY.

Westminster to be Made Ready for the Coronation.
London, April 5.—Westminster Abbey was closed this week and formally handed over to the earl marshal to be put in readiness for the coronation ceremony. The alterations will be of the most elaborate character, but their success will largely depend upon the seating arrangements. That part of the business is giving a great deal of trouble. There are so many people to be provided for, and the accommodation within the abbey is not of a very adaptable character.
A wild desire of some people to get a view of the ceremony is indeed amusing. It has leaked out that a number of young scions of a noble family, in their anxiety to see the coronation of their majesties, had arranged to join the choir, while others made application for privilege of acting as dummies in the orchestra. The earl marshal, learning of the matter, took immediate steps to thwart the ambition of the young men, fearing that the success of their plans might interfere with the beauties of the musical service.
It is learned that the streets in Westminster during the coronation festivities will be decorated with Venetian masts, red artificial roses, green leaves, celluloid balls, yellow ribbons and other devices. Near the Abbey the poles are to be more ornate than elsewhere, and there will be a series of triumphal arches representing the mother country and the colonies.
A peculiar custom is followed in remote Korea, where a man is not permitted to attain to the dignity of trousers until he has become a Benedict.

THE ST. LOUIS CORRUPTIONISTS

Millionaires and Municipal Assemblymen Systematically Buy and Sell Votes for Large Sums.

THE GRAND JURY RETURNS TRUE BILLS AND NAMES SOME PROMINENT CITIZENS.

Regular Schedule of Prices Was Maintained—Votes Bring From \$100 to \$100,000—Both Branches of the Assembly Are Foul With the Contaminating Touch of the Briber—Few Ordinances Are Passed Without the Use of Money to Induce the Local Legislators to Act.

St. Louis, April 5.—The most startling report ever made by a St. Louis grand jury, was returned this morning by that body which has been investigating the municipal boodle scandal. True bills were reported for millionaires and members of the municipal assembly who have been arrested from time to time on charges of bribery and perjury. The report recites combines for the purpose of bribery exist in both branches of the assembly and that in recent years few ordinances have passed without the use of money; that the assemblymen seem to regard bribery as a legitimate business occupation, and frequently receive from \$100 to \$100,000 for their votes. The report says that a regular scale of prices for bribery was discovered and existing in the assembly. Among the true bills reported is one against Robert Snyder, the Kansas City millionaire, charged with offering a councilman \$50,000 for his vote on a traction bill. Geo. Kobusch, also a millionaire, is charged with perjury.

NEXT WEEK'S PROGRAM.

Chinese Exclusion Bill Likely to Be Defeated by Substitute.

Washington, April 5.—Next week promises to be the banner week in the house. The program contemplates a discussion of the Payne Cuban reciprocity bill. Attempts will be made by the democrats to amend the bill so as to open the subject of tariff revision, but the chairman will rule all such amendments out of order. Some of the beet sugar republicans will seek the adoption of amendments also wishing the differential on refined sugar, but, of course, the procedure will be the same. If there should be any spare time during the week the Chinese exclusion bill will be taken up. This measure will occupy every afternoon in the senate next week. Usually, a large number of senators desire to make speeches on this measure, and even the friends of the bill scarcely expect to reach a vote on it during the week. The impression that the senate's action on the question will be confined to extension of the law now on the statute books is growing.

The answer is: 'Commissioner Evans has tendered his resignation, but it has not been accepted. Secretary Hitchcock's resignation has been accepted, but has not yet been tendered.'"

NO MONGOLIANS

Says the Senator From the State of Indiana.

THE CHINESE EXCLUSION BILL BEFORE CONGRESS.

Fairbanks Argues its Constitutional Right and Believes the Interests of Labor Demand its Passage at Once.

Washington, April 5.—Senator Fairbanks spoke at great length on exclusion, detailing the history of restrictive laws in America and stating that the bill before the senate is not a departure from the well settled policy of the government. It was necessary in order to maintain high wages for labor. The admission of Chinese undoubtedly would lower wages. The government would be recreant to the high trust committed to it should it enter upon a policy which undoubtedly would lower the standard of our civilization.
An interesting eulogy arose at the conclusion of Fairbanks' remarks. Gallinger thought certain provisions of the pending measure would violate the existing treaty. Lodge and Mitchell denied the charge.
House, Too, Considers it.
Washington, April 5.—The house today resumed consideration of the Chinese exclusion bill. While all the speakers favored exclusion, there were many who favored the more stringent laws reported by the minority.

MITCHELL ON EXCLUSION.

Oregon Senator Advanced Legal Arguments for the Measure.

Washington, April 5.—The senate yesterday took up the Chinese exclusion bill, Mitchell, of Oregon, making an extended speech, stating that exclusion has been one of the established policies of the country. No offense is meant to China. The measure is entirely constitutional. The right to exclude foreigners is one of the highest attributes of American sovereignty. He warned the republicans that failure to pass the measure would result in the overthrow of the republican party in the Coast states.

Philippines After Chinese Bill.

Washington, April 5.—The senate steering committee this morning decided to take up the Philippines civil government bill, after the Chinese exclusion bill is disposed of.

DR. PRICE'S

Cream Baking Powder

Each time the United States Government has officially tested the baking powders the report has shown Dr. Price's Cream Baking Powder to be of superlative leavening strength, free from alum, absolutely pure and wholesome.

This is gratifying, for Dr. Price's Cream Baking Powder is depended upon by millions of people to raise their daily bread.

NOTE.—These Government inquiries also developed the fact that there are many mixtures upon the market made in imitation of baking powder, but containing alum or other caustic acid, whose use in food is dangerous.
