ENT VISITS

People gathered around the station this morning and the arrival of President and his party. An official reception was extended by Mayor and a citizen's reception committee and a cordial response was given by the president. The greater part of the day, after the formalities were over, was spent in the harbor, the jetties and places of interest in and about Charleston. Public buildings and business throughout the city were in honor of the visitors and there was a continuous stream of people from the crowd that lined the sidewalks and filled the windows. The trains today are crowded to capacity with visitors who have come to the celebration of President's arrival and indications the crowd will be the largest ever entertained in Charleston.

of His Mother's People.

A night of rain through Virginia and North Carolina, morning bright and balmy in the Palmetto. The first inhabitants of the state to catch a glimpse of the president were those of Branchville. The president appeared on the platform in time to say: "Good morning," when the train started on its journey, 22 miles from Branchville, a committee from Branchville boarded the train. Hearty greetings were given when he stepped on the platform and said: "This is the home of my mother's people. So it is a great pleasure to be greeted by you."

Led the Liberal Forces in the House of English Lords—Created an Earl in 1866.

London, April 8.—Earl Kimberly, liberal leader in the house of lords, died today. He had been seriously ill for some time.

He was colonial secretary for India from 1882 to 1885, and during 1886; lord president of the council and secretary of state in 1892, and secretary of state for foreign affairs under Lord Roseberry in 1894.

GREAT EVENTS TO BE.

General MacArthur on the Future of the Philippine Islands.

Washington, April 8.—General MacArthur continued his testimony before the senate Philippines committee today. With regard to political and economic conditions in the islands, he said he had come to the conclusion that the best type of republican institutions could be planted there, and, once planted, would never be eradicated. He believed we are instruments by which great events are to be accomplished.

Among the prominent clubs to be met are those of Annapolis, West Point, Pennsylvania, Lehigh, Cornell, Princeton and Yale.

The most heavily insured monarch was the late King Humbert, whose life was valued by himself at \$7,500,000, so that the many insurance companies among which the risks were divided were very hard hit by his assassination. The German emperor's insurance also runs into seven figures.

CULLOM OPPOSES BEET SUGAR BEATEN

Chinese Exclusion Bill of Pacific Coast Authorship of Which Mitchell, of Oregon, is Sponsor.

ILLINOIS SENATOR'S EXHAUSTIVE ARGUMENT.

Says It is in Violation of Existing Treaties, But Concedes Our Right to Pass Laws Not Agreeing With Conventions With Foreign Nations.

Washington, April 8.—Cullom, of Illinois, chairman of the foreign relations committee, addressed the senate this afternoon in opposition to the Chinese exclusion bill framed by the Pacific Coast senators and representatives. "He gave an exhaustive review of the treaties and legislation on the subject, analyzed the pending measure and pointed out wherein its provisions were in violation of the spirit and letter of the treaties. He said he personally favored the exclusion of Chinese in the ordinary meaning of the word and proper enforcement of the present laws, which he thought are sufficient. He admitted the right of congress under the constitution to pass laws contravening treaties, but believed such a course should be taken only in the most exceptional cases, adding that there is nothing in the present situation that makes it either expedient or necessary to pass a law in disregard of the treaty with China. If, however, China should decline to enter into a new treaty, the United States might be justified in going ahead and passing any law on the subject of Chinese immigration it might choose.

Protest and Support.

Washington, April 8.—The president pro-tem laid before the senate this morning a lengthy telegram of protest against the pending Chinese exclusion bill, signed by Claus Spreckles, H. D. Scott and a dozen other capitalists of San Francisco, and characterized as a gross injustice that provision of the measure excluding Chinese merchants.

On Cuban Reciprocity They Tip Their Hand, and Demonstrate Their Weakness in the Fight.

CONSIDERATION OF THE MEASURE IN THE HOUSE.

Was the Occasion for the Test of Strength Which Once More Showed That the Beet Sugar Argument is Second to Justice to the Islanders.

Washington, April 8.—Consideration of the ways and means bill for Cuban reciprocity began in the house this morning. The beet sugar men at once jumped into the fight, as soon as floor leader Payne made a motion to go into committee of the whole to consider the bill. The opposition's motion came to naught, as they were overruled and outvoted on every point. Payne opened the discussion. The conditions in Cuba are such, the speaker said, that it is absolutely necessary to give the Cubans reciprocal trade relations. He denied that the 20 per cent reduction on Cuban sugar would injure the American beet sugar industry.

THE HUBBARD RAILWAY MERGER BILL PASSED.

But It Will Probably Be Vetoed by the Governor Like Former Measure.

Des Moines, April 8.—The Hubbard railway merger bill, a companion of the Molesberry bill, passed the house today, having previously passed the senate. It is believed it will be vetoed by the governor as was the Molesberry. The measure is in the interest of the Northern Securities Company.

Perpetual Motion Machine.

Charles Wondries, of Lagrange, Ill., has a perpetual motion machine which he is planning to exploit at the St. Louis exposition. He asserts that it will run till it wears out without stopping. The power is derived from a draught obtained through a hall stack or chimney. He proposes to erect a stack 1050 feet high and 200 feet at the base. With it he says he can generate 50-horse power, enough to furnish lights for the stack. The cost would be \$500,000, and he says he has a stock company in formation to furnish the money.

ANDY ROTHROCK SHOOTS WILDLY

Bullet Passes Close to Will Lyons' Head in the Adjoining Building—Then More Shooting Was Done at Rothrock's Home.

INTOXICATION CAUSED THE RECKLESS FIRING

No Arrests Have Been Made and no Complaints Have Been Made—Rothrock Had Business and Domestic Troubles That Had Turned His Head and Made Him Careless.

Considerable excitement was caused about 7:30 this morning in the "Hermitage" saloon by Andy Rothrock pulling a six-shooter and deliberately firing it into the wall. Nor was the excitement confined to the saloon, but Will Lyons, assistant in the W. & C. R. ticket office, had occasion to feel a "bit queer," as he expressed it. The "Hermitage" saloon is next door in the same building with the ticket office, on the corner of Webb and Main streets, with only a partition of laths and plaster between. Lyons had opened up the office and was building a fire, when the shot was fired. The ball went through the wall and struck the side of the telephone, which was on the opposite side of the wall from the saloon, splintered a piece off it and then fell to the floor. Lyons was almost in range of the shot and had the telephone not been in the way the ball would not have missed his head very far.

Some Domestic Troubles.

Rothrock has been having some domestic trouble lately and last night ran his wife away from home. Added to the domestic trouble, he was recently "taken in" by a "smooth"

Some baking powder makers claim their powders are cheaper. They can be cheaper only if made from cheaper materials. To cheapen the cost of an article of food at the expense of its healthfulness, as is done in alum baking powders, is a crime.
