GENERAL NEWS

Careful computation gives the strength of the scattered Boer commands at between 8000 and 9000 men.

Casper Kruger, the eldest son of President Kruger, and 24 other relatives of Mr. Kruger bearing the same name, are among those who have recently taken the oath of allegiance to Great Britain.

President Andrew Draper, of the University of Illinois, and Mrs. Draper, were thrown from their carriage while driving and the president's left leg was broken above the knee. Mrs. Draper escaped serious injury.

The brewery workers will have strong allies in the members of the Bartenders' Union in their fight against the master brewers of Boston, although the exact form or method of support is as yet undecided.

I. Otsuka, imperial geologist and engineer of the Imperial Steel Works of Japan, arrived in Beaumont, Texas, and will remain there three or four days. Mr. Otsuka is here as a representative of the Japanese government to study the Beaumont oil fields.

Owing to the great distance separating the members of the Transvaal mission from Mr. Steyn, the ex-president of the Orange Free State, and General Delarey, the negotiations between the Boer leaders in South Africa looking to the conclusion of the war make little progress. It is expected, however, that Mr. Schalkburger and his colleagues on the mission will shortly leave for a more convenient center from which to conduct the negotiations.

PACIFIC NORTHWEST NEWS

Odessa, Wash., is to have a telephone system in the near future.

Hamblin Bros., of Garfield, Wash., are going to lay out a town site on their property in Adams county. The new town will be known as Hamblin.

John Barrett, of Portland, commissioner-general of Asia for the Louisiana Purchase Exposition, left Chicago for San Francisco, en route to the Orient.

The farmers of the Sunnyside district in the Yakima valley, have organized a Farmers' Mutual Protective Society. The purpose of the association is to protect the farmers from land sharks.

Scranton's six-months street car strike is at an end, and the men will return to work tomorrow morning. An agreement was signed by General Manager Silliman and the executive board of the strikers.

The Washoe smelters at Anaconda are partially at a standstill, because of the strike of the hoisting engineers of the Amalgamated mines. The ore bins were emptied. Over 2300 men are now idle in Anaconda by reason of the walkout of the engineers.

S. King, of Colfax, Wash., has accepted the position of deputy state grain inspector, tendered him two months ago by J. W. Arrasmith, recently appointed grain inspector for Washington by Governor McBride. Mr. King has gone to Tacoma to familiarize himself with the office prior to taking charge May 1.

A jury in the superior court has awarded Mrs. Rosa Schumaker, of Colfax, judgment for \$5268.50 against John Driessel, for damages alleged to have been inflicted upon her by a horse owned by the defendant in October, 1897. The case has been on trial five days. The plaintiff sued for \$10,000. She claimed that while in the employ of defendant a horse owned by him knocked her down and trampled upon her.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. A druggist refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

FROM OTHER TOWNS

FREEWATER BOOMS NOW SAYS A MAN FROM THERE.

A. S. Pearson Thinks It Has Doubled in Size Since it was Incorporated.

A. S. Pearson, who was in town this morning from the recently incorporated town of Freewater, near the state line on the east end, in speaking about his town, said:

"Since we were incorporated, Freewater has just been coming to the front. Yes, sir; it is booming right along. We have two saloons that have gone in within the last month, and many business men are figuring on establishing different kinds of business in our active little burg. Several of the business houses are contemplating moving up from Milton and the Preston Grocery Company, of Walla Walla, has bought a lot right in the heart of town and are going to erect a fine business house this spring and put in an up-to-date stock of general groceries. Several others have bought lots on Main street and are going to build business houses for the purpose of renting them or to put in a stock of goods themselves.

"Not a day passes that some stranger is not in the town looking for property or a business location. It will be only a short time at the rate that she is started, until Freewater will be the leading business point of the east end. I am in the real estate business there and I know whereof I speak when I say that town property has advanced in price 50 per cent within the last three months. Why, my commissions have amounted to \$1200 for the last two weeks, and you can see that the town is doing something. Most of these sales have been of town property.

"Another thing that very few towns can boast of in this country is being out of debt. We are not in debt and have exactly \$1000 in our treasury. All of our neighbor towns are badly in debt and the business man or property owner has to be continually paying high taxes to keep up the interest on their indebtedness. We have also agreed among ourselves that we will not bond our little town for anything. If someone comes along and wants to put in an electric light plant or water system, we will encourage it all we can and do all in our power to help them, but we will not run ourselves over head in debt to get these things. When we are able to pay for them it will be a different thing."

Weston Notes.

Weston, April 8.—Spring has struck Weston at last. It came in with a chinook last week, and every one is busy plowing or spading gardens, except the early man, who points proudly to a green patch or two and talks of green peas and lettuce in a week or 10 days.

There is no boom in Weston at present, but a fair amount of business is being done, and, by the way, for a town of 800 people, Weston is as well equipped for doing business as any place of its size anywhere. Its ordinary business houses are on a par with anything in the vicinity, and it has several that are ahead of anything in this neighborhood.

The town is getting ready for the Pioneers' picnic next month, when we shall be prepared to welcome the whole of Umatilla county if they should conclude to come here at that time.

Dr. J. A. Best had a narrow escape from what might have been a serious accident last Saturday. He was returning from a trip to Wild Horse Mountain, when his team bolted and ran through a barbed wire fence. A wire caught the doctor under the chin and scratched him up considerably. His buggy was torn to pieces and only his good luck prevented the doctor from being in the same condition.

Dr. J. A. Beattie and Miss Nellie Stevens, of the normal school, will go to Spokane tomorrow to attend the meeting of the Inland Empire Teachers' Association, that will meet at that place on the 9th inst. Dr. Beattie will give an address before the association on "The Next Step in the Development of the Normal School" and Miss Stevens will address the association on "The Essentials of a Library for Schools."

Sewer and water main connections are being put in the new normal building this week.

Mrs. Sarah Hayes, a former resident of Weston, died in the Old Ladies' Home at Spokane, on the 4th inst. The body was brought to Weston for burial yesterday.

PICKAX STRUCK HIM.

Helix Man, "Dad" Rivers, Has an Accident.

Helix, April 8.
Mr. Rivers, better known as "Dad," while digging in a well for Horace Walker, had a very narrow escape from being killed. A pickaxe placed on a bucket of dirt which was being drawn from the well, struck him just below the knee, making quite a gash. He was removed to Dr. Griswold's office, where the wound was dressed. Mrs. Ben Decker and daughter, Ada, of Palouse City, are visiting relatives here. Mrs. Barger entertained the Degree

of Honor ladies at her home Wednesday.

The Helix band was called to Pendleton on short notice Friday to make music for the Furnish rally.

Mrs. Houghlet, wife of the Baptist minister of this place, has been quite sick, but is reported much better by Dr. Ringo.

The storm on Monday morning did considerable damage to Helix. It blew down several wind mills, tore part of the roof from one of the warehouses, and twisted several buildings out of shape.

The students of the Athena public school gave a very good performance at this place Saturday evening. The proceeds will be used to help buy a library for the school at that place.

Jim Hill forgot to tie his team. Consequence, a moonlight walk of about ten miles.

The Emperor's American Ship.

Although Germany has been making special efforts to establish herself in the front rank as a naval constructor, yet when the emperor wanted a yacht combining the best modern ideas he placed the order in America. It is surely a recognition of American ability and workmanship. Our country also excels all others in medicines. Take Hostetter's Stomach Bitters, for instance. It has been over fifty years since it was first introduced, and its record of cures during that time has placed it in the front rank among medicines. It is recommended by many prominent physicians as an excellent spring tonic and blood purifier; also to cure heartburn, indigestion, dyspepsia, constipation, la grippe and malaria. A trial will convince you of its value.

WILSON'S JUVENILE MINSTRELS.

Two Night Performances and a Matinee at the Frazer Friday and Saturday.

Wilson's Juvenile Minstrels may be recommended as the most notable, beautiful, neatest novelty minstrels in the world, for an evening spent in their company will mightily please the most jaded theater-goer. It is something new, "something new under the sun" has been loudly proclaimed does not exist, and Wilson's wonders may not in all respects attain the coveted goal of absolute novelty, but they approximate it more closely than anything seen in a long time. The newness of life has not worn off their little faces, and their hearts and minds are nearer the surface than they will be in later years, when, should they remain upon the stage, it will be art within art, not artlessness, that brings them applause. Every tiny maid and little man in the company is a full-fledged artist, self possessed, and as thoroughly at home on the boards as a veteran of many artistic triumphs. There is nothing childish in the show, yet given by children, and would do credit to their older contemporaries.

Still Room on Earth.

Yes, said the Western man, there are several patches of land still left out our way that will support a few million people each. There is a little section up in Wyoming, for instance, known as the Big Horn Basin, which has just been opened up by a new line of Burlington railroad. It covers about 50,000 square miles. It is larger than New York state. Three times as large as Denmark. Twice as large as Bavaria. It is covered with beautiful streams, a never failing water supply and the soil is as rich as any in the world. The possibilities for irrigation there are enormous and three big irrigation ditches are built already. Oh, yes, there are a few scraps of real good country left. We won't be crowded off the earth yet a while.

At bedtime itake a pleasant herb drink, the next morning I feel bright and my complexion is better. My doctor says that it acts gently on the stomach, liver and kidneys and is a pleasant laxative. It is made from herbs, and is prepared as easily as tea. It is called Lane's Medicine. Lane's Family Medicine moves the bowels each day. Price 25c and 50c. For sale by Tallman & Co., sole agents.

Smoke Pendleton Boquet Cigars.

Nasal CATARRH

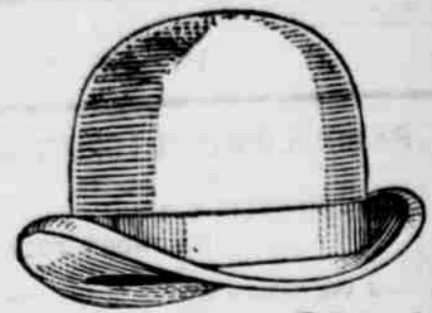

In all its stages there should be cleanliness. Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

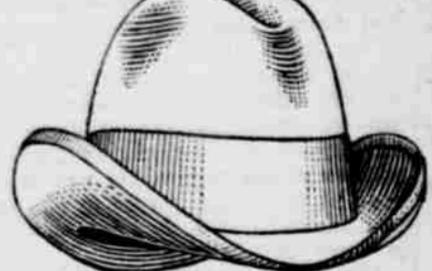

Ely's Cream Balm is passed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents by mail. ELY BROTHERS, 56 Warren Street, New York.
