IRVINGTON TRACK NOTES.

Northwest Horsemen Getting Things Ready for the Coming Meets.

Irvington Park, in Portland, will, in the course of a week or so, be in fine condition and the managers Messrs. Helman and Simpson have tendered the free use of it to the members of the Portland Hunt Club for the exercise of their horses.

Frank Frazier, who drove Chehalls to his record, and George Peringer, owner of Mount Hood, were down from Pendleton last week and spoke encouragingly of the racing outlook throughout the Northwest.

Two 4-year-old trotters by Chehalls and one 2-year-old by Meteor are the property of W. H. Bradford, of La Grande, and he expects a great deal from them.

Chris Simpson has all his 57 horses in training, but he has not held any trials and the records of Alta Norte, Phil N., and Bonner N. B. stand without change.

HAMISCH GIRL WAS BADLY HURT

FIVE-YEAR-OLD GIRL WAS INJURED IN TURN TABLE.

Flesh Was Stripped From the Hip to the Ankle and the Bone Broken From the Knee Down—Second Such Accident in Two Years.

A very distressing accident happened to Ella, the 5-year-old daughter of Mr. and Mrs. W. O. Hamisch, who lives on Webb street, on Monday afternoon. The little girl, with a lot of other children, was playing on the turn table at the O. R. & N. depot and she got her leg caught in the table and crushed from hip to ankle.

There were no eyewitnesses to the accident except the playmates and they were so badly frightened that they were not able to tell much about it. She was picked up and taken to her home, and Dr. W. G. Cole summoned to dress the wound.

The turn table should be kept locked, so that children could not move it, for this is the second accident that has occurred in a similar way within the past two years.

The Foot Amputated. This forenoon Dr. Cole, assisted by Dr. McPaul, removed the little girl's foot, taking it off just below the knee.

Mr. and Mrs. J. H. Robbins left last night for Portland after spending a few days here with Mrs. Robbins' parents, Mr. and Mrs. W. D. Hansford. Mr. Robbins is a delegate from Baker county to the democratic state convention to be held in Portland on the 10th.

D. C. Rader, uncle, of M. A. Rader, the furniture man, is in town on his way back to his home in Indiana, where he goes to sell out his interests and bring his family to this country. He has purchased a ranch near Walla Walla and will devote his time to farming it in the future.

Charles D. Garfield, brother of Dr. H. S. Garfield, of this city, is visiting the latter. He has just come down from Alaska, where he and another brother are interested in mining claims. Mr. Garfield says they have prospects in that country that made such good showing when being developed last fall as to warrant the belief that \$60,000 or more is not an overestimate of what they expect this season. He predicts a great future for the mining interests of Alaska. He will remain here a few days before going back north.

The brood sow should be something approaching the rangy order, says The Drovers' Journal. She needs to be long and broad and yet in every respect well proportioned and, in a way, approaching the blocky form.

The sow should be a good suckler. There are good milking sows and poor milkers. Some will suckle a dozen pigs and make them grow better than another with half as many.

Young Pork. The popularity of young pork with plenty of lean meat on it has proved a boon to the farmers, for it is far more profitable to raise the first 100 pounds of any animal than the last 100 pounds.

Keep the Good Breeders. Keep the good breeders. Farmers make a mistake in fattening a good sow after she has dropped two or three litters.

Attention Log-Rollers. The regular meeting of Pendleton Camp No. 41, Woodmen of the World, is now held on Saturday at 8 p. m., in Secret Society hall. Members please govern themselves accordingly.

HUNDREDS WILL COME TO THE CAMP MEETING.

Adventists Are to Bring Here Host of Worshippers and Build a City of White Tents in the Byers Grove, Beginning May 15.

When the big camp meeting of the Adventists commences here on May 15, there will be a city of white tents in the Byers grove in East Pendleton. Mr. Byers has donated the use of the grounds, and the Commercial Association has decided that everything shall be done to make the affair a success.

To accommodate these people will require from 150 to 200 tents and the commissary department will be as extensive as that of a regiment of the military. Large quantities of provisions will be consumed and there will be considerable of money left in the town.

However, Pendleton will be more concerned for the reputation of the place as a center of Eastern Oregon hospitality than for keeping here a few dollars, and, therefore, the business men propose to exert themselves to make the stay of the worshippers pleasant. Generous attention will be paid to the comfort of the visitors, and a number of merchants, as well as all of the Commercial Association members and officers will see that there is no neglect.

Besides the 150 tents, there will be a big pavilion tent of 70 by 100 feet dimensions, and four other assembly tents in which will be held meetings for the Germans, the young people and the children. These assembly tents will be 30 by 70 feet, each capable of accommodating 200 persons at one sitting.

Here are some of the things that will be needed: Pasture for the horses of the visitors.

Hay and grain for the same. Eight or ten loads of straw. Hardware and 3500 feet of lumber for setting up the tents. Several cords of wood. Stoves, bedding, etc. Provisions, and all that goes to make up the living of those who are living in tents in camp manner.

Bedroom Blinds. If you have a sensitive eye and brain and sleep lightly, it is not at all a good plan to screen your windows with red blinds or curtains. Brain specialists report that a good many cases of weakening of intellect arise from this cause every year, and for some natures and constitutions it is certainly a very bad thing to do.
