STONED TURKEYS TO DEATH.

The Work of Several Boys Who Had Nothing Else to Do.

There are some boys who herd cattle near the Olney cemetery that are going to get themselves in trouble if they do not look out. W. T. Porter, sexton at the cemetery, says that these boys have been killing his turkeys and ducks and that if it is done again he will see that they are dealt with by the law. "They are known and they are old enough to know better," said Mr. Porter Wednesday, "and if I lose any more fowls I shall have them or their parents before the court." Mr. Porter says that he has been missing his ducks and turkeys for some time and could not imagine what became of them. Recently he found several dead in searching around, and found where they had been stoned to death and thrown into the weeds. They were fine blooded turkeys, and when the boys were confronted and accused with the crime they confessed. This is cruel practice, and boys that will do it simply for the purpose of cruelty, wantonly taking the life of the birds, are educating themselves criminally.

New Home for Deaconesses.

New York, April 10.—The new Deaconesses' Home of St. George's Episcopal church was formally opened today by Bishop Potter. The new building is the gift of a parishoner of the church, and is on Sixteenth street, opposite the parish house of the church. The building is of beautiful architectural design, four stories in height, and has been fully equipped with living quarters for the deaconesses, for convalescents.

Notice.

Any person dumping any sort of garbage, manure or dust upon any of the streets of Pendleton, or allowing the same to spill upon any of said streets, while moving it from one place to another, is liable to a fine of \$50, under ordinance No. 338 of said city. All persons violating this ordinance will be vigorously prosecuted.
P. H. FEE,
Street Commissioner.

Woodmen Log-Rolling...

YELLOW KIDS HERE

UP AGAINST THE PENDLETON WONDERS TODAY.

The Pendletons to Make a Tour of Interior and Puget Sound Points in May.

The baseball game between the "Yellow Kids" of Athena and the Pendleton "Wonders" was called too late this afternoon to get any of the results of the game for publication. The Athena players arrived on the afternoon train, accompanied by a large crowd of rooters, and the game was called at 3 o'clock.

The Line-up.

Following is the line-up and batting order of the two teams. The men will go to the bat in rotation as the names appear:

Athena.
G. Brown, short stop.
Willard, third base.
Vaughan, first base.
Shea, catcher.
R. Brown, left field.
Cartano, second base.
Saunders, pitcher.
Chapler, center field.
Lieuallen, right field.

Pendleton.
Brown, catcher.
Ziegler, third base.
Knox, left field.
Cornell, center field.
Barlow, right field.
Clemens, short stop.
Willner, pitcher.
Cornford, second base.
Hartman, first base.
Ulrich, sub.

It will be seen that the above line-up for Pendleton is a little different to the one printed yesterday, as it was thought then that Clemens would not be able to play and he and Cornford were both slated for short stop. Clemens to play if able and Cornford to take his place if he gave out. Clemens is much better this morning and is going into the game to hold down his place. This makes the rest of the boys feel cheerful as Clemens is a good man and Cornford is new, and his ability has yet to be tested by the local players.

To Play Helena.

Negotiations have been entered into with Manager Flannery, of the Helena team, which arrived in Walla Walla Wednesday, to do their early training, to get them here for a couple of games during week after next and possibly one game will be played a week from Saturday.

Pendleton to Travel.

The Pendleton "Indians" are making arrangements to make a week's tour into Washington during May and will probably leave here about the 4th. On their trip they will play at Walla Walla, Dayton, North Yakima, Everett, Seattle, Whatcom, Victoria, Mt. Vernon and other places.

MATLOCK VS. LEASURE.

Title of a Suit Filed at the Court House to Quiet Title.

The title of a suit filed at the court house today is **W. F. Matlock vs. Anna Leasure, W. H. Leasure, Marguerite Leasure and Corine Leasure, minors; John Weidert, Charles Hamilton, T. F. Rourke, Squire Bosworth and Umatilla county.** The cause of action is to collect a part of a note for \$4600 executed by John C. Leasure, deceased, in favor of plaintiff, on the 22d day of May, 1893, due the first day of October, 1893. To secure the note a mortgage was given on lots 1, 2, 3, 4 and 5, block 178, reservation addition to Pendleton, and the north half of section 21, in township 2, north of range 32. In March, 1895, all of this note was paid except \$762.73. Then in May, 1895, the defendants, John C. and Anna Leasure, husband and wife, remortgaged the same lots to J. H. Raley for \$2200. Plaintiff claims that this last mortgage is void and that the claim of Umatilla county, one of the plaintiffs in the action, which holds a claim on the lots by virtue of a tax sale and John Weidert and Charles Hamilton, who have some kind of a claim against the property, the plaintiff knows not the nature of, are all void.

Plaintiff asks that the court give him judgment in the sum of the balance due on the note and that the real estate, which the plaintiff holds a mortgage against, be sold to satisfy this claim, with \$75 attorneys' fees and costs of suit. Carter and Raley are plaintiff's attorneys.

PERSONAL MENTION

D. B. Richardson is in town from Helix.

T. D. Taylor, democratic candidate for sheriff, is in Athena today.

Rev. Mr. W. E. Potwine returned Wednesday evening from Portland.

Mrs. W. C. Dibley, of Walla Walla, is visiting her parents, Mr. and Mrs. D. Kemler.

A. B. Galloway, representing the Blake, McFall Paper Company, of Portland, is registered at Hotel Pendleton.

W. H. Fowler is expected to return this evening from The Dalles, where he went to attend the funeral of Robert Mays, who was a brother-in-law of Mr. Fowler.

Dr. C. J. Smith was called to Umatilla this morning to see William Driscoll, who, it is said, was seriously injured, but the particulars as to how bad or how it happened are not known.

Louis Hunziker left Wednesday evening for Walla Walla to visit Mrs. Hunziker. She is able to leave the hospital and will be removed to the home of her sister today, but will not be brought home for some time to come.

The little girl of Mr. and Mrs. W. O. Hamisch, who got her leg crushed so badly that it had to be removed just below the knee, is said to be getting along as well as could be expected, but she is still in a precarious condition.

Forecast Official Beals, of the weather bureau in Portland, is spending about 10 days in this county posting himself as to weather conditions hereabouts and informing himself as to the crops. He is in the east end of the county at present.

T. S. Dickson departed Wednesday with pack horses for the Thunder mountain mining district. Mr. Dixon expects to see what there is in that country before he returns as he is an old miner and has participated in several rushes to new mining districts. He was one of the first to lead the rush into the Black Hills mining district.

Portland Telegram: James B. Welch, who has been managing the Frazer theater, at Pendleton, Or., since last July, for George L. Baker, of this city, is in Portland visiting friends. It will be pleasing news to Mr. Welch's acquaintances to know that he is to become associated with Mr. Baker in a partnership way at Pendleton, and that plans are under contemplation for greatly improving the Frazer house. Among other things, new curtains and scenery will be added.

NORTHERN PACIFIC BEHIND IT.

Will Irrigate Many Thousands of Acres of Land in Yakima County.

Tacoma, April 10.—President Meland and Vice-President Lamont, of the Northern Pacific Railway, were elected president and vice-president, respectively, of the Northern Pacific Irrigation Company, incorporated here today, to complete and operate 40 miles of irrigation canals in Yakima county. The railway land department of the Northern Pacific undertakes irrigation on a large scale as a means of promoting general traffic.

Rubber Goods Co.'s Affairs.

New York, April 10.—A contest is on in the Rubber Goods Manufacturing Company, the rival of the United States Rubber Company, organized by Charles R. Flint. The stockholders are divided into two factions over the business policy of the concern, and both sides have been busy trying to obtain proxies for the annual meeting, which takes place at Jersey City today when certain proposed amendments to the by-laws are to be made to change the organization of the company so that the stockholders may have a more direct voice in its management instead of leaving the control vested entirely in the board of directors. The Rubber Goods Manufacturing Company makes all kinds of rubber goods excepting boots and shoes. There is \$8,000,000 and \$17,000,000 common stock outstanding.

Great Teachers' Meeting.

Spencer, Ia., April 10.—Nearly 1000 teachers, representing every town, village and hamlet in this section of the state, are attending the annual meeting of the Northwest Iowa Teachers' association, which began a three days' session here today. The large attendance and the excellence of the program give promise of the most successful convention ever held by the association. Prominent among those to present papers or addresses are Governor Cummins, Henry Houck of Pennsylvania, Superintendent H. E. Kratz, of Sioux City, and R. C. Barrett, state superintendent of public instruction of Iowa.

True.

The occasional ad is one of the very best methods by which to squander money. Continuous advertising, on the other hand, will bring ample returns for the money invested.—Suggestions.

The East Oregonian is Eastern Oregon's representative paper. It leads, and the people appreciate it and show it by their liberal patronage. It is the advertising medium of this section.

TRIUMPHS OF SCIENCE.

Sensitiveness of the Implements of the Modern Laboratory.

The eye and the ear have long been regarded as marvels of mechanism, quite the most wonderful things in the world. But compared with the implements of a present day laboratory the sensitiveness of all human organs seems gross enough. A photographic plate, coupled with a telescope, will reveal the presence of millions of stars whose light does not affect the retina in the least. The microscope, too, with its revelations of the world of the infinitely small, tells us how crude, after all, is this most delicate of the senses. Indeed, we may liken it to a piano where only a single octave, toward the middle, sounds. From the ultra violet to the lowest reaches of the spectrum is a range of some nine octaves of light vibrations, of which, save for our new mechanical senses, we should never have been conscious of but one.

The ear hears little of what is going on around us. By means of a microphone the tread of a fly sounds like the tramp of cavalry. Our heat sense is very vague. We need a variation of at least one-fifth of a degree on a thermometer to realize any difference in temperature. Professor Langley's little bolometer will note the difference of a millionth of a degree. It is two hundred thousand times as sensitive as our skin.—Carl Snyder in Harper's Magazine.

The Welsh Note.

How many of our readers know what the "Welsh note" was? Here is what the Rev. John Evans tells us in reference to the way in which English was taught in Wales in the middle of the last century: "This school had several features unknown in the Welsh school of today. The Welsh note was one indispensable feature. This secured English conversation. It was a smooth piece of wood, like a flat inch rule, with the letters 'W. N.' carved on it. When any one was caught speaking Welsh, the Welsh note was immediately handed to him, but the hand which held it at the end of the lesson was the one made to tingle in consequence, so it was a common occurrence for the child who had it to move about from pew to pew, craftily tempting others to speak Welsh. This sign of guilt, therefore, often changed hands, until at last it rested in that which had to bear the burden of all the transgressions of that law."

Amplly Qualified.

"I see," said the young woman who had called to apply for a position, "you want a girl in your grocery department. I think I'd like the place."
"Have you had any experience in that line?" asked the manager of the department store.
"Yes, sir," she replied. "I can write 'one pound granulated sugar' with three scratches and a flourish."
She got the place.—Chicago Tribune.

SUNDAY SCHOOL MATTERS.

Florida State Sunday Schools Convention.

Gainesville, Fla., April 10.—Again the host of delegates and visitors to the state Sunday School convention began their proceedings this morning with an enthusiastic song service led by Prof. E. O. Excell. The first paper on the program was by C. E. Howard of Orlando, who took as his subject, "The Mission Work in Sunday Schools." Rev. P. J. Reeves, of Spring Park, presented a paper treating on the subject as to how to make the rural school perennial. This was followed by an interesting discussion led by H. C. Parker of Lacrosse. Charles D. Meigs spoke of the home department and Marion Lawrence closed the morning session with an interesting talk on "Sunday School Work and Decision Day." The speakers of the afternoon session included Mrs. H. Lang Phifer of Gainesville, Rev. R. R. Kendall and Marion Lawrence. A rousing rally this evening will close the convention, which has been one of the most successful of its kind ever held in Florida.

Manila, April 10.—General Chaffee

Manila, April 10.—General Chaffee leaves today on a tour of inspection in the island of Samar. He will visit every port on the island, and will witness the surrender next Tuesday of the insurgent general Guevarra. After this surrender the American garrisons in Samar will be greatly reduced.
