The rise in the price of meat in England is attributed more to the prohibition of Canadian and Argentine cattle than to the operations of the American beef combination. During the first quarter of this year more than 8000 fewer cattle were imported through Liverpool than in the corresponding period of 1901, and the South American dead meat trade has failed to compensate for this shortage.

## WOODMEN OF THE WORLD

INCORPORATION OF TEMPLE OF WOODCRAFT ASSOCIATION.

Special Edition of the "Pacific Echo" Widely Circulated—The Great Log-Rolling, April 21-22—Head Consul Falkenburg Expected.

The incorporators of the Temple of Woodcraft Association have called a meeting of stockholders to be held in the camp hall, April 28, at 2 p. m. Accompanying the call is a detailed statement of the incorporation of the association and a carefully and conservative estimate of the probable earnings of the capital stock of \$25,000. It is clearly pointed out that 10 per cent clear can be reasonably expected on this stock. The opportunity to subscribe for Temple Association stock, will be given members of the local camp and circle first. Should any remain, which is very doubtful, then non-members may have an opportunity of securing some of these gilt-edged goods. That the stock will be quickly snapped up is proven by the requests already made. With the announcement that the movement was under way, and before the arrival of the incorporation papers, nearly \$5,000 worth had been solicited. Several business men, who are not members of the order, but, realize a good thing when they see it, have made requests for an opportunity to subscribe.

#### A Splendid Advertisement.

A special edition of the Pacific Echo, the official organ of the Women of Woodcraft, has been issued on account of the April 21-22 log-rolling. It is a splendid paper. It is profusely illustrated, and is bound to cause widespread interest in the great movement. Ten thousand copies were printed.

Among other good features which it contains is a write-up of Umatilla county, as the banner wheat section of the world. Pendleton, as the headquarters of the great log-rolling, naturally comes in for prominent mention all through the paper, thus making it a strong advertisement for this city and vicinity. A copy of this paper was mailed to each newspaper printed in Oregon, Washington and Idaho; a copy to every member of the Woodmen of the World and Women of Woodcraft in Eastern Oregon, and Eastern Washington, a copy to every Woodmen paper printed in the United States and Canada, and a copy to every lodge of each order. Pendleton and eastern Oregon will thus be advertised by reason of this great log-rolling, as it has never been before.

#### Mr. Rogers Returns.

George K. Rogers, chief organizer of the Woodmen, returned from Portland yesterday, whither he went to consult with railroad officials with reference to special rates. He stated that reduced rates would apply over all railway lines, and that announcement of same would be made in a very few days. A special train from Dayton, or Pomeroy, to accommodate the crowds attending from Washington points, was now practically assured. Mr. Rogers stopped over at The Dalles, where great interest is being displayed. A large attendance from that city is expected.

#### Head Consul Expected.

It is now almost a certainty that the head consul from Denver will be present. Mr. Falkenburg is lionized by the membership, and the mere statement of his coming will attract greater attendance than any other event or combination of events that could be announced. The entire board of grand managers, some of whom are from Colorado, the grand clerk of Leadville, Col., the grand physician, of Eugene, and the grand banker, from Portland, will all be present.

#### Pendleton Plans.

Locally, everything that can possibly be done is being carried out. The Furnish warehouse is being renovated for the occasion. Raised seats will be extended around its sides and provision made for seating about 3000 at a time. The entertainment committee is working very hard in the matter of making provision for visitors; the uniform ranks of the local

camp and circle are each working like Trojans in perfecting themselves in a manner which will reflect credit on their respective lodges and themselves. They are going to prove an immense surprise to everybody, and Pendleton can well be proud of such excellently drilled bodies. The uniform ranks of Athena camp and circle are considered, from reports received, as being most formidable competitors. Like the ball team from Athena, they are away up in "G." and will take the laurels back to their town, if such a thing is possible.

#### Committee Meeting Tonight.

There will be a meeting of the general committee tonight in the offices of Stillman & Pierce. It is very important that there be a full attendance and reports of all sub-committees. The committee from the Commercial Club will also be in attendance, ready and willing to help in every manner which will be possible for that body to do.
