TUESDAY, APRIL 15, 1902.

### BREVITIES.

James A. Howard, farm loans.  
A new line of chic bodied hats at Mrs. Rose Campbell's.  
Schlitz's bock beer, the best of the season, at Nolte's saloon.  
Lee Teutsch, successor to Cleaver Bros. Dry Goods Company.  
Lee Teutsch has just received a shipment of the celebrated Thompson glove-fitting corsets.

Hawley Bros., up-to-date grocermen, have only complete line of Heinz's fancy goods in the city.

The Jolly Club will give the next of their series of dances in the Music hall Friday evening of this week.

"Longing as only a child can long," is mildly expressing that desire of old and young for Dutton's choice home-made chocolate cream candy. It's pure and wholesome.

The Schultz Brewing Company, who make the popular Pilsner beer, has added a new counter-pressure apparatus to their brewing equipment, which will add to the quality of its product, for which there is a demand equal to the supply.

A large crowd attended the dance last night at Musoc hall, given by Daphne Circle No. 2. Women of Woodcraft, and the affair was a grand success, both financially and socially. Kirkman's orchestra furnished the music.

Preparations are being made at Salem to give W. J. Furnish, republican candidate for governor a cordial reception when he visits that city, as he will do within the next few days. The following committee will receive Mr. Furnish when he arrives: J. H. McNary, C. A. Murphy, J. D. Lee, Dr. J. N. Smith and W. J. Culver.

Portland Oregonian: Two pets of Portland were tried on Irvington track Friday. Alta Norte, with Cris Simpson in the sulky, paced around in something like a stake gate, and she did not hesitate to try conclusions with an unknown trotter. The uneven step of the pair attracted some spectators to the track, and there was as much talk about the winner as there would have been had the horses been in the same class.

Mr. Lathrop's New Job.  
John E. Lathrop, for a number of years with the Pendleton East Oregonian, has been appointed press agent of the democratic state central committee. Mr. Lathrop will formulate all the campaign documents and will ward off the reporters who make the life of Captain Sam White a burden, when they are in quest of inside information. So reports the Portland Journal. Mr. Lathrop left Pendleton with entirely different intentions. He appears to be as susceptible to the wiles of Madame Democracy as to the other members of the gentle sex. The "soft words" spoken to him in Portland were too much, and so he has entered the harness as a campaign worker.

Rooms in the East Oregonian building for rent. Steam heated, hot and cold water and bath room in connection.

Save Your \$\$\$

and buy your watches from me. I want your trade and am going to have it if prices and quality will have anything to do with your purchase. On Monday, Tuesday and Wednesday I will sell you a Deuber Hampden 17 Jeweled watch in nickel case for only

### THREE JAPS ARRESTED.

Charged With Killing Song Birds by the Game Warden.

Three Japs were brought in from Meacham Monday evening with a charge of killing song birds, which was lodged against them by Deputy Game Warden T. B. Wells.

All last summer the Japs, who are employed by the O. R. & N. railroad company, gave the fish and game association more or less trouble and several efforts were made to hold them for destroying song birds, but in every instance these wily Orientals were able to thwart the officers and no convicting proof could be obtained against them. This spring the complaints again began to pour in to the effect that the Japs were killing robins and meadow larks, and it was also thought some time ago, that they were killing bobwhite quail in several places along the O. R. & N. line in Umatilla county, but no evidence of this fact could be obtained, although men were placed along the line at several places where men were stationed, to watch them. They apparently found out that they were being watched and stopped their war upon quail, but they have continued to kill song birds and it is to be hoped now that their arrest will abate this bad practice.

The Fish and Game Association are determined to stop the killing of song birds, if it is possible, and whenever any evidence can be obtained against a man in the future he will be vigorously prosecuted, no matter who he is. These Japs, employed by the railroad company, are the hardest people the game warden has to deal with, as they are so hard to identify. When a gang of them are at work along the line and Sunday comes, or anything happens that they are not at work, they take their guns and go out hunting, killing everything that they can, whether it be a song bird or not.

The Japs' preliminary examination was to have been before Justice Fitz Gerald this forenoon, but was postponed to 2 o'clock, in order that the prisoners might communicate with an interpreter at Portland.

### POISONER AT WORK.

"Tennessee Dick," H. J. Stillman's Valuable Dog, a Victim.

If you have a valuable dog, look out for the dog poisoner for this despicable being, in human form, is abroad in Pendleton.

The first victim of this fiend was "Tennessee Dick," belonging to H. J. Stillman. When Mr. Stillman arose this morning he was shocked to see his faithful and valuable dog lying stiff and cold in death on the walk in the yard.

Although "Tennessee Dick" was getting old, being about 8 years of age, he was classed as the best pointer and hunting dog in Pendleton. Mr. Stillman would not have parted with him for any price.

This is not the first time this thing has been done in Pendleton, as in every other place on the globe. Every so often some one who is lower down than the lowest one can imagine, starts out with the hellish purpose of destroying some harmless canine, and he usually finds the most valuable ones in the community. A year or two ago several dogs were poisoned here, and a purse of \$50 was made up as a reward for information leading to the arrest and conviction of the guilty. This did not reach the poisoner and he has again started his devilish work. Mr. Stillman says that a purse of \$100 will be offered this time, and if the man is caught he will be dealt with to the full extent of the law. There is a heavy penalty attached to scattering poison promiscuously beside an equally heavy one for causing the death of any animal.

### CUT WITH AN AXE.

Emery Baltezare Inflicts Dreadful Injury Upon Himself.

Emery Baltezare, living almost 20 miles southeast of Pendleton, had the misfortune to receive a wound Monday that was very serious and may prove fatal. Mr. Baltezare is 76 years of age and was making fencepickets. He struck a piece of timber and the axe glanced, striking the great toe of the left foot and laid it wide open from end to end up into the foot. He was alone and walked 200 yards to the house after the injury, and then a messenger was dispatched for a physician. Dr. House went out and found Mr. Baltezare in a very critical condition from the loss of blood, as it had been eight hours from the time of the cut until the doctor arrived. The wound was dressed and the old gentleman made as comfortable as possible last night and this morning the doctor placed him in a rig and brought him to the Sisters' hospital in Pendleton. Then it was found necessary to remove the toe entirely, and a part of the foot. This was done, but owing to his extreme age, and the profuse hemorrhage before medical aid arrived, his case is regarded as dangerous.

E. E. Baltezare, of Pendleton, is a son of the injured man.

### All Elks Take Notice.

The social session will take place at Music Hall Thursday, April 17th. Dancing 8:30 to 12. By order of committee.

### PREPARE FOR CROWD.

The Woodmen of the World Assembly Here Next Monday and Tuesday.

Next Monday and Tuesday are the dates for the big Woodmen of the World and Women of Woodcraft logging, and hundreds of visitors are expected here from all parts of the country. All these visitors from adjoining towns will come here expecting to see the town in holiday attire and everything in "apple pie" order. What are the business men going to do to make this event one that will long be remembered by the visitors as a gala day in their career? It is time that the business men were thinking of decorations. All the business houses are expected to be especially decorated for the occasion and there are only a few days in which to do this work. This work should not be left until the last minute before it is commenced. If it is, many things will be left undone that should be looked after. During this log-rolling many will make their first visit to Pendleton and the impression left on their minds will be lasting and it behooves every business man to see that this impression is a good one. There is only a few days to act and delay in action will mean disappointment. The property owners, it is suggested, should take some interest in preparing for the event as well as the business men. A better and bigger Pendleton means more rent to property owners, some of whom seem to think that it is not necessary for them to do anything.

### Discovery of Oil.

When the news is heralded throughout the country that oil has been found in a certain place, thousands of persons rush there with the hope of being among the lucky few who are fortunate enough to strike a paying well. In their haste health is neglected until they are completely broken down, and then what avail is wealth when their health is gone. Protect your health with Hostetter's Stomach Bitters and you will always have true wealth. There is no medicine in the world so good as a tonic for the run down system, or to cure headache, belching, indigestion, dyspepsia, liver complaints, grippe or malaria, fever and ague. Don't fail to try it, but insist on having the genuine. It will do you good.

### Colonel Boyd a Sport.

Colonel Boyd, editor of the Athena Press, was in the city Saturday and Sunday in attendance upon the baseball games between the Yellow Kids and the local and Whitman teams, says the Walla Walla Statesman. The colonel is a thoroughbred sport when it comes to baseball matters and has been known to go without a meal to indulge in his favorite pastime. Notwithstanding his fondness for baseball, he never lets it interfere with business, as is evidenced by the prosperous appearance of his paper. He returned this morning with the Athena team, after remarking that he hoped he would have the pleasure of being present at the next game of ball between the local team and the Yellow Kids.

### No Light for Baker.

At a meeting of the chamber of commerce at Baker City the committee appointed to investigate the matters of electric lighting of the streets, sewerage system, etc., made its report. The salient features of the report was that last year there was available in the city treasury \$4.02 for lighting purposes after payment of the other fixed charges. There will be no money available for lighting purposes this year, because the new tax will not come into the treasury before next March. To avoid darkness in 1902 other steps must be taken.
