Neglect Means Danger. Don't neglect biliousness and constipation. Your health will suffer permanently if you do. DeWitt's Little Early Risers cure such cases. M. E. Smith, Butternut, Mich., says "DeWitt's Little Early Risers are the most satisfactory pills I ever took. Never gripe or cause nausea." Tallman & Co. and Brock & McCosma.

Honor Memory of Beaconsfield.

London, April 19.—Primrose day, the anniversary of the death of Lord Beaconsfield, who died April 19, 1881, was observed throughout the country today with customary zeal. About two-thirds of the people to be seen in the streets of London wore primroses in their buttonholes. The flowers were thick everywhere, and the shields, crowns and other tokens from clubs and unionist organizations were scattered in profusion around its base attracting thousands of spectators. Numerous wreaths were placed also about the grave of the statesman in Hughenden church yard. This evening several notable banquets were held in various parts of the country in observance of the anniversary.

Discovery of Oil.

When the news is heralded throughout the country that oil has been found in a certain place, thousands of persons rush there with the hope of being among the lucky few who are fortunate enough to strike a paying well. In their haste health is neglected until they are completely broken down, and then what avail is wealth when their health is gone. Protect your health with Hostetter's Stomach Bitters and you will always have true wealth. There is no medicine in the world so good as a tonic for the run down system, or to cure headache, belching, indigestion, dyspepsia, liver complaints, la grippe or malaria, fever and ague. Don't fail to try it, but insist on having the genuine. It will do you good.

SHOE TRADE DEPRESSED.

American Competition in Shoe Trade About Done Up English.

London, April 19.—Quite a public controversy has arisen from the declarations made by George A. Royce, president of the Federation of Boot and Shoe Manufacturers, to the effect that American competition has little to do with the present depression in the English shoe trade. The Daily Mail takes issue with the statements of Mr. Royce, and in speaking of the situation, says: "How far American competition is responsible for the present situation each must judge for himself. These facts are undisputed. Our exports of shoes are smaller now than during the corresponding time last year. American exports to colonies which were once supplied from England have greatly increased. Our home demand for British-made shoes has declined. The sale of American shoes in this country is steadily and largely increasing. The official figures leave no room for dispute on these points. Is it not time, then, for British shoe manufacturers to abandon the ostrich-like policy which they have up to now favored and face the facts?"

Strike in Portland.

Portland, April 19.—A strike of the leather workers in this city has been ordered, because of the discharge of union men by employes.
