BROKE HIS ARM.

Thrown By a Bucking Horse Which Had Been Recommended to Him as Gentle.

Tom Ayers, proprietor of the City Livery stables, is laid up with both arms rendered useless, the result of being thrown from a horse Monday afternoon. Two weeks ago, Mr. Ayers purchased a horse for the stable and it was represented to him as being perfectly gentle and well broken, both to the saddle and for driving. The animal proved all right for driving and Monday, Mr. Ayers concluded to try him under the saddle. He had scarcely mounted the animal in front of his barn, on Alta street, when it began bucking and the rider was thrown over the animal's head, alighting on his hands in such a manner that one bone was fractured in the right forearm and the left one was badly jammed and stove up. No bones were broken in this arm but it was so badly sprained that Mr. Ayres is compelled to keep them both in slings and will be unable to perform any work for some time.

HEREFORDS HERE

TEN CARS OF BEAUTIFUL THROUGHBREDS ARRIVE.

Sent Out to Oregon by the American Hereford Cattle Breeders Association: Here Today and Tomorrow.

Ten cars of Hereford cattle arrived at the O. R. & N. depot Tuesday afternoon and were unloaded and placed in the feed yards, where a large crowd of curious, as well as interested people are viewing them today.

These ten cars contained 125 of undoubtedly the finest Hereford bulls that ever were brought to the Pacific coast. The cattle were sent out by the American Hereford Cattle Breeders' Association and are in the charge of C. R. Thomas, secretary of the association, who is the auctioneer for them. The object of the visit to this coast with them is to raise the standard of breeding cattle in this country and they are from the best known herds of these high-class cattle in the Middle states. Each of the animals is registered and their pedigree will be given each intending purchaser and if they are not as represented, the association will make good all defects.

These cattle will remain here tomorrow and from here will go to Heppner. This afternoon they are being auctioned off to the highest bidder for cash, but up to the time of going to press few sales had been made. They will also be offered again tomorrow.

RIVER AND HARBOR BILL.

Will Supply a Large Fund for Columbia River Improvements.

Without a word of discussion of the merits of the measure, the senate on Monday passed the river and harbor bill, carrying appropriations of about \$70,000,000. So thoroughly had this bill been considered by the commerce committee that every senator was content that it should pass as reported from that committee. All the amendments of the committee were agreed to in the course of reading the measure. Mitchell, of Oregon, read a statement of proposed improvement of the Columbia river between The Dalles and Celilo, reviewing the work already done, looking to that improvement. He said that no more important proposition was involved in the bill than that relating to this improvement.

The principal Oregon items in the senate river and harbor bill are as follows:

Mouth of Columbia	500,000
Continuing contracts	1,000,000
Portland to the sea	225,000
Dalles-Celilo project	614,000
Upper Columbia and Snake	40,250
Columbia at Cascades	30,000
Willamette above Portland	68,000
Columbia, Vancouver to	
Willamette	10,000

KINDERGARTEN UNION.

Men and Women to the Number of a 1000 Gather in Boston.

Boston, Mass., April 23.—The ninth annual convention of the International Kindergarten Union was opened in the Arlington Street church today with an attendance of more than 1000 delegates and visitors from all parts of the United States and Canada. Mrs. Alice H. Putnam of Chicago occupied the chair, Miss Laura Fisher, of Boston, Edwin B. Seaver, superintendent of the public schools, who welcomed the delegates and members to Boston. Roll call, greetings from delegates, and reports of the secretary and treasurer followed. The reports showed that the organization has steadily increased its membership until the total now reaches the 7000 mark. An invitation from the Pittsburg association to hold the convention of 1903 in that city was received and it is probable that the same will be accepted. Greetings were received from all parts of America and from Germany and several other countries of Europe.

This afternoon a reception was given at Radcliffe college in honor of the visitors. President Eliot of Harvard university, President Pritchett of the School of Technology, and Miss Susan E. Blow are the speakers to be heard at the open session to be held this evening.
