KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once become infected with the dandruff germs, the particles would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substances.

CLEAR, CRYSTAL ICE.

The Artificial Article in the Ice Line Better Than the Natural Product.

The following is an extract from a scientific article on the subject of impure ice.

"There is a popular, though mistaken belief that while in the act of crystallizing, water rids itself of all its injurious qualities, however offensive it may be in its liquid state.

"Unfortunately, there is enough truth in the current idea of the elimination of noxious and foreign matter during the process of freezing to give color to the popular belief, but not enough to make it a safe reliance.

"Experiment has shown freezing produces little change or effect in overcoming the poisonous influences and ice has often served as a vehicle to convey the germs of typhoid and other low forms of fever.

"Pure ice can be produced only from water free from impurities, and ice for domestic or surgical purposes should never be collected from ponds or streams that contain animal or vegetable refuse, or stagnant and muddy material."

There is no possibility of you getting ice containing any of the above bad qualities if you buy your ice from Van Orsdall & Ross as our ARTIFICIAL ICE is made from PURE DISTILLED WATER.

We are not stocked up with a big supply of INFERIOR ICE which we MUST GET RID OF. We handle a first-class article, and recommend it on its merits.

Our prices are as low as they can consistently be and give our patrons a pure article.

We are not in the ice business for our health, neither do we ENDANGER THE HEALTH of those who patronize us.

The Great Dismal Swamp.

Of Virginia is a breeding ground of Malaria germs. So is low, wet or marshy ground everywhere. These germs cause, weakness, chills and fever, aches in the bones and muscles, and may induce dangerous maladies. But Electric Bitters never fail to destroy them and cure malarial troubles. They will surely prevent typhoid. We tried many remedies for Malarial and Stomach and Liver troubles," writes John Charleston, of Byesville, O., "but never found anything as good as Electric Bitters." Try them. Only 50c, Tallman & Co. guarantee satisfaction.

\$112,500 for a Prescription.

The largest sum ever paid for a prescription changed hands in San Francisco August 30, 1901. The transfer involved in coin and stock \$112,500 and was paid by a party of business men for a specific for Bright's Disease and Diabetes, hitherto incurable diseases.

They commenced the careful investigation of the specific November 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physicians for judges. Up to August 27, eighty-seven per cent of the test cases were either well or progressing favorably.

There being but thirteen per cent of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address JOHN J. FULTON COMPANY, 420 Montgomery St., San Francisco, Cal.
