WOOL SEASON OPEN

SCOURING MILLS ALREADY
HAVE RECEIVED 700,000 LBS.

The Mills Will Start the Season's Run
About May 5th, After Being Closed
Only Two Months.

Wool is now beginning to pour into the different warehouses. The Pendleton Wool Packing & Scouring Company's warehouses now have 125,000 pounds of this year's clip already stored for the season's run and 700,000 pounds more is expected every day from the Heppner country. The wool came from different places over the country and quite a little came from North Yakima and other parts of Washington. In addition to that stored at the woolen mill, all of Charles Cunningham's clip is being stored in the Furnish warehouse. Quite a little of this clip has already been hauled; but the larger part is still to come. When this is all in Mr. Cunningham says that he will have from 175,000 to 200,000 pounds of wool from this year's clip. This will come from the 19,000 head of sheep that he now has on his ranch. The scouring mill will start up again the 5th of next month for the season after being closed down for only two months. This is the shortest season that the scouring mill has had since its establishment and the management anticipate another long and profitable run for the season of 1902 and 1903. The woolen mill was only closed down for a few weeks and it is now running on full time and has been for some time.

Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., New York.
