EIGHTIETH BIRTHDAY.

Archbishop Williams, of Massachusetts, Reaches that Age.

Boston, Mass., April 26.—Presents and congratulatory messages began to pour in upon Archbishop Williams today in commemoration of his eightieth birthday, which will be celebrated tomorrow. The priests of the archdiocese have planned to make the occasion a notable one in the history of the diocese.

Archbishop Williams was born in this city April 27, 1822. He began his education at a private school. Later he went to the Sulpician college at Montreal, and in 1841 was sent to the theological seminary conducted by the same fathers in Paris, where he was ordained in 1845. On his return home he was assigned to the Franklin street cathedral in this city as assistant, and after wards as rector. A few years later he was appointed vicar-general of the diocese by Bishop Fitzpatrick, whom he succeeded as bishop of the diocese in 1866. In 1875 Boston was raised to an archbishopric, and on May 3 the pallium was conferred on Archbishop Williams. In all the long course of years that he has lived as a priest, bishop and archbishop in Boston, the same zeal and devotion to duty have characterized Archbishop Williams, and it was said or many years that his was one of the best dioceses in the country, and that with the church authorities at Rome no bishop in the country had a higher standing. By the priests of his diocese Archbishop Williams is revered as a father, loved for his personal qualities, and respected for his thoughtfulness of them and those in their care. It has been the proud boast of the priests of the diocese that there has never been any trouble between bishop and clergy.

An Unsinkable Ship.

Experiments are being made on a new apparatus for use in case of collision on the ocean. By turning a small wheel in the pilot house, twenty airtight doors are instantly closed, and these compartments are more than enough to keep any vessel afloat. If it is a success it will make ocean travel as free from danger as Hostetter's Stomach Bitters does the road through life. It is a splendid tonic free from all injurious narcotics, and one that the most delicate system can retain. In the spring when the weather is variable, it is very beneficial as it protects the system from sudden colds and la grippe. Don't fail to try it. It also cures indigestion and dyspepsia, insomnia, headache, nervousness and biliousness.

J. J. Henry, the new owner of the gas and electric companies in Baker City, offered to light the streets of the city for one year and the city council refused to accept his proposition, so the streets of Baker are to remain unlighted at night.
