

PENDLETON, UMATILLA COUNTY, OREGON, SATURDAY, MAY 3, 1902.

NO. 4425

ALLS OF CONGRESS

Next Week Will Take Admission of Arizona, New Mexico, Oklahoma.

REPUBLICANS OPPOSE AD-MISSION OF TERRITORIES.

All of Next Week Will Be Engaged on the Philippines Major Gardiner's Charges—Evans Appointed Consul-General to London.

Washington, May 3.—Next week is a busy one in the house, if the program, as mapped out by the speaker, is carried out. One of the measures to be considered is the admitting of New Mexico, Arizona and Oklahoma to statehood. There is much opposition to this bill from the republican side of the house, because they fear that two of these territories will be admitted to statehood and democrats to the senate. It is expected that the bill will pass the house quietly, but effectively. An important measure to come up is the one providing for the coinage of silver dollars from bullion set for coinage of silver dollars or silver dollars themselves. The republican side declare that under this measure the coinage of silver dollars will be absolutely and promise to fight against it for that reason.

Philippines will occupy the time all of next week.

Major Gardiner's Charges.

Resolution, insisting upon the immediate appearance before the committee of the Philippines, of Major Gardiner, civil governor of the Philippines, was laid before the senate this morning. In speaking upon the resolution, the committee in deciding to call Gardiner, Lodge read a report from General Chaffee setting out the charges; that Gardiner had violated the charges of inhumanity on the part of American soldiers and had made further charges of persecution. General Chaffee stated that the widest investigation of Gardiner's charges would be made. Under these circumstances the committee deemed it unwise to call Gardiner home at this time.

Water Cure Horrors.

Into the infliction of the "water cure" on the Philippines was this morning by the senate. Sixty-six Sergeant L. E. Dalton of the Twenty-sixth Infantry, the first witness. He said he had seen the water cure administered to a number of natives suspected of harboring American soldiers. The administration of the cure consisted of the soldiers had been treated over a slow fire and hood. The witness said he had seen blood come from the mouths of the victims of the cure. The witness said he had known of dozens of villages being burned. He said that at any time information desired in the Philippines the water cure was resorted to.

Nominations Sent to Senate.

Following nominations were sent to the senate today: H. Clay to be consul-general to London; D. D. Dorey, to be receiver of the public moneys, at Waterville, Me.; and J. M. Waller, to be consul-general to San Domingo.

Major Waller's Case.

Major Waller's case received by mail this morning the full reports of the military court-martial. It seems according to these reports, that the defense not only on orders from General Smith, but also the allegation that the natives had been given a trial by the natives.

today from Pekin: "There are serious disturbances in the southern portion of Pechili. The imperial troops sent thither were worsted. The viceroy, however, sent a force, deemed sufficient to suppress the disorder."

AMERICANS AGAINST MOROS FIGHTING IN MINDANAO REPORTED AT WASHINGTON.

Lieutenant Henry Wagner Seriously Wounded—Two Other Officers Slightly, and Twenty Enlisted Men Wounded.

Manila, May 3.—General Davis, in command of American forces in Mindanao, reports that fighting with the Moros began this morning, the American outposts being fired upon after the messenger, who has not returned, had been sent to the Moro camp with the American ultimatum. The troops shelled the Moro fort and later captured it. It was strong and well defended by about 300 men. Fort Pando Pando was next attacked and heavy firing was going on when the dispatch was sent. Lieutenant Henry Wagner, of the Fourteenth Infantry, was seriously wounded. Two other officers were slightly wounded and twenty enlisted men wounded.

No Surprise in Washington.

Washington, May 3.—No surprise is expressed at the war department over the fighting at Mindanao. It is stated that such news had been expected. The belief had been prevalent that General Chaffee would have to thrash the Moros before quiet could be restored in that island.

Good Fight Expected at Louisville.

Louisville, Ky., May 3.—Not since the memorable McGovern-Sullivan fight has the interest of the ring followers been aroused to such a pitch as by the contest between "Kid" Carter and Marvin Hart, which comes off tonight before the Southern Athletic Club. Louisville has been the scene of all of Hart's successes and he is naturally a favorite with the local sporting fraternity. The Brooklyn fighter, however, is recognized as a hard hitter and it is generally admitted that he will give Hart a furious battle. The contest between the two takes the place of the match between Jack O'Brien and Tommy Ryan, which was declared off.

STORY BY COL. DONAN.

A Big Stranger Found out he Could Act a Dog's Part.

Colonel P. Donan was standing the other evening in a contemplative mood before a certain show window in Portland, says the Journal. Across his mind there flitted the recollections of other days. As he stood there a Chinaman, attired in the wadded blouse of his country, with sleeves that would prove valuable to a gambler or a prestigitateur, silently came up and stood by his side. He was attracted by the gaudy display in the window. He, too, fell into a pensive mood. Perhaps he was thinking of his almond-eyed sweetheart, in far off Canton, or possibly in Hong Kong, where they did not play ping-pong. Neither spoke. In the gathering shadows of the night each stood and kept his thoughts to himself.

Suddenly a large man—a stranger—joined the two. He sidled up behind the Chinaman, quite unknown to the latter. Bending low, he grabbed the Celestial by the legs in his powerful hands, just below where the funny silk trousers were bound closely to the limb and began barking like a dog. Of course Wun Lung, or whatever his name is, started in affright. He had an uncomfortable brace of ten minutes. The big stranger laughed most immoderately. As soon as he could control himself, he turned to Colonel Donan with the remark: "Did you know that a Chinaman is always afraid of a dog?"

The tall southerner with a sarcastic curl of his lip, merely replied: "I never did, sir, until the present instance."

The man stopped grinning, and as the full force of Colonel Donan's remark finally dawned upon his mind, he slunk away.

Colonel Donan was considerably surprised this morning when a stranger came running up to him and greeted him as "Governor Moody." He has hardly gotten over it yet, either.

President Schaffer, of the Amalgamated Association of Iron, Steel and Tin Workers, was re-elected by the convention of that organization, receiving 148 votes to 56 cast for Thomas Williams, of Zanesville, O.

If you fail to register before May 15, you will not have the right to cast a ballot at the June election.

Conditions in Chicago Next Week Expected to Make Market Higher Than Ever.

CATTLE RAISERS ORDERED NOT TO SHIP CATTLE.

Members of the Alleged Beef Trust Have Practically Boycotted the Buying Pens of the Stock Yards—There Will Be Great Scarcity of Stock Next Week.

Chicago, May 3.—The highest market in the history of packing house products in this city is expected next week by retailers and jobbers. This, they say, will be the result of the instructions to cattle raisers not to ship cattle to Chicago and unwillingness of the latter to accept a reduction in prices of from 15 to 30 cents per hundred weight. The members of the alleged beef trust have practically boycotted the buying pens of the stock yards. The few cattle shipped here are allowed to remain in the pens unsold. Notwithstanding the previous statements of packers, they could not get killers and were forced to ask higher prices because of the scarcity of stock.

Salem, May 2.—Petitions circulated in a dozen counties in the state and bearing over 2500 signatures, were filed with the secretary of state, asking that Governor Geer's name be placed on the official ballot as republican candidate for United States senator. ACCUSED CONDUCTOR.

The Woman Who Lost Her Purse, Containing \$360, May Be Arrested.

The Walla Walla Union contains a story this morning which states that Mrs. A. Miers, the book agent, who claims to have lost her purse, containing \$360, when boarding the train at Pendleton for Walla Walla, Friday evening, was likely to be arrested for blackmail. Mrs. Miers telegraphed to the Hotel Pendleton, claiming that she dropped her purse, and the Union states that she accused Conductor A. Menzies of stealing it after she boarded the train. The Union states further that Mrs. Miers told several conflicting stories and Conductor Menzies thinks that it was only a case of attempted bluff or blackmail on her part.

A Day of Big Things.

This surely cannot be considered the day of small things, when a single American railroad company makes the official announcement that it has decided to buy 19,000 steel cars and 260 locomotive engines, required for the increased traffic of the company, at an estimated cost of no less than \$24,000,000. Already this year the most celebrated establishment of the kind in this country has reached the astounding grand total of 20,000 locomotives turned out at its works. Who can set bounds to the industrial expansion of this republic?

NEW YORK MARKET.

Reported by I. L. Ray & Co., Pendleton, Chicago Board of Trade and New York Stock Exchange Brokers.

New York, May 3.—The wheat market was firmer today, both on this side and abroad. The outlook seems to favor a higher level for wheat prices this year. The foreign demand keeps up. The export shipments for this week were 5,350,000 bushels and our exports on the crop are over 10,000,000 bushels ahead of last year. The visible supply is 6,000,000 bushels less than a year ago, notwithstanding it was claimed the 1901 crop was the largest ever grown. In the winter wheat districts the outlook grows more unfavorable every day, so that a large acreage is being plowed up. In the spring wheat states the acreage will be from 25 to 33 per cent under last year, as the season is so late and the prices of corn and flax promise better returns than wheat. Conservative people in the trade consider present prices cheap and advise buying on any weak spots.
