THE GOLCONDA Gold Mine

A Plain Statement of Fact:

The GOLCONDA MINE, in the Sumpter district, with all its equipment, and ten other claims, was recently purchased by the Golconda Consolidated Gold Mines Company, principal office Pendleton, which is now operating the mine. The full purchase price is paid, and all but the treasury stock disposed of to those who advanced the purchase price.

There was left in the treasury for an operating fund 200,000 shares of treasury stock. Some of this stock is offered for sale, but not exceeding 200,000 shares of it will be sold; as that will supply ample funds until the mine is more than self-sustaining. This stock is offered at 10 CENTS A SHARE for the next thirty days.

As an investment of this character nothing equals it. To prove its worth those at work in the mine, who are in a position to know what is in the Golconda, have bought stock at ten cents a share to the extent of their financial ability. Those who have little money which they can spare for the purpose should take 100 or more shares of this stock, as they will most likely find the very best investment they ever made in their lives.

REGISTRATION TO DATE.

There Are Now Over 3000 Voters Registered.

The registration books are now being kept open from 7 o'clock in the morning until 8 in the evening—except Saturday—and those who do not register cannot blame any one but themselves.

Up to Friday evening 3007 names were on the registration books and today has been a busy one for Registration Clerk Kennedy, but at the rate they are coming in somebody is going to get left. After today there are only 10 days in which to register and it is estimated that just two-fifths of the voters of the county have availed themselves of the opportunity to vote at the June election. The books close at 5 o'clock, one week from Thursday, and when they are closed without your name inscribed therein you cannot vote in June without great trouble.

Of course, it is possible for a man to vote, who is entitled to, whether he registers or not, but it will cause him considerable more trouble than it would to visit the clerk's office and affix his name to the registration books in the regular way. The law provides that a man who is entitled to vote can go to the polls and get six free-holders to swear to his place of residence and to his right to cast a vote and he can then cast his ballot without having been registered, but this will entail considerable trouble and the voter had much better be registered than to risk this, for it may be a hard matter to get six free-holders together at one time who can swear that a man is entitled to a vote.

Electio nday is just 30 days off, and every citizen should have interest enough in his country to cast his vote for the ticket that he thinks is the most likely to be the best for the majority of the people.

BLOCKS MAIN STREET.

City Authorities Have Power to Keep the Street Open at All Times.

Considerable complaint has been heard recently by people living south of the O. R. & N. depot about the way the railroad company holds up those going to or from home who have to pass the depot. It is not infrequent for the morning passenger train to stand across Main street from one side to the other, for from 10 to 20 minutes, and at all times during the day freight cars are being switched through the yards and often they are stopped and allowed to stand across the street and sidewalks for several minutes. This cannot be avoided by the company altogether, but when one is in a hurry it is very annoying to have to stand and wait for a railroad crew to get ready to pull a train out of the road before he can pass. It has been the rule of the company to regard the feelings of the traveling public, but it is possible that they are getting a little careless of late. The city authorities should see that the public is not inconvenienced in this connection any more than it is absolutely necessary.

Hereford Bulls Unsold.

There are thirty head of Hereford bulls yet unsold that were brought out to be auctioned off at Heppner La Grande and Pendleton and Baker City. They are at the Union stock yards at Portland, and will be disposed of at public sale next Tuesday May 6th. The railroads are giving reduced fares to those attending the sale. Here is a chance for all who desire to get some of the best bred Hereford bulls in the country. It is a good thing for the northwest to have this new blood brought here and it is a good thing for the fine stock owners to have their business advertised by the newspapers free, while they get big prices for their bulls, the railroads get pay for transporting them and everybody is paid for his services except the gullible newspapers.

HIT A MAN WITH BOCK.

Fined \$40 and Trimmings for This Display of Force.

Walla Walla, May 3.—It costs \$40 and trimmings to strike a man with a rock upon the streets of Walla Walla. Justice Glassford yesterday fixed this sum as the value of a blow struck Fred McCutcheon by Mike Rodell, both soldiers at the fort. Wednesday evening an altercation occurred on the street and a rock was viciously thrown by Rodell, striking his victim near the ear. The trouble led up to the shooting of one soldier by another a few minutes later. The fine will be worked out, as the soldier had no money, and when he leaves the county jail he will have to face a charge at the fort which will make the penalty very severe in the end.

The Independent Warehouse.

Will be open for business, with a competent man in charge, to see that all customers receive prompt and careful attention. Wool growers and wheat growers will find it to their interest to store with this house, where they can ship over either lines of road. References, First National Bank. William Caldwell in charge.

Register before May 15th or you cannot vote at the June election. It will cost nothing to register!
