## VISITS THE MINES

### SUMPTER ANTICIPATES BEST SEASON IN HER HISTORY.

Work in the Big Mines of the District Has Passed the Development Stage and Monthly Output is Stimulating to Business.

Jas. A. Howard, secretary of the Red Boy Consolidated Gold Mines Co., and the Golconda Consolidated Gold Mines Co., has returned from his trip of inspection to the mines. In speaking of things in the Sumpter country and these mining properties, Mr. Howard said:

"I found everything running smoothly at the Red Boy and the camp in general, from a mining standpoint, seemed very prosperous, although the towns were somewhat dull. Sumpter, however, is looking forward to the coming summer as being the best season in her history, and I believe, if the plans now being laid out for the development of the town and country are carried out the expectations are fully justified.

"I visited the Golconda mine last week and found things there very lively. Mr. Melkel, superintendent of the mines, feels greatly elated over the fact that he has been able to disclose high grade ore at several points in the new works.

"It is generally understood that the old Golconda company never had any pay ore to amount to anything below the 200-foot level. Its work seems, for the most part, to have been directed south from the shaft, while the policy of Mr. Melkel has been to drive north on the vein.

"On the 300 foot level, at a point about 100 feet north from the shaft, the rich ore shoot, originally worked by the old company, was encountered and we are now driving in as good a grade of ore as one could wish to see, it being 12 feet wide and all of milling grade. On the 300 foot level, immediately under the point from which the rich ore was extracted by the old company and which made the Sumpter gold fields famous, we have been able to pick up this rich shoot.

"We are now sacking for shipment a streak of ore from 1 to 2 feet wide that runs from high grade shipping ore to hundreds of dollars per ton.

"The management at the mine feel perfectly confident that with only a few weeks work they have demonstrated beyond question of doubt that the rich ore shoot, opened by the old company and which proved so puzzling to it, dips to the north at a very heavy angle and they believe that they will be able to follow it without further difficulty. If they are able to do this and the ore shoot continues as good as it now is, it will be but a few months until the Golconda will be rated along side of the famous Red Boy, Bonanza, North Pole and Columbia, the two last named mines being on the same vein with the Golconda, the Columbia joining it on the north.

"We have a force of something over 35 men at work in the Golconda and are driving north on the 200, 300 and 500 foot levels, and we hope to be able to block out enough ore to insure a continuous mill run within the next three or four months."

### A PETIFEROUS GERM.

Burrows up the Scalp into Dandruff and Saps the Hair's Vitality.

People who complain of falling hair as a rule do not know that it is the result of dandruff, which is caused by a pestiferous parasite burrowing up the scalp as it digs down to the sheath in which the hair is fed in the scalp. Before long the hair root is shriveled up and the hair drops out. If the work of the germ is not destroyed, hair keeps thinning till baldness comes. The only way to cure dandruff is to kill the germ, and until now there has been no hair preparation that would do it; but today dandruff is easily eradicated by Newbro's Herpicide which makes hair glossy and soft as silk.

### COUNTY COURT IN SESSOIN.

There Will Be a Little More Business Than Usual at This Term.

The regular May term of the county court convened at the court house Wednesday morning with Judge G. A. Hartman presiding. There is little extra business to be transacted at this term of court. The following business was transacted during the first day.

The bond of Felix H. Beath, for road supervisor, was approved and filed. Mr. Beath gave bonds in the sum of \$2000 to insure his faithful performance of his duties. George W. Proebstel and Robert Jamison are his bondsmen.

A petition was presented by C. C. Barth with 65 signers, asking for a new county road and the petition was granted. This petition asks that the new proposed road begin at the northwest corner of section 30, in township 4, north of range 336 east. The court appointed Claud Steen, Dave Still and H. B. Lee as viewers for this road and C. E. McComber as surveyor.

### Bills Allowed.

The following are bills allowed

Wednesday, during the first day of the court:

### Pauper Expenses.

D. F. Lavender, \$3.50; G. N. Reynolds, \$3; G. A. R. McGrew, \$12.85; Mary J. Llewallen, \$1.90; H. Hessel, \$3; S. J. Cully, \$18; Fair Store, \$7.95; Mrs. J. C. Davis, \$1.75; Mrs. Ben Case, \$15; W. B. Deardorf, \$1.50; Fred Gerberding, \$4.50; Mrs. J. B. ### Tax Rebate.

J. B. Larkin, \$2.

### Election Expenses.

C. H. Crocker Co., \$108; Glass & Prudhomme, \$10; The Irwin Hodson Co., \$6.

### Improving National Capital.

For some time past plans have been under preparation for the beautifying of the city of Washington. The commissioners in charge have visited many European cities, and the result of their search has been embodied in a series of plans, which will make our capital the most beautiful city in the world. In selecting a family medicine, however, it is not necessary to search the world over, because Hostetter's Stomach Bitters the famous American remedy, is recognized as the best remedy nature and science have been able to produce. It has over fifty years of cures to its credit of such ailments as sick headache, indigestion, dyspepsia, nervousness and liver and kidney troubles. When you need a medicine for these ailments, don't fail to try the bitters.

## HANGINGS AT WALLA WALLA

### DEATH PENALTIES OF THE STATE TO BE PAID THERE.

Capital Punishment to Be Administered in the Penitentiary at Walla Walla for All the Counties of the State.

Walla Walla, May 8.—With perhaps one or two exceptions, every man who will hereafter suffer the death penalty in this state will be brought to this city and within the walls of the state penitentiary the fatal drop will occur. On the west side a case or two still hang fire in the courts, but on the east side no murderer is confined awaiting his doom at the hands of a county sheriff. A wise or unwise legislature made the provision, and now there are several second-hand hanging machines in the different counties which could be sold at bargain sale and still the present owners would make money.

The next murder committed in this state, if punished by death, will be avenged in this city, and the superintendent of the state penitentiary will have charge of the work. It has been often questioned here as to the result of the new order of things on the men confined in the prison here. About 580 men are now at the penitentiary, several serving life sentences, but none under sentence of death. A new system will have to be adopted when the first condemned murderer enters the prison, because he will have to be kept in close confinement until the day of execution and then hanged. The effect of the tragedy upon the men unused to acts of that kind in their presence will be watched with interest by local officers. Just how the details of an execution will be arranged will not be known until the first hanging is about to occur.

There are several modern gallows in the state owned by the counties having used them, and it is possible that the state will purchase one of these for use at the prison. King county, Pierce, Spokane, Snohomish, and perhaps other counties have hanging machines recently constructed and of modern design. One of these instruments of death costs from \$100 to \$200.

Lost—A gray mare, with roached mane, branded on left hip with half circle over cross and a bay mare, branded with D on left shoulder and diamond on right shoulder. Suitable reward will be paid finder by returning to T. W. Ayres' barn.
