Fined for Being Disorderly.

W. E. Higgins was fined \$10 in police court this morning for being drunk and raising a disturbance. Higgins went to the fire last night that destroyed Gus Byers' house. He was pretty well loaded with fighting booze and began to use profane language and try to raise a disturbance. B. E. Kennedy was present and tried to get Higgins to be quiet. The drunken man became wrathful and "sassed" back until Kennedy was so provoked that he slapped Higgins. Higgins then went off to one side, and picking up a stone, hurled it at Kennedy's head. While the stone missed its mark, it passed uncomfortably close and, as a result Mr. Higgins is out \$10 and the city is ahead that amount.

People Who Live Longest.

From statistics it is learned that the longest-lived people of the world are the Norwegians. They are temperate and simple in their habits and preserve in great vigor their digestive powers, which is most necessary in the maintenance of good health. The American usually lives so fast that the stomach is neglected until his health is completely undermined, and he finds himself gradually getting weaker and weaker. If you are one of these sufferers we offer you a medicine that will strengthen your stomach and start you anew on health's pathway, and that is Hostetter's Stomach Bitters. It will cure flatulency, indigestion, dyspepsia, constipation, insomnia, chills and malaria, fever and ague. Don't fail to try it. For sale by all druggists.

THE PAINE SCHOOL BUILDING.

A \$40,000 Brick Structure Only 12 Years Old, About to Tumble Down in Walla Walla.

Walla Walla, May 17.—It is expected that school will again open to the pupils recently compelled to leave the Paine building next Monday, when the high school will occupy rooms provided by Whitman college and the lower grades will be transferred to the new Washington school, just about completed. The furniture from the Paine building has been transferred in some cases, and work will begin in the new quarters in a few days if not on Monday morning.

From examination made it is reported by the board of education that in all probability school will never again be held in the Paine building, and it will be torn down and rebuilt on a firm foundation. The walls have given way until it is held by some to be impossible to repair the damage and make the building comparatively secure that parents might not worry about their children while attending school. The matter will be settled in a few days.

Notice.

I will sell every stick of lumber outside of the warehouse at Fulton Station to the highest bidder. These houses have recently been repaired, and there is old lumber equal to many cord of good fire wood. Persons wishing to buy same will please look it over before May 24, and call on or write T. G. Montgomery, agent.
