**BASEBALL GAME NOW ON**

PENDLETON AND WALLA WALLA TEAMS CONTESTING.

La Grande Beat the Yellow Kids at Athena Thursday in a Poor Game—La Grande Plays Here Tomorrow.

The Pendleton and Walla Walla ball teams are now competing for honors on the Alta street diamond. The game was called at 3 o'clock, which was too late for any of the results to be published today. The Pendleton line-up is the same as published Thursday and the Walla Walla line-up is as follows:

Bradbury, second base; Brown, first base; McAvoy, right field; Williams, left field; Fisher, third base; Gray, center field; Mackie short stop; Shea, catcher; Steltz or Mills, pitcher.

La Grande vs. Athena.

The La Grande team played the Yellow Kids at Athena Thursday afternoon and at the end of the game the score stood 4 to 1 in favor of the La Grande players. C. A. Mackrey went up from here and umpired the game and he says that it was a lifeless exhibition of ball from start to finish. Athena played a very bum game and La Grande played little better.

Blair pitched for the La Grande

**When Drugs Are Required**

be sure the drugs are pure and carefully compounded. If you come to us you can feel perfectly safe. None but pure drugs can reach our shelves, and our system of compounding prescriptions assures absolute correctness.

**UMATILLA RAGING**

HIGH WATER CAUSED INTERESTING EXPERIENCES

James Enright Was Surrounded by Water and Nearly Went Down the Stream—Fears Were Entertained for the W. & C. R. Bridge.

Umatilla river has been on a rampage for the past several days, but the water is subsiding a little today. Considerable anxiety was caused to some with interests along the river bank in the upper end of town, but so far as can be learned little damage has been done.

James Enright, who lives east of town, was completely hemmed in all day Wednesday and did not venture out until in the afternoon Thursday. He lives near the main stream and on a high place which is surrounded by a slough, or low place, which is under water when the river is high.

Wednesday morning Mr. Enright hitched up his team and started to drive down town, but upon reaching the water he thought it looked dangerous so he unhitched a horse, and mounting him, rode into the stream to see how deep it was. He had only gone a few feet when the horse was compelled to swim and Mr. Enright had difficulty in getting out of the stream. He did not venture to drive his team and rig across and went back home, where he staid until Thursday afternoon.

No damage was done to the work for the new W. & C. R. bridge across the river, but considerable anxiety was felt for it by George F. Schorr, the contractor. He camped at the bridge all of Wednesday night and every minute expected to see the raging torrent wash out some of the abutment upon which many dollars had been expended in getting it as far along as it is at present.

The rain during the first of the week, and the snow melting in the mountains, was responsible for the high water.

**PERSONAL MENTION**

T. J. Berg and August Henroid, prominent merchants of Walla Walla, are in town.

J. T. Hinkle left Thursday evening for Tacoma, where he goes on legal business. He will be gone several days.

J. W. Sherwood, state commander of the Maccabees, is in Pendleton for a few days looking after the interests of his popular order.

Miss Edna McGinn, daughter of Mr. and Mrs. John McGinn, arrived home Thursday from Portland, where she has been attending school.

Mrs. H. C. Gregg and daughter, Miss Helen, are in Pendleton visiting Mr. and Mrs. C. E. Roosevelt, Mrs. Roosevelt being Mrs. Gregg's sister.

Earl Saunders, and James Cox, of the Athena baseball team, are in town witnessing the game this afternoon between Pendleton and Walla Walla.

E. C. Skiles, wife, daughter and mother, are guests at Hotel Pendleton on their way to La Grande, where they will make their home. Mr. Skiles is well known here, being the genial traveling salesman for a Spokane drug firm.

**Thomas Denny Injured.**

Thomas Denny, a section man in the employ of the Oregon Railroad & Navigation Company at Bolles Junction, fell from a hand car as he was returning from work Wednesday and was badly injured in the head and back. One ear was completely torn off and his face was severely cut. The section crew was sending the car along at a good rate of speed. Denny, who was on the front end, suddenly lost his balance and fell directly in front of the car. Before speed could be reduced he lay doubled up under the car, and at first it was thought he had been killed. He is resting easy in St. Mary's hospital in Walla Walla and will recover.

**Mrs. Dye in Kansas.**

Mrs. Eva Emery Dye, of Oregon, is in Topeka, Kansas, says the Topeka Daily Capital, examining the Indian manuscripts of General William Clark, superintendent of Indian affairs at St. Louis, in the library of the State Historical Society. She is engaged in an investigation of material relating to the Lewis and Clark expedition, which she proposes to embody in an historical work. Her two volumes, "McLoughlin and Old Oregon," and the "Stories of Oregon," have run through several editions. Mrs. Dye has met two former friends in Topeka, W. H. Cowles, who was a classmate at Oberlin, and Professor W. H. Harshbarger, of Washburn College.

**Wool Growers' Meeting.**  
The Wool Growers' Association will hold a meeting in Pendleton May 29, at 1 o'clock p. m. There will be a wool sale May 29th and 30th by the sealed bid method, officers of the association will be elected and other important business transacted.

Portland is arranging for a mammoth celebration to be held there on July 4.

**CORN FOR FARMERS.**

O. R. & N. Company, Through Its Industrial Department, Encouraging Its Cultivation.

Colonel R. C. Judson, who is at the head of the industrial department of the O. R. & N. system, has taken up the matter of encouraging the cultivation of corn in Eastern Oregon and Washington. He has secured from North Dakota seven varieties of the Dent and Flint corns produced in that region, and has sent seed samples to ranchers east of the mountains in this state, and across the line in Washington. The corns with which he proposes to experiment are of the quick maturing kind. They ripen in North Dakota in 90 days and are thought to be peculiarly adapted to the needs of the Inland Empire.

These samples go to Pendleton, Walla Walla and contiguous points, a number of ranchers there having promised to carefully conduct the experiments and demonstrate the practicability, or otherwise, of making corn a regular product of that region.

In the vicinity of Athena, Umatilla county, Oregon, a substantial beginning has been made in the corn industry, and each year now a number of carloads are exported to the coast.

Those who have conducted the experiments assert that up to the time of harvesting, the caring for a crop of corn is no greater than that of producing a summer fallow crop of wheat up to the time of cutting. They also claim that corn may be alternated with wheat being planted in the years when otherwise the wheat land would lie idle as summer fallow.

It will readily be seen that if it be found feasible to make corn a regular producing crop in the Inland Empire, the annual yield of agricultural wealth will be immensely increased. At the present time all wheat lands lie idle every other year. It will be a valuable service if the experiments initiated by Colonel Judson here have proven that during these idle years the land may as well as not be raising a crop of corn.—Portland Journal.

**Recorded Stock Brands.**

The following brands were recorded with the county clerk this forenoon:

S. B. Elder, Juniper—Horses, LD on left stifle; cattle, O on left hip and left side.

E. E. Elder, Juniper—Horses, LE on left shoulder.

George R. Burney, Juniper—Horses G with half circle over it, on left stifle.

**Political Notes.**

V. B. Dolliver, of Iowa, who is touring Oregon in the interest of the republican state ticket, is scheduled for an address at Salem under the auspices of the Salem Republican Club, on Monday, May 26.

The Republican Salem Statesman says: "George E. Chamberlain is a man of splendid personal qualities. He is a pleasing speaker, a true friend and a loyal neighbor. But his politics is all wrong."

**Don't Use Too Many Words.**

Multiplication of words increases the expense and decreases the effectiveness of advertising. Say what you have to say in as few words as it can be said—then stop. By so doing you can set what you want to say in larger type, so that it will command the attention of more readers than would a wordy discourse set in small type.

**FLOUR FOR AUSTRALIA.**

Nearly 17,000 Barrels Are Being Shipped From Pendleton.

Nearly 17,000 barrels of flour have been and is being loaded at the Byers' mill for Australia.

The first batch consists of 7500 barrels which was loaded and shipped the 4th instant, and between 8000 and 9000 barrels is being loaded now.

This flour goes first to Portland, then it is shipped by steamer to San Francisco, where it is again transferred to a larger sea-going freighter and is shipped to its destination in Australia.

The Australian market for this product is not as good as the Chinese market, but it is better at the present time than for several years for the reason that the wheat crop has been a failure in that colony.

Another thing which adds to the advantage of shipping to Australia at this time of year is the damp season which interferes with shipping flour to China. For several months during the summer it is almost impossible to ship flour to China and keep it from souring and spoiling, entailing a large loss, and the market opening in Australia is of large advantage to American shippers.

Earthquake shocks are reported from St. Augustine, Fla., no damage being done, however.

Baker City is calling for bids for lighting the city with 50 arc lights for one year.

**COMING TO PENDLETON**

We have in transit the largest shipment of

**Glassware**
