

PELEE STILL ACTIVE

Mountain of Death Continues to Pour Forth Smoke, Ashes and Hot Mud.

CANNOT GET TO THE CRATER OF THE VOLCANO.

United States Geologist and Party Made an Unsuccessful Attempt to Scale the Mountain From the North But Were Driven Back by an Eruption of Boiling Mud.

Fort de France, May 26.—Two slight earthquake shocks were felt here this afternoon, causing the alarm of the natives to become greatly increased.

Robert Hill, United States geologist, accompanied by other officials and a number of correspondents tried to reach the crater of Pelee from the north yesterday, the trip being made on a coasting vessel. The effort, however, was unsuccessful, rumbling followed by a mud eruption, which swept Precheur, on the north coast, forcing the party to hasten from the place. At Precheur seven persons who had been unable to get away in time to avoid the mud shower were rescued almost grazed with fear.

Close to St. Pierre many small craters can be seen spouting steam. The big mud geyser is in action on the slope of Pelee. It is thought that the many vents in the volcano may prevent further disastrous eruptions. Pelee has been spouting smoke and ashes heavily today. Ashes fell at Fort a Belle, 14 miles away.

ATHENA BEATEN.

Walla Walla Did Stunts With the Yellow Kid Aggregation.

Walla Walla, May 26.—With a score of 7 to 1, Walla Walla won from Athena yesterday afternoon about 1800 people witnessing the game. An error by Buchet allowed Athena to make a run, the only one made during the game. Walla Walla made 12 hits and one error, while Athena made nine errors and four hits. The game was interesting, and the crowd was enthusiastic. Weather was ideal, warm sunshine bringing out a large crowd of ladies. The score stood:

Walla Walla	123456789
Athena	010420000-7
Walla Walla	010000000-0

Walla Walla has been picking up considerably of late and the work is now considered very good. For a game of this nature so common that general indignation was expressed, and the boys at once took the cue and every effort is now being made to put up good ball.

This afternoon Whitman and Washington Agricultural College teams are scheduled for a game on the Whitman grounds, the game having been postponed on account of the death of Miss Josephine Babcock, a Whitman student.

Miss Florence Atchinson Carried off the Honors Saturday Evening.

Miss Florence Atchinson won the honors in the oratorical contest in the assembly hall on school house hill Saturday evening over her seven competitors, and she was selected by the judges to represent the Pendleton high school in the oratorical contest between the Eastern Oregon high schools to be held at Baker City this evening.

The hall was well filled with friends of the contestants eager to see who would win this honor and all the orations were good. Miss Atchinson did not have any walk-over at all for she was only one point ahead of Miss Mary Rothrock. The winning oration was entitled "Not So Fast, Sir," and the trend was to show that too many people in the present day tried to rush through life without deliberation and as a consequence made a failure.

School Superintendent J. F. Nowlin, Attorney L. B. Reeder and County Recorder J. W. Maloney were the judges.

Most Effective Advertising.

That advertising is the most effective which attracts the eye and appeals to the brain. Strong adjectives may be as much out of taste in an advertisement as in a bit of more aspiring literature. Exaggeration is always to be avoided. People nowadays demand sincerity in all matters of business. It is observable that all the big and successful advertisers are most careful as to their statements of fact. They realize that confidence is the key-stone in the arch of trade. Their success came of their jealous regard for their work.

STRIKE MAY BE SETTLED

CONFERENCE BEING HELD MILL MEN AND STRIKERS.

This Meeting Considered Significant, Coming Immediately After the Mill Men's Announcement That They Would Make No Concessions.

This meeting coming as it does after the mill men had announced that they would concede nothing, is significant. Italy's King Attacked.

Rome, May 26.—The civilian police consider the attempt against the king's life, which was made yesterday, when two stones were thrown at his train when it stopped at Naples to be the result of an immature anarchist plot. Strength is given to this idea by the fact that the authorities have strong evidence of such a plot against the life of the pope. As a result, there is renewed vigilance, both at the imperial palace and at the vatican.
