GENERAL NEWS.

It is announced from London that King Edward has made Kitchener a viscount.

Seventy-five people are reported killed by a volcanic eruption in the district of El Gran Ohaso, South America.

Dispatches from Holland say that the Transvaal flag still flies from the house occupied by ex-President Kruger, at Utrecht.

Tuesday the Idaho republican state committee fixed August 20 as the date for the state convention, which will be held in Boise.

The American Tuberculosis Congress, in session at New York, Tuesday considered tuberculosis in its pathological and bacteriological aspects. A number of papers were read and discussed.

General Frederick Funston, in command of the department of Colorado, has accepted the invitation of William Allen White, the president of the Kansas Day Club, to deliver the address at the next meeting, January 20, 1903.

Notice was given Tuesday that until further notice the locomotive department of the Santa Fe machine shops in San Bernardino, Cal., will be closed. This action is simply a lock-out because of failure to settle the boiler makers' strike. The repair shops at Needles were also closed down Saturday.

The report of the directors of the Suez Canal company for 1901 shows that the receipts for transit dues have for the first time exceeded 1,000,000 francs. A dividend of 133 francs was declared. Shipping aggregating 10,830,860 tons traversed the canal in 1901. The cargoes shipped beyond Suez consisted largely of petroleum and railroad material.

PACIFIC NORTHWEST NEWS.

Nathan W. White, a resident of Mason county for 35 years, was found dead in his cabin near Kemliche, Mason county, Tuesday night. White was one of the oldest settlers of Mason county. He was 75 years of age.

Don't Use Too Many Words.
Multiplication of words increases the expense and decreases the effectiveness of advertising. Say what you have to say in as few words as it can be said—then stop. By so doing you can set what you want to say in larger type, so that it will command the attention of more readers than would a wordy discourse set in small type.

BERKLEY VS. WALLA WALLA

UNIVERSITY BOYS DOWNED
THE SHARPSHOOTERS.

Before 3000 People the California Lads Did Stunts With the Washingtonians by a Score of 12 to 4.

Walla Walla, June 5.—Baseball enthusiasts to the number of about 3000, turned out yesterday to witness Manager Sharpstein's Sharpshooters go down to defeat before the sturdy Californians from Berkley. The game belonged to the visitors from start to finish, the errors of the local nine in the first two innings weighing heavily against them as well as the superior batting of the Berkleyites.

The team work of the visitors was splendid, notwithstanding the three errors credited to them. Williams, pitcher for the visitors, was a hard man for the Sharpshooters to find while on the other hand, the Californians found Mills often. If there was any difference between the two catchers it was not noticeable to an amateur.

Many brilliant plays were made, the most noticeable among them being by Williams, left fielder for the Sharpshooters. A sturdy Californian lifted a fly into left field where Williams, after an exciting run, captured it, seemingly picking it off the fence.

The score at the close of the game stood 12 to 4 in favor of the visiting team.

The following is the official score:

THREW MONEY AWAY.

How \$100,000 in Gold was Emptied into the River Nile.

Once, without knowing it, Lord Kitchener threw away 20,000 pounds, says Tid-Bits. It was when the British troops evacuated Shendy, on the Nile, after the fall of Khartoum, in 1885. Large quantities of stores and provisions were ordered to be destroyed because of the want of means for transporting them.

Among other things was 1,000,000 rounds of various sorts of ammunition, all of which was to be thrown into the river Nile. To Kitchener fell the duty of seeing these duties carried out, and according he had every case taken out by boats and dropped into the middle of the river.

After it was all over and the troops were all on their way down stream again it was discovered that among the cases of ammunition were two large cases filled not with projectiles or cartridges, but with real golden English sovereigns—10,000 in each case.

No attempt has yet been made to recover this sunken treasure, which is by this time doubtless buried beyond resurrection in the Nile.

DAYTON VERSUS PENDLETON

WILL PLAY A SERIES OF
THREE GAMES HERE

A Schedule of the Games for June: University of California Team to Play Against Pendleton.

Beginning at 3 o'clock tomorrow evening the Dayton baseball team will cross bats with the Pendleton players on the local diamond and following this a game will be played Saturday and Sunday afternoon between the two teams. The Indians defeated the Dayton aggregation in their home city the 6th of May, but since that time Manager Fouts, of the Dayton team, has greatly strengthened his team and will come here with "blood in their eyes," determined to "do things" to the Indians, if possible. The Indians have also been strengthened somewhat. They have added a new pitcher. He is D. K. Hays, who hails from Iowa and is said to be a twirler with a record hard to beat. He will try his hand against the Dayton aggregation during the series of games here beginning tomorrow.

June Schedule of Games.

Following is the games now scheduled for the local team during the rest of June:
Dayton vs. Pendleton—On the local diamond, June 6, 7 and 8.
University of California vs. Pendleton—On the local diamond, June 10 and 11.
Everett vs. Pendleton—On the local diamond, June 14 and 15.
Dayton vs. Pendleton—At Dayton, June 19, 20 and 21.
Walla Walla vs. Pendleton—At Walla Walla, June 22 and 23.
Colfax vs. Pendleton—At Colfax, June 28 and 29.
La Grande vs. Pendleton—On the local diamond, June 25 and 26.

"NO CLINKERS."

"Cokes the Coal and Burns the Coke"
—A Testimonial From Some of Pendleton's Business Citizens.

Mr. W. G. McPherson, Portland, Oregon.

Dear Sir:—After having given the "Perfect" Hot Air Blast Furnace a thorough test in the last two years we can truthfully say that we have never seen its equal for economy. Your statement that it "cokes the coal and burns the coke," we have found to be correct, for we find that after burning a fire continuously, there is left only a very small quantity of ashes, and no clinkers, the ashes being as fine as flour. The splendid results we have attained with this furnace have truly surprised us. Yours very truly,
