## NO CARS STAND IDLE

SUCH ARE THE ORDERS FROM ALL ROADS.

Hereafter "Borrowed" Freight Trucks Will Be Charged for by the Day, Instead of by the Mile, as Under the Present System.

A new order in regard to the renting and using of freight cars belonging to one railroad and another has been sent out and will go into effect the first of July, and thereafter there will be no cars of one line allowed to stand sidetracked by other lines.

Following is what Joseph McCabe, general manager of the Washington & Columbia River Railroad, said recently, speaking of freight in the future:

"There will be plenty of cars for the wheat shipments this season. A new order in regard to the renting of freight cars will go into effect July 1 on all the roads of the United States. I have just received it and it states that hereafter instead of paying rent on cars for the number of miles they travel the roads will have to pay for the use of cars by the day. In consequence of this order I expect to see the carrying capacity of all the roads doubled. The cars will move about twice as fast, for the roads will lose money if the cars are idle or are stored on sidings and returned when the companies choose. I am sure borrowed cars on this road will move faster.

"The wheat will not commence to move till about the last of August, and while cars will not be plenty there will be a sufficient number to handle the traffic of this road. It is very probable that there will be an enormous crop of wheat along the line of the Washington & Columbia River, and it will keep the road rustling to handle it, but we have handled just as large crops before and I see no reason why we will be unable to care for this."

#### Saved From an Awful Fate.

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa., "I was so low after six months of severe sickness caused by hay fever and asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it and was completely cured." For desperate throat and lung diseases it is the safest cure in the world, and is infallible for coughs, colds and bronchial affections. Guaranteed bottles 50c and \$1. Trial bottles free at Tallman & Co.'s.

#### WEST NOT IN CHICAGO.

Man Supposed to Have Gone to Claim an Estate Still in the West.

Perry F. West, who wrote a letter to friends in Walla Walla a few days ago, stating that he was in Chicago settling up an estate in which he had fallen heir to \$3000, is said to still be in the West and the letter thought to be a fake.

West is a son of Peter West, of this city, and has gained more or less notoriety during the past several months through being jailed in Walla Walla as a bigamist, but later came clear of this charge and was then sentenced to three months in jail for assaulting Jailor Maloney in an attempted jail break. He was released only a few weeks ago and immediately left for the Windy City, so he announced, to settle up an estate and claim a legacy of \$5000 left him by a rich relative. This announcement is now thought only to have been made to hide him from the gaze of the people for a short time. Later, however, a letter was received by a friend in Walla Walla, announcing that he had reached his destination and would remain there for some time. Now comes the report from Wenatchee that he has been there and the officers are looking for him for impersonating an officer and using the authority of such position to further his own interests. From there he disappeared suddenly and a later report is to the effect that he is employed by the O. R. & N. Railroad Company as an engineer between Umatilla and Pasco, but this statement cannot be vouched for by the railway people here.

#### THE WAITE HAND DRILL.

A Test Being Made with it in Pendleton with Satisfactory Results.

W. W. Waite, of Colfax, father of Fred W. Waite, of this city, is in town on his return from Columbus, Ohio, where he has been in the interest of his new patented mining drill. Mr. Waite had one made and brought it back with him and Wednesday had it in the rear of Temple & Wilcox's implement house giving it a practical test in the presence of several mining and curious people. This new machine is built to take the place of the larger mining machinery which costs a large sum of money and is simple and easily handled, being small and easily taken to pieces, so that it can be packed anywhere. It is built for hand power, with a crank

on either side so two men can run it or it can be run by one. The drill is arranged so four hammers hit it every revolution of the wheel, driving the steel into the rock, doing practically the same work with one man that four or six could do by hand drills. It is so arranged that it can be used to drill holes in the side of a wall straight in on an angle, straight down into the bottom of a pit, straight up into the roof, or, in fact, it will put a hole into a rock in any place where the ordinary mining power drills of today will work. The test of the drill in Pendleton has shown beyond a doubt that it is going to prove a success, and Mr. Waite is very much elated over his invention.

#### The King's Coronation.

The king's coronation promises to be the most elaborate and costly public function of modern times, and our country is to be represented by three statesmen selected by the president, who will represent our state army and navy. Many other people will also attend the ceremonies, who will take the ocean voyage principally as a means of improving their health. They will, however, obtain only temporary relief, and their old complaints will surely appear again when least expected. The best way to recover your health is by strengthening and restoring the stomach to its normal condition by the use of Hostetter's Stomach Bitters. It is a positive cure for loss of appetite, nervousness, insomnia, indigestion, dyspepsia and malaria. Try it.

#### Memphis Gun Club Tournament.

Memphis, Tenn., June 4.—Crack amateur and professional marksmen from many parts of the country are taking part in the big shoot of the Memphis Gun Club which opened today. Included among the prominent participants are J. A. R. Elliott, W. R. Crosby, Fred Gilbert and Herbert Taylor. Some excellent scores were made in the preliminary events today.
