FOR FREE DELIVERY

ARRANGEMENTS NOW BEING MADE FOR CARRIER SERVICE.

This Will Commence on July 1, With Three Deliveries Daily in the Business Portion of the city and One in the Residence Part.

It is again time to say a word about the free mail delivery and this time it is good news instead of bad.

The department has decided that if it can possibly be arranged the mail coming to the residents of Pendleton will be delivered at their doors if they so wish, beginning with the first day of July and from that time on.

J. W. Erwin, assistant superintendent of free delivery, was in town a few days ago from San Francisco, looking over the city and locating the places for the mail boxes, and laid out the routes for the delivery boys.

The boxes, with perhaps a few slight changes, will be located as the following places:

Southeast corner of Main and Court streets.

Southeast corner of Main and Court streets.

Northeast corner of Court and Johnson streets.

Southwest corner of Court and Vincent streets.

Southwest corner of Webb and Colby streets.

Northwest corner of Bush and Jackson streets.

Northeast corner of Court and Stonewall Jackson streets.

Sister's school.

Southwest corner of Cosby and Bluff streets.

Southwest corner of Aura and Alta streets.

Southeast corner of Calvin and Alta streets.

Northeast corner of Webb and Maple streets.

Bids are now being advertised for by Postmaster C. E. Fell and will be received up until the 15th instant, for setting the iron posts for the mail boxes. The lowest bidder for this work will receive the contract. This boxes will not be placed on the posts until the morning of the 1st of July, but it is only a moment's job to do this.

Civil Examinations Saturday.

Nine applications are now in for the civil service examinations for a place on the local staff of deliveries. Only two of these will be able to get the place and they will be selected next Saturday. In addition to the two carriers a substitute will be appointed to take the place of either of the carriers in case of illness or anything happening when one of the regulars would have to leave his work for any length of time.

The examinations will be held at the court house, beginning at 9 o'clock Saturday morning, June 7. Albert Bedell, secretary of the board of civil examiners of Walla Walla, will be here and examine the applicants for this position. Then the result of the examinations will be sent to Washington, D. C., where they will be looked over by the department and the two the best fitted according to their rating, will be appointed as deliveries and the third best will get the place of substitute. This will take several days and it will keep the department on the jump to get the applications to Washington, the certificates returned and the carriers fitted for the work by the time set for starting the delivery.

Those accepted will have to order uniforms and familiarize themselves with the free delivery rules, which will take some time. The postmaster will supply them with blank slips, which will be taken around and left at every home reached by the delivery. These blanks are expected to be filled out with the name of the occupants and number of the house and then they will be gathered up and the carriers will in this way get acquainted with their route and the people they have to deliver mail to.

The Deliveries.

Three deliveries will be made to the business part of town from the first, but only one will be made in the residence portion. This is because of the way the trains run at present, which make it impossible for a delivery to be made further out than the business houses after the evening mail is in.

The deliveries to the business portions of town will be made at 7 o'clock in the morning to get the night mail; at 9 o'clock in the forenoon, to catch the mail from No. 1, going east, and one in the evening after Nos. 2 and 7 from Spokane and Portland arrive. The delivery to the residence part of town will be made beginning at 9 o'clock a. m.

Put On the Number.

It will be a good thing if all who write letters and have mail come to them after the establishment of the free delivery, instruct their friends and those addressing them to put the number of their residence on mail when addressing them, as well as the postoffice. While this is not positively necessary, it will simplify matters wonderfully for the carriers and will make the mail reach its destination without any trouble.

"NO CLINKERS."

"Cokes the Coal and Burns the Coke"

—A Testimonial From Some of Pendleton's Business Citizens.

Mr. W. G. McPherson, Portland, Oregon.

Dear Sir:—After having given the "Perfect" Hot Air Blast Furnace a thorough test in the last two years we can truthfully say that we have never seen its equal for economy. Your statement that it "cokes the coal and burns the coke," we have found to be correct, for we find that after burning a fire continuously, there is left only a very small quantity of ashes, and no clinkers, the ashes being as fine as flour. The splendid results we have attained with this furnace have truly surprised us. Yours very truly,
