IS A WARM GAME

BERKLEY PLAYING THE INDIANS THIS AFTERNOON.

College Lads Are About the Heaviest Team Pendleton Has Yet Gone Against, and a Spirited Contest is on Tap.

The husky lads from Berkley, arrived in Pendleton last evening and are trying conclusions with the Pendleton Indians at Alta street grounds this afternoon. The college lads are among the swiftest the locals have ever gone against and there is a considerable element of uncertainty as to which team really has the better of the argument.

But one game will be played, the Berkley lads returning to Walla Walla tomorrow to play the Sharpshooters another game.

Following is the line-up of the teams this afternoon:

Berkley—Hamlin, cf; Kennedy, 3b; Adams, ss; Hendricks, 1b; McKeown, rf; Heilmuller, lf; Overall, 2b; Hutch c; Williams, p. Overall, their big twirler, was scheduled to have pitched today's game but decided to hold himself off for Walla Walla.

Pendleton—Rhea or Brown, c; Ziegler, 3b; Fay, ss; Knox, cf; Clemens, lf; Stovall, 1b; Schmidt, 2b; Wilner, rf; Taylor or Hayes, p. If Taylor, pitches, Brown will play behind the bat, and if Hayes, the new strike out cyclone, officiates at the slab Rhea will wear the mask.

A number of business houses have closed for the afternoon in order to allow the clerks to see the game.

to give it a lift. After our travels in other parts of the state and even in far-famed California, we have come home with increased pride in Eastern Oregon and Pendleton in particular, but have to admit that there are some things we have not yet attained. D. D.

CHANGES AT COURT HOUSE

CIRCUIT COURT ROOM WILL BE CUT DOWN.

Room Will Be Reduced to One-Half Its Present Size and Adequate Ventilation Provided.

It is now a settled fact that the circuit court room in the county court house is going to be remodeled and worked over to make it more up-to-date. Ever since the court house was erected it has been a recognized fact that the circuit court room was a nuisance for court purposes and the present plans for rearranging it will be welcomed by those who are compelled to work therein during court sessions.

In the first place, the room is entirely too large. So large a room is never needed for court purposes, as there is seldom a case where half the present room is filled with spectators. Secondly, it is impossible to heat the room during the cold winter months because it is too large and any one having to remain in the room in cold weather will suffer more or less from the cold, but perhaps the greatest reason for making the change is the lack of ventilation. The present court room is built so that it is incased with rooms almost on all sides and there is little access to the outside and consequently the ventilation is so bad that to stay in the room during the hot weather is almost an impossibility.

Hereafter, according to the plans of Architect Howard, the room will be reduced just one half and will be 33x44 feet. The two judges' rooms will be cut out from back of the judge's bench, throwing the court room to the wall and giving access to the outside of the building.

The west end of the building will be cut into office rooms.
