THAT ELECTRIC FRANCHISE

COMMISSIONERS FIGURING WHAT TO DO WITH IT.

Romo Has Gone Home to Walla Walla After Several Days Here in Interests of His Electric Company.

Frank E. Romo left this morning for his home in Walla Walla, after spending several days here in the interests of the Washington & Oregon Electric Railway, Light and Power Company, which he represents.

Mr. Romo had a conference with the county commissioners Friday at the court house and owing to Judge Hartman being absent and the commissioners not wanting to act without him, no definite steps were taken in the matter of giving the company a franchise, and a meeting was planned for today. After careful study, however, the commissioners concluded to take no action on the matter until the regular term of county court in July. This is to give them ample time to think over the question they have to deal with and find just what the granting of the franchise to the electric railroad company means to the county.

While this is something which needs careful consideration on the part of the county officials it should be viewed in a broad light. The commissioners should not give any company a franchise for 50 years for any purpose without first knowing what it means. The company behind the present proposition to build an electric road between Pendleton and Dayton is apparently a bonafide company. They have already spent several thousand dollars in getting the proposition started, while they would hardly do so unless they meant to build the road. Again the already have the franchise for Columbia and Walla Walla counties and the towns of Dayton and Walla Walla. The residents of these counties and county seats are jubilant over the prospect of having the road built.

In addition to the running of a car line the company proposes to furnish all towns with electric light at from 30 to 33 per cent less than what is already paid for lighting from other private corporations. After getting power developed for the running of the cars the company can sell lights without being at any great expense and can afford to sell them cheap. This will save much money to individuals in the course of a few years and in itself be an impetus for approval.

A QUEER DISEASE.

Spotted Fever Said to be the Result of a Tick Bite.

A Missoula, Montana, dispatch of recent date says: "Dr. William D. Chowning of the University of Montana, summoned by the state board of health to investigate the strange malady of the Bitter Root Valley, called 'spotted fever,' gives the opinion that the fatal disease is caused by the bite of a tick, peculiar to the district. This disease has baffled the physicians and about 12 persons have died with the affliction this spring."

What Boise Physicians Say.

In regard to the theory advanced by Dr. Chowning, Dr. L. P. McCalla, of Boise, Idaho, was inclined to discredit its value, and taking a conservative view of the matter, he considered that the Montana doctor had simply hazarded a guess.

Dr. McCalla thought that the investigations had not been carried on by Dr. Chowning for a sufficient time to warrant an announcement of his conclusions to the public.

"In my own practice," said Dr. McCalla, "I have had patients with the spotted fever at a season when there were none of the insects—that is, very early in the spring. Many of the patients, especially those in town, could not have been bitten as there

VAN ORSDALL & ROSS

were none of the ticks there." Dr. McCalla thinks the disease in Montana is different from that prevalent in Idaho. Spotted fever, he says, is a general term used in describing certain diseases where there is a breaking out of the skin in spots. It was formerly mis-called cerebro spinal meningitis in this locality. The symptoms noticed here are peculiar to this locality, and are not similar to what is known in the east as cerebro spinal meningitis. The disease, the doctor continued, rarely proves fatal here, although there is a case now and then.

ZEIGLER REPLIES TO ATTACK

TELLS EFFORTS TO RANGE GAMES WITH ATHENA.

Captain of Pendleton Team Resents Insinuations of "Dirty" Ball Playing by Indians and Offers a Match for \$500 a Side.

To the Public:—I rush into print in this instance, not because it is customary for me to do so when not playing ball (for we are playing ball you will admit) but because it was, in my mind, absolutely necessary to do so in order to advise the baseball public how anxious I was to arrange a series of games with Athena, and what ill-success attended my efforts. Several times had I written Doc Osborn requesting him to arrange a series of games with us, but to no avail. He did not even answer my letters. I offered to play his team in Athena, and give them an Athena umpire; he had no excuse on account of having all days booked until the team disbanded in July. The baseball fans can now judge for themselves whether or not Athena is afraid to meet us.

If I rush into the diamond during a ball game, it is because the decisions of the umpire are repeatedly glaringly and intentionally unfair. One would have to be an angel to remain meekly by and not register a kick at the umpiring which was served up to us in the Athena game. I have played professional ball for a good part of three years in the National League and in various minor leagues, and during all that time, I was never compelled to pay a fine for kicking at the decisions of the umpire.

I have a crayon portrait of some of the Athena players remaining that length of time in the professional ranks (which, however, will never happen) and escaping fines imposed by the umpire for "rowdy and dirty" ball playing. I want to say here that I can go back to the leagues in which I have played heretofore if I have a desire to do so. I am not barred from them on account of inability to play or because I am a "rowdy and dirty" ball player. I am not playing professional ball because I have no desire to do so.

The enthusiasts will judge for themselves whether or not I am a gentleman when compared with the conduct of other ball players in this or any other locality.

I am proud to be a ball player, and all ball players are friends of mine, whether they be of the McGraw type or of the quiet variety. Because I have gotten together a lot of boys who will scrap for their rights is no reason I should be censured by the press of a town which has a good ball team, but whose ball team is clearly inferior to our own. I will defend my team against all such attacks. However, I have no desire to settle the question of superiority in this manner.

I understand that what is left in the treasury of the Athena club is to be divided among the several players at the close of the season.

Now the Athena boys, if they are confident of having the better team, cannot pick up \$500 in an easier manner than this: We will play Athena at Walla Walla a series of three games for \$500 a side. The winner of two games to take the \$1000. A disinterested umpire from somewhere can be secured to officiate at these games. Gate receipts to be divided in any manner Athena may choose. Now, Doc, step to the front and show your colors.

We will cancel any games we may have, to meet Athena before they disband in July.

CHARLES W. ZIEGLER.

"NO CLINKERS."

"Cokes the Coal and Burns the Coke"—A Testimonial From Some of Pendleton's Business Citizens. Mr. W. G. McPherson, Portland, Oregon.

Dear Sir:—After having given the "Perfect" Hot Air Blast Furnace a thorough test in the last two years we can truthfully say that we have never seen its equal for economy. Your statement that it "cokes the coal and burns the coke," we have found to be correct, for we find that after burning a fire continuously, there is left only a very small quantity of ashes, and no clinkers, the ashes being as fine as flour. The splendid results we have attained with this furnace have truly surprised us. Yours very truly,

F. E. JUDD,
C. S. JACKSON,
T. C. TAYLOR,
