Nearly Died of Starvation.
A young man in one of our large cities was recently found in an unconscious condition, and upon examination it was found that he was dying of starvation. Food was given in small quantities and in a few days the patient recovered. There are many other people starving themselves because they are afraid to eat good, substantial food. Their stomachs are weak and cannot therefore digest it properly. Consequently the patient loses flesh and the blood and nerves become impoverished. A few doses of Hostetter's Stomach Bitters will restore the stomach to its normal condition and cure headache, indigestion, dyspepsia, flatulency, constipation and biliousness. It is the best stomach strengthener and health builder in existence. Try it and see for yourself.

Iowa has more button factories than any other state in the Union, according to the United States census report, and this fact prompts an Iowa editor to suggest that it would be more appropriate to erect a "Button Palace" instead of a "Corn Palace" at the Louisiana Purchase Exposition.
