Silk Dyers' Helpers on Strike at Paterson Smash Windows and Raise Disturbance.

POLICEMAN AND A STRANGER WERE HURT.

Shots Were Fired at Rioting Strikers and an Officer and an Innocent Onlooker Were Shot, the Policeman Being Fatally Injured.

Paterson, N. J., June 18.—The silk dyers' helpers, who have been on a strike for five weeks, divided into squads this morning and visited all the silk mills in an endeavor to induce the silk workers to come out. A riot resulted at one mill, the windows being smashed. The police were called and a fight followed, in which shots were exchanged, one policeman being probably fatally wounded and a stranger shot in the neck.

Smashed Machinery. Preceding the riot 500 strikers held a mass meeting. The squads visiting the mills numbered about 100 each. The workers were told to come out before bodily harm was done to them.

When they persisted in sticking to the work rooms, the strikers rushed them, turning off the power or breaking the machines. In less than an hour every worker in Paterson with the exception of those at one mill, quit work, scared by the demonstration.

Rioting Breaks Out Again. Rioting broke out afresh this afternoon, two men being probably fatally shot. The mob of strikers moved from one mill to another stoning the mills and shooting through the windows.

The police armed themselves with shotguns, but were unable to cope with the mob. The strikers are now gathered in force around a mill at Versieue, and the mob threatens to burn the mill tonight. An unconfirmed report says a clash occurred there late this afternoon in which four strikers were shot. Mob rule has extended throughout the city and the strikers are running roughshod over the streets armed with knives and clubs.

The militia will be called out.

Lewis crowd, which is said to be trying to corner the world's supply, caused a decline. The market was hammered throughout the session by the elevator men and at the close it was 65 1/2.

CHILD'S STRANGE DEATH.

Mothers Will be Particularly Interested in Circumstances.

Physicians are puzzled over the death of the 15-months-old babe of Mr. and Mrs. Frank Strathouse, says the Boise Statesman. The child was sleeping in a preambulator that stood upstairs in the house. About 4 o'clock Monday afternoon, the grandfather of the child, who is a member of the household, happened to be upstairs and noticed that the babe was lying motionless. He remarked that the little one, whom the hot weather had made listless, was lying sleeping quietly. A few minutes later the mother of the babe made the discovery that the little one was dead.

Two physicians were hastily summoned who tried to resuscitate the child, but without avail. The doctors at first were unable to account for the fatality, but later came to the conclusion that the babe met its death in a strange manner. A strap was found fastened over the buggy and the child in its struggles had pushed its clothing up in such a way that it was crowded under the strap and exerted a heavy pressure just over the heart of the babe. It is thought that the pressure was sufficient to stop the action of the heart. No other cause of death could be assigned, as the child was perfectly healthy.

Two more rivals of Santos-Dumont the Wizard of the air, have come into public notice during the past week. One of these is Professor Bernard of Lynn, Mass., who has a flying machine all but ready for the contest in the air at the World's Fair. The other is Parvin Wright of Denver, Colo., a mechanical and electrical engineer of twenty years experience. Now that Santos Dumont has packed up his aerial craft and gone back to Paris from London it is quite probable that daring aeronaut will be kept busy until 1904 perfecting his flying machine for the World's fair.

William Glasford Declares That the Administration of Chief Kaufman Has Made the Operation of the Police Court a Mere Farce.

Walla Walla, June 18.—Sensational charges of misconduct in office were filed before the city council last evening by City Justice William Glasford, against Chief of Police Kaufman.

The charges in substance are that the chief with discharging persons convicted in the police court before they had paid their fines or served their terms, contrary to the orders of the court and in violation of the city charter; with repeatedly following this course until in the opinion of the justice it is a farce to fine a violator of the city ordinances; with always being ready to file sworn complaints against persons without proper evidence to convict, and with insisting the court when it refused to convict on the flimsy evidence produced; and also with having charged the city for meals supposed to be served to prisoners, while at the time the alleged prisoners were not in the prison, being sometimes turned loose even without commitment.

The chief denied the charges in every particular, saying they were only brought to make political capital.

Escaped Convicts Are Being Closely Pursued Through the State of Washington.

THEY WERE FIRED AT BUT REFUSED TO STOP.

Yesterday Afternoon They Stole Two Horses and Are Making North as Fast as They Can Go—Have Stolen New Shoes to Throw Hounds Off the Scent.

Vancouver, Wash., June 18.—A telephone message from Sheriff Marsh at Lacey at 7:30 o'clock last night states that Tracy and Merrill are known to have passed Pioneer church, six miles southeast of Lacey and 14 miles from here late yesterday afternoon. They were on horseback, having stolen two horses from the farm of John Rathburn after holding up Rathburn's father-in-law.

After securing the horses the outlaws rode rapidly to Pioneer church two miles west, then turned north toward Lacey and Lewisville, on the Lewis river. The posse came up scarcely an hour after the convicts secured the horses and upon learning of the occurrence, started in hot pursuit.

Several miles beyond Pioneer the track of the fugitives was lost, but it is believed they passed the main road leading off the Pioneer road to Lacey and continued north along the trail through the woods which follows the Lewis river toward Lewisville. Sheriff Marsh says trusty men have been stationed at Lewisville and other points of vantage along the river while he himself and Sheriff Totten, of Skamania county, stand guard at the Lacey bridge.

Shot at Convicts.

Portland, June 18.—A squad of Vancouver militia a mile southeast of Lacey, Wash., encountered two men supposed to be Merrill and Tracy, at 9 o'clock last night, walking over a hill. New shoes have been stolen by the convicts to keep the bloodhounds from getting their scent.

MAY LAY OVER RECIPROCITY

Believed This Will Be Agreed Upon at a Meeting of Republicans Tonight at Washington.

TO MATCHMAKERS.

Suggestions to Those Who Would Meddle With Cupid's Darts.

I consider parents guilty of the most criminal selfishness who neglect to arm their daughters for the battle of life just as they would arm their sons. What would be said of people who would give their boys no education, and never trained them in any profession or line of business? It is exactly as bad to leave one's girls without an attraction and then blame them for not making good marriages.

I am sure that a woman who is a flirt by nature never suffers even over an unfortunate love affair, like her more conscientious sister. She has such a capacity of easily shifting from one lover to another that she is always open to consolation.

A truly clever man never falls in love with a fool.

If a clever man preferred a fool why should not a clever woman do likewise?

The chances were far more in favor of a happy marriage where the husband was the fool than where the wife was.

A girl never looks more charming than when she is watering flowers or gathering fruit. I can't say why it is, but the fact remains that a man finds her under these conditions irresistible.

A mother should never seem glad to be rid of her daughters; their value is only enhanced in a man's eyes if she shows a reluctance to part with them.—From "The Confessions of a Matchmaking Mother."

The crown prince of Siam is coming to the United States immediately after the coronation of King Edward, on which occasion he will represent his government. During his sojourn in America the prince will visit St. Louis to confer with the officers of the Louisiana Purchase Exposition regarding Siam's exhibit at the World's Fair.

CALL THEM ALL OUT

Every Coal Miner in the United States May Be Asked to Go on Strike.

SUCH A STRIKE WOULD TIE UP EVERYTHING.

In Addition to 170,000 Men Now Out, 300,000 Soft Coal Miners Would Quit Work and Shut Off the Coal Supply of the Entire Country.

Wilkesbarre, Pa., June 18.—President Mitchell has issued a call for a joint convention of hard and soft coal miners and a strike of 300,000 soft coal men to assist the anthracite men in their struggle may result.

This would tie up the entire coal industry of the United States and bring a climax to the strike of anthracite men.

The convention will be held in Indianapolis at the earliest possible moment. The call is made upon the acquiescence of five districts of the United Mine Workers, that number being necessary to issue such a call.

Tie Up Everything.

By such a sympathetic strike every industry in the country would be directly affected. It has been the evident policy of the operators to allow the strike to drift with a possibility that the miners' organization might be broken by a long suspension.

In the meantime, the anthracite markets of the country have become exhausted and a supply of soft coal rushed into the market. The miners, having played their last card in the anthracite field, have necessarily turned to the bituminous men for aid.

No Outside Interference.

New York, June 18.—President Baer, of the Philadelphia & Reading Railroad, made the statement today that the only settlement of the coal trouble that can take place will be for the strikers to return to work, and that outside interference will not avail. President Fowler, of the New York, Ontario & Western, made a similar statement.

Date of General Conference.

Indianapolis, June 18.—Secretary Wilson, of the United Mine Workers, today set July 17 as the date for holding the convention of hard and soft coal miners.

Premier is Ill.

London, June 18.—Premier Salisbury is ill.

WOMEN AT THE WORLD'S FAIR.

Mrs. Helen Boice-Hunsicker Says They Should Wear Good Clothes.

World's Fair Grounds, St. Louis, June 18.—In discussing the probable scope of duties of the board of women managers of the World's Fair, Mrs. Helen Boice-Hunsicker, the member from Pennsylvania, says: "I agree with a commissioner from a western state, who thinks that the women should be beautifiers instead of workers. I think the women could give the best service to the exposition by making suggestions for the finishing touches of the different exhibits, to insure an artistic effect."

"Besides this," she added, "I believe we should put on our best clothes, keep our hair curled and play the hostess. There is a strong feeling in the national world's fair commission, from whom the women's board of managers get their appointments and instructions, in favor of having a building at the fair dedicated to American womanhood and home. I think it is a splendid idea, for it would show the foreigners, especially, who believe that the American women walk slipshod over their husbands, that the men of America really have great respect and admiration for the women."
