Wheat in San Francisco.

San Francisco, June 26.-Harvesting has commenced in California. The season is a little late owing to cool weather in April and May. Reports of narvest yields are quite satisfactory. In the Sacramento and San Joaquin valleys grasshoppers are doing some damage to the grain that is not yet matured, but no great amount of damage from that source is expected as it is now so close to harvest time. Reports still come of a heavy crop in the Sacramento valley in the central part of the state, and the upper half of the San Joaquin, while some improvement is re-ported in the south. The first ship-ment of wheat was received in Stockton on the 17th instant by the Farmers' Union and Milling Company from J. M. Ferguson, of Lois, Tulare county. It consisted of one car-load of No. 1 Sonora, shipping wheat, and was of excellent quality.

In the local cash market not much business is passing, and but few sales of new crop to arrive have been made. No. 1 shipping is quoted at \$1.111/4 @1.121/4; milling, \$1.131/4 @ 1.15 per cental.

#### NUMBER YOUR HOMES.

City Ordinance Requires the Use of Street Numbers.

Now that the free delivery is to be established in Pendleton it is more essential that all houses be numbered in order to make it more conven ient for the letter carriers. There is an ordinance on the city ordinance Elegantly Furnished book requiring all owners of houses to have their homes numbered. In default of complying with this law a fine not to exceed \$5 or imprisonment not to exceed five days may be

imposed. This ordinance was passed more than a year ago and most householders have complied with the provisions, but some have not and unless all the houses are numbered it will not only make it difficult for the residents in such houses to get mail by the free delivery, but will lay them liable to the fine and imprisonment. Many new houses have also been built and some of these have not been numbered. This is a matter which should receive immediate at-
