The firm of Atherton & Copeland, general blacksmiths and horseshoers, has dissolved partnership and is succeeded by Copeland & Son. The new firm is composed of H. H. Copeland and son, Charles, both of whom are first-class workmen, thoroughly understand blacksmithing in all its branches, and are expert horseshoers. Copeland & Son will occupy the shop at 314 Webb street, where they will take pleasure in serving the public. Their shop is well equipped to do good work and reasonable prices will be charged.

ARGUMENT FOR PARDON.

Move in Behalf of Criminal Whom Dead Man Cleared.

Arguments were heard by Governor McBride, of Washington, Tuesday on an application for the pardon of Walter H. Erving, who is serving a 20-years' sentence at Walla Walla for the murder, in 1894, of Finley Garrison, in Island county. The application is based on recent sensational developments in the case. Erving was convicted solely on circumstantial evidence, Garrison's body having been found at the bottom of a well over two years after the murder. The trial in 1897 was given wide publicity by the press. Last January an unknown man committed suicide near Seattle by blowing his head off with dynamite. Near the body was found an unsigned note, ostensibly written by the suicide, in which was a confession of the murder of Garrison, and an exoneration of Erving. This alleged confession is the basis for the application for pardon. Erving was represented by a Denver attorney, N. Q. Tanquary, that city being the home of Erving's parents, who made the application for pardon. The pardon is opposed by Prosecuting Attorney Lester Still, of Island county. The governor has not yet made a decision in the matter.

TO GO TO WALLA WALLA.

Invitation Extended to Pendletonians to Visit There on Fourth.

Mayor T. G. Halley has received a general invitation from the Fourth of July committee at Walla Walla for the Pendleton people to attend the celebration. Walla Walla is going to celebrate in royal style.

She never fails to have a good time on the nation's birthday and the committee promises all who attend this year a better time and a more elaborate demonstration than ever before. Reduced rates are always given on all railroads and the citizens of Pendleton who wish to go to Walla Walla to spend the glorious Fourth will be accorded a general time.

FOOL-KILLER IS BUSY.

Meriden, Conn., Business Men Have Epidemic of Suicide.

The city of Meriden, Conn., is worked up over the supposed existence of a suicide club. Within the past eight weeks as many prominent business men have committed self-destruction and the local detective force is hard at work trying to find if there is any such club existing, and if so, will endeavor to break it up lest it depopulate the town of its best citizens. Most of the suicides have been men of means, one of them being a millionaire. Tuesday the last suicide occurred which has stirred the town to renewed efforts to locate the cause. This was William McGovern. The first to take his own life was Charles N. Blake, a prominent merchant and club man. Following him in rapid succession came John Douglass, Adam Kniffman, Frank Wood, William Smith, Peter McGuire and Thomas Hart.

FRUIT TREES DYING.

A Peculiar Affliction Reported From Different Points.

During the past week a number of complaints have been received at the experimental station of the Washington agricultural college concerning the dying off of fruit trees. These complaints have come from Cheney, Ritzville, Farmington and Ellensburg, as well as from this immediate vicinity. The trouble manifests itself by some or all of the branches falling to leaf out, especially near the tips; or the leaves do develop partially and then curl and wither. Professors Fletcher and Piper have been investigating the matter about Pullman. Here the trees are mostly affected on the west and southwest sides. Only rarely are entire trees affected. The twigs seem to be perfectly healthy, the bark being smooth and the cambium layer of the nor-

mal green. As the twigs die, however, the bark shrivels more or less.

In other cases the trouble is manifested only in the extreme tips of the twigs. This last is the ordinary form of winter injury here, all sorts of trees being affected. This sort of injury has usually been ascribed mainly to drying out by the winter winds.

The trouble so common this spring seems to be much the same as the usual winter injury, only, much more marked. All kinds of fruit trees are affected, apples apparently more so than others. That it is engendered by climatic causes seems hardly questionable, but whether it is brought about by low temperature or drying winds is not evident. It may be that the marked dryness of last fall is in some way associated with the trouble.

Treatment of Affected Trees.

The following suggestions for treatment are given by the experimental station professors:

"Two things can be done toward saving a badly injured tree. First, vigorously pruning it, cutting out all the diseased branches that can be spared; second, stimulating it to active growth by the application of nitrogenous fertilizers, such as barnyard manure, fish scraps, etc. It is probable that by these means many of the affected branches may recover. This treatment must be given at once, other wise there is little hope of success."

Shoes

WITH A
REPUTATION.

The advance styles of the Famous W. L. Douglas Shoe have arrived. Our stock is now complete and you will have no trouble in getting your size and style. Just think of it—Over four and one-half million pairs of the Douglas Shoe sold last year! They are union made, which means the shoes are made by skilled workmen and under sanitary conditions.

P. S.—Look out for the "Just as Good" kind.

AN OLD SORE

Will sour the sweetest disposition and transform the most even tempered, lovable nature into a cross-grained and irritable individual.

If impatience or fault-finding are ever excusable it is when the body is tortured by an eating and painful sore. It is truly discouraging to find after

months of diligent and faithful use of external remedies that the place remains as defiant, angry and offensive as ever. Every chronic sore, no matter on what part of the body it comes, is an evidence of some previous constitutional or organic trouble, and that the dregs of these diseases remain in the system; or, it may be that some long hidden poison—perhaps Cancer—has come to the surface and begun its destructive work.

The blood must be purified before the sore will fill up with healthy flesh and the skin regains its natural color. It is through the circulation that the acid, corroding fluids are carried to the sore or ulcer and keep it irritated and inflamed. S. S. S. will purify and invigorate the stagnant blood when all sediment or other hurtful materials are washed out, fresh rich blood is carried to the diseased parts, new tissues form, and the decaying flesh begins to have a healthy and natural look; the discharge ceases and the sore heals.

Several years ago, my wife had a severe sore leg and was treated by the best physicians but received no benefit. Our druggist advised her to try S. S. S., which she did. Fourteen bottles cured her and she has been well ever since.
J. R. MAROLD, 22 Canal St., Cohoes, N. Y.

S. S. S. is the only blood purifier that is guaranteed entirely vegetable. It builds up the blood and tones up the general system as no other medicine does. If you have a sore of any kind, write us and get the advice of experienced and skilled physicians for which no charge is made. Book on Blood and Skin Diseases free.
