WORKED THE WATERWORKS.

Pendletonian Concocted a Scheme to Beat His Water Bill.

There is a man in Pendleton who concocted and carried out a scheme which is far ahead of the Walla Walla woman's scheme to get ahead of the water company.

The Walla Walla woman became angry at the water superintendent and concluded she would get even by wasting all the water she could. Accordingly she went visiting one afternoon and before leaving turned on all the water faucets in the house. When she returned she found her house full of water. She had forgotten to pull the plug out of the bath tub and it had run over and flooded the house and cellar.

The Pendleton man went the water superintendent one better. He is a prominent citizen and would be known by most everyone in the town and county were the East Oregonian to give his name. The water is gauged with meters and every man pays according to the number of gallons used. The above referred to citizen has a nice home and a nice

grassy lawn. He used lots of water to keep his shade and fruit trees growing and the grass green in his lawn and he considered that if he had to pay for all this it would amount to quite a bill in the course of a year.

So he had an idea and he put it into execution. The meter was put on last spring and after it was on he got a plumber to tap the water pipe just above the meter and lay another pipe so the water used on the lawn would not come through the meter at all.

This was done and the water used all summer and until a few weeks ago when the water superintendent discovered the ruse.

The water superintendent says he thought this citizen kept his lawn and trees in very nice condition to use no more water than he did; as only what was used in the house went through the meter. He is also wondering if the fellow really meant to steal the water or if he thought he was doing the right thing in taking it from the city without paying for it.

THINK IT IS NOT FAIR.

Wheelmen Kicking Against Police Men for Not Enforcing Law.

Quite a little kicking has been done recently about the apparent inactivity of the police force in forcing everybody who rides on the walk to pay a bicycle license. There is an ordinance in Pendleton which provides that every man and woman who owns a wheel can ride on the sidewalks except on Main and Court streets, provided a license is paid for the privilege. Quite a few have paid this license and there are quite as many who have not. It is alleged that it is no uncommon thing for those who have not paid the license to be seen riding on the sidewalks in the residence portion of the town. If this is so, and no doubt but that it is, there is apparently little effort to stop it or compel the owner of the wheel to pay the license. If the police should catch these people breaking the ordinance there is no doubt but that they would be arrested and fined but they do it when out of sight and the police pay little attention to it and some are getting quite bold.

Congress of Southern Negroes.
Galveston, Tex., July 1.—With the object of creating a better feeling between the races and fostering any move for the uplifting of the negro, several hundred delegates from all parts of the South assembled here today for the second annual meeting of the Southern Negro Congress. Since the movement was inaugurated at a meeting held at Jackson, Miss., last year, it has enlisted the hearty co-operation of many of the most prominent negroes of the South and the large representative attendance at the present meeting is evidence of the widespread interest which the congress has awakened. The chief matters scheduled for discussion at the four days' session are the education question, outrages and lynchings and the negro in politics.

Rhode Island's New Divorce Law.

Providence, R. I., July 1.—Heretofore it has been almost as easy a matter to obtain a divorce in Rhode Island as in the Dakotas, but the conditions in this regard are radically changed by the new divorce law which went into operation today. The most important clause in the new law is that requiring a bona fide residence in the state of at least two years before applying for a divorce. This is expected to put a stop to the practice of wealthy women of New York and elsewhere coming to Newport, establishing a so-called residence and in a few months obtaining an annulment of the marriage contract on the grounds of non-support.

Indian Children Went East.

Within the past few weeks six Indian children from the Umatilla reservation have been sent to Lawrence, Kansas, to enter the Haskell Institute. The first to go were Jas. Crow, Sam Sturgis, and Joseph Chapman. Again Sunday evening the three children of Ed Barner were put on the train going to the institute.
