MAY BE IN CHINA

Latest Story of Schilling's Disappearance Points to His Having Gone There.

C. W. STINGER APPOINTED HIS SUCCESSOR AS AGENT.

New Man is Well Known in Portland - Has Had Long Experience in Railway Work and Will Undoubtedly Fill the Office Satisfactorily.

Portland, July 3.-Charles W. Stinger has been appointed city ticket agent of the Harriman lines, vice Victor Schilling, disappeared.

Mr. Stinger was formerly cashier and assistant city ticket and passenger agent for the Southern Pacific in this city before that office was merged, together with that of the Union Pacific and the Oregon Short Line, with the O. R. & N. company. He is entirely competent and is certainly next in the direct line of succession. He is a very competent man.

Victor A. Schilling's disappearance still continues to stir up Railroad Row, and the general public is fully as much interested as are the missing man's late associates.

A new story is afloat which attempts to point out where Schilling may have gone. It is rumored that he had made up his mind to pay China a visit. It is pointed out that he left Portland for Spokane on June 21. He was last seen at Spokane. It is known that he made a berth reservation for himself from Spokane to Seattle via the Great Northern. The train of that line went out from Spokane to Seattle Sunday night, June 22. Since then Schilling has not been seen. The theory now advanced is that he actually did go to Seattle, and that he may have taken a steamer from there to Victoria, B. C. The object of so doing, it is shown, was to have made connection.

Treaty With Spain.

Washington, July 3.-Minister Storer, of Spain, cabled the state department that the commercial treaty between Spain and the United States, was signed this morning.

ABANDON MEACHAM EXCURSION

Wet Weather Knocked Out Excursionists' Plans for Day of Sport.

Owing to the rain, parties in charge of the special excursion to Meacham tomorrow have cancelled the arrangements and no special train will be run.

It is evident that the rains have made the grounds too wet for a pleasant outing and the trip would not be an agreeable one. The O. R. & N. Co., however, will sell round trip tickets to all points within 200 miles of Pendleton at one and one-third fare for the round trip to all desiring to use the regular train service. Tickets good returning up to and including July 6th.

JUNIPER WHEAT FINE.

Crops Near There Are Doing Well, and Will Yield Heavily.

M. L. Morrison was in town Wednesday from his ranch in the Juniper country. He stated that wheat in his neighborhood never looked better. He brought in a fine sample of Winter Fife wheat of which he has 175 acres. This is an early variety and a vigorous, hardy grain plant, which seems to be particularly adapted to this section. Mr. Morrison expects a big yield from his acreage, particularly from this Fife wheat. Mr. Morrison further stated that his brother, J. H. Morrison, a former well known citizen of Umatilla county, was now a resident of Weiser, Idaho, where he was engaged in business, having tired of the east, where he went from Oregon several years ago to remain permanently.

Cost of the Boer War.

It has been generally conceded that England would eventually conquer the Boer forces in South Africa, but when the end comes she will find the cost to have reached an enormous figure. There are many persons who spend large sums of money in a vain search for health. They take all kinds of medicines, which at the best only give temporary relief, and the patient is as far from recovery as at the start. The result is far different with those who use Hostetter's Stomach Bitters for indigestion, dyspepsia, heartburn, constipation, biliousness, insomnia or malaria, fever and ague. It positively cures. Hundreds of people have said so, and many prominent physicians and druggists always recommend it. Be sure and try it. Our Private Stamp is over the neck of the bottle.

Washout Delayed Train.

O. R. & N. train No. 1, due in Pendleton from the east Wednesday morning at 8 o'clock, did not arrive until 9 o'clock in the evening. It was delayed in the Platt river country, Nebraska, by a wash-out. A waterspout struck the train and washed away the track on both sides, but fortunately no lives were lost. This morning's train was four hours late from the same cause.

Does Not Like the Strikers' Riots, Which Have Recently Occurred.

Wilkesbarre, Pa. July 3.-President Mitchell returned to his headquarters today one day sooner than was expected. He was greatly disturbed because of the rioting since his departure.

This unrest among the miners is caused by rumors, unfounded, that the operators intend to open the collieries, and a break in the strikers' ranks is the result.

NO FREE DELIVERY

ANOTHER THREE MONTHS' DELAY IN MAIL SERVICE.

Letter Received at Postoffice Notifying That It Has Again Been Put off by the Department.

The establishment of free mail delivery has again been postponed. A letter to this effect was received by Assistant Postmaster Bateson this morning. It reads:

Washington, D. C., June 28:-Postmaster at Pendleton, Sir: The postmaster-general has issued an order postponing the establishment of the free mail delivery service at your office from July 1 to September 1, 1902. Very respectfully, J. J. Hawley, acting assistant postmaster-general.

This puts the time of the establishment of the free delivery, which has been promised the citizens of Pendleton for the past year, another three months off.

Not long ago the examinations were held here of applicants for service as carriers and the appointment was expected every day, but now the postponement of the establishment of the delivery will give plenty of time.

Nothing has been heard from these examinations and it is not known who the lucky ones are.

Two More Loving Hearts.

The Walla Walla Union states that a marriage license was granted to Claude C. Medley and Miss Jennie W. Cole, in that city yesterday. Mr. Medley will be remembered by many young people of Pendleton, where he was clerk in the Cleaver Bros. store for several years and later held a similar position with the Pendleton Shoe Company. Mr. Medley went to Walla Walla a few months ago and is employed in a shoe store. He and his bride will make their home there.

Mrs. J. B. Goff, aged sixty years, living near Oakland for many years past, died Saturday from an overdose of belladonna taken by mistake. She and her family were highly esteemed.

TRACY AT IT AGAIN

Stole a Launch and Compelled Four Men to Run it for Him to Seattle.

LANDED AT BALLARD AND POLICE NOW ON TRAIL

Was Seen This Morning Walking Along the Tracks of the Seattle International Railway and is Now Surrounded in Ravenna Park.

Seattle, Wash., July 3.-Convict Tracy held up four men at Olympia last evening and compelled them to run one of the largest launches on Puget Sound from Olympia to Seattle for him. He told the men that he had murdered Merrill because the latter became faint-hearted, but this story is not believed as it is thought Merrill is in hiding in the vicinity of his sisters home at Shelton.

Tracy landed at Ballard, a suburb of this city, and was seen at 6:30 this morning walking along the Seattle International railway past Ravenna park, at the edge of the city.

A. D. Freeman, who recognized Tracy when at a distance of 100 feet, walking along the track with his blankets on his back, ran to the nearest telephone station and telephoned the police who were on the trail within 30 minutes with a large force.

The police think Tracy is in Ravenna park, which is heavily wooded and brushy, and a battle is expected any minute as they are closing in and will attempt to kill him at sight.

Tacoma dispatches say that Tracy held up a house at Belmoore, five miles west of Olympia, before stealing the launch, stripped and bound an old man and took what clothes he wanted. Merrill was with him at this time and the two men washed and shaved themselves. They stayed about two hours and from the conversation which the old man heard while he was lying there bound watching them, he is convinced that the men were the escaped convicts.

TO ASSASSINATE ROOSEVELT.

Trance Medium Predicts Attempted Killing of the President.

J. K. Breosen, a young man residing in Findlay, Ohio, while in a trance last Sunday night made a startling prediction that was listened to and taken down by trustworthy witnesses. He says an attempt will be made on the life of President Roosevelt within fifteen months by a man with a fancied personal grudge. The plan will be frustrated by the activity and bravery of the president.

King Edward will recover but he will not live three years. When his son succeeds him an attempt will be made to form a republic and grant freedom to the colonies, including Ireland and Scotland, but will fail because the wealth of the country is in the hands of the nobility.

The pope will die with the close of the year. His death will materially change the political map of Europe. The next president will be a republican, but it will not be Roosevelt. There will be a terrible storm during the third week of August.

THE KING'S CONDITION IMPROVES

London, July 3.-This morning's bulletin says the king slept well last night and nothing occurred to mar the excellent progress his majesty is now making.

The king's illness has not yet been mentioned in the court circular, this being a survival of the old custom of not making such admissions for fear some rival would take the opportunity to seize the throne.

The latest speculative date for the coronation is St. Edmund's day, November 20, when it would be of the most exclusive religious character.
