WALLA WALLA NEWS

BIG CELEBRATION FOR FOURTH IS NOW READY.

Special Trains to Be Run—School Census Increased—Old Pioneer Dead—Mellman Franchise is Granted.

Walla Walla, July 3.—Tomorrow will be the glorious Fourth and everything is in readiness in this city for the proper celebration of the day. A huge parade will be given in the forenoon, a program of addresses and music will follow, and in the afternoon sports and a ball game will take up the time. In the evening two dances will be given, one by the band and another by the fire department.

Special trains will be run from Dayton and Waitsburg, and from Eureka Flat—country, arriving about 10 o'clock.

A large crowd is expected in this city. A feature which will bring crowds in the evening will be a display of fireworks which is promised to eclipse any former attempt in this line of entertainment.

Increase in Schools.

The city of Walla Walla has increased in school population to the number of 60 in the past year, as shown by a census just completed by J. W. Shepherd and J. C. Ryan. The total number of persons of school age found in the four wards of the city is 2371, as against 2311 last year. The total for the school district has not been secured as the figures have not been compiled for the outlying section. In one ward the decrease numbered 49. It is expected that a material increase will be shown for the district as a whole.

Well Known Farmer Dead.

B. E. Bussell, a pioneer of this valley, and a wealthy farmer, died at his farm Tuesday night from injuries received while driving a young horse. He was 71 years of age and leaves a family of grown children, his wife being quite feeble. Mr. Bussell was among the early pioneers of Walla Walla valley, and had resided continuously upon his farm, several miles from this city. Funeral services were held today, interment being in the Valley Chapel cemetery.

The Electric Franchise.

A franchise has been granted by the city council to F. B. Romo and H. Mellman for the purpose of allowing them to operate a general electric business in this city and lay rails for the construction of a street railway along the streets of the city, passing through the city from east to west. A forfeit of \$2000 in cash has been posted that work will begin within six months and the line will be completed within two years. For the franchise the parties are to pay a nominal fee to the city annually. The Mellman-Romo railway project is the one which is said to be certain of construction between Dayton, Wash., and Pendleton, Or., taking in this city and several smaller places on the route as now mapped out.
