A NEW TIME CARD

WALLA WALLA GETS A FAST SERVICE TO COAST.

W. & C. R. and Northern Pacific Unite to Improve Service—Red Men to Entertain—Walla Walla Won Another Game.

Walla Walla, July 7.—The new time card between this city and Tacoma and Seattle, went into effect upon the lines of the Washington & Columbia River Railway and the Northern Pacific yesterday, giving a straight passenger and regular fast freight service from this city to the coast. The new service is the best ever in effect from this place, and will likely be of material benefit to the wholesale houses of Seattle and Tacoma.

The passenger train leaves this city at 9 o'clock in the evening, connecting at Pasco with the Northern Pacific, landing the passenger on the coast early in the morning. Passengers from the east will take the train for this city, arriving at 5 o'clock in the morning. A fast freight will leave this city at 9:30 in the evening, returning at 10 o'clock the following morning. This train will carry passengers for local points, or points east on the main line.

Dr. E. E. Wiley, supreme head of the Independent Order of Red Men, arrived in this city yesterday, and is the guest of the local tribe. Mr. Wiley is making an official visit to the leading lodges in Washington and Oregon, and several days will be spent in this territory. The local tribe had planned an elaborate entertainment for the leader of the order and an address by the visitor is one of the principal features.

Walla Walla won another game from Athena yesterday afternoon. Cryderman pithing a second game in succession with excellent results. The score stood 5 to 4 against; 4 to 2 for the game on the Fourth. The two teams played three games here, Athena winning the first. The game yesterday was good ball, and the attendance was fair. The Athena team left the city this morning for home.

MONEY IN STRAWBERRIES.

East End Strawberry Growers Cleaned Up \$15,000 This Year.

Milton, July 7.—A close estimate of the strawberry crop grown in Milton and Freewater this season gives the total at 7000 crates, or between \$10,000 and \$15,000 worth. Of course the above includes the strawberry growing territory surrounding the two places, but most of the berries are grown in the suburbs.

The crop was much short this year of what it was last and the decrease is thought to have been near 3000 crates. This was due to the cold, damp spring. Some loss was sustained because of a shortage of hands to pick them.

The prices remained at a high notch this season. The Hood River variety ranged at, almost \$2 a crate the whole season, while other varieties ranged from \$1.25 to \$1.75. As much as \$275 worth of berries were picked off one acre by some growers, leaving \$200 or more clear profit.

These figures show that there is a good profit in growing strawberries, and each year increased acreage is added to their culture. The present season is now almost over so far as the local growers are concerned.

Handsome Special Number.

The annual number of the Commercial Review, the Portland grain publication, over which Leo Peterson presides, was issued July 1. It is a handsome number replete with grain statistics and information of interest and value to grain growers and grain dealers. The number is handsomely illustrated with cuts of shipping, cities, public buildings, mills, harbors, farm scenes and vessels. It is a credit to its energetic publisher and a good advertisement of the varied industry of Portland, "the big city on the Willamette."

The rain at Portland Wednesday and Thursday is reported the heaviest in the history of the Portland weather bureau.

TRACY SCARE AT SPOKANE.

Women Barricaded Their Doors Against Coming of the Bad Man.

A. S. Heatfield, mail clerk on the O. R. & N. between Pendleton and Spokane, says the whole female population of Spokane and some of the males were much worked up over the report that Tracy, the man-killing convict, was in town. Some one reported that Tracy was seen coming into Spokane and the news spread like wild-fire and it was only a few minutes until the escaped convict's name was on everybody's lips. The wires to police station and the Spokesman-Review office were kept warm by anxious women asking if the rumor had any foundation, and after it was denied many could not believe but that Tracy was in the town and would swoop down upon them and kill half the population before they were aware of what was happening.
